

Test Your Milk

We want you to put Dr. Hess Stock Food to a test. We know what it will do, but we want you to know it. We know that Dr. Hess Stock Food given with the regular ration will make more milk of a better quality, and in sufficient quantity to leave a surprising margin above the extra cost. Just take two cows giving approximately the same pounds of milk; add to the ration of one the small doses of Dr. Hess Stock Food as prescribed. Let the other drag along in the same old way. Now we guarantee that

DR. HESS STOCK FOOD

A TONIC

will positively produce a big profit. Besides making cows give more milk Dr. Hess Stock Food increases the digestive capacity of market stock, shortening the feeding period 30 days at the very least, besides curing and preventing many forms of stock disease. Stockmen must remember that it is not the amount of food consumed but the amount digested that produces the profit. Increasing the powers of digestion and assimilation according to the best medical authorities can only be produced by the action of bitter tonics, iron, and other medicinal ingredients such as are contained in Dr. Hess Stock Food, the prescription of Dr. Hess (M.D., D.V.S.). The ingredients of Dr. Hess Stock Food are recommended by the Veterinary Colleges and the Farm Papers. Recognized as a medicinal tonic and laxative by our own Government, and sold on a written guarantee at

7¢ per pound in 100 lb. sacks; 25 lb. pail \$2.00.
Smaller quantities at slight advance. Duty paid.

A tablespoonful per day for the average hog. Less than a penny a day for horse, cow or steer.

If your dealer cannot supply you, we will.

Remember, that from the 1st to the 10th of each month, Dr. Hess will furnish veterinary advice and prescriptions free if you will mention this paper, state what stock you have, also what stock food you have fed, and enclose two cents for reply. In every package of Dr. Hess Stock Food there is a little yellow card that entitles you to this free service at any time.

Dr. Hess Stock Food free, if you mention this paper, state how much stock you have and what kind of stock food you have used.

DR. HESS & CLARK, Ashland, Ohio, U. S. A.
Also Manufacturers of Dr. Hess Poultry Pan-a-c-e-a and Instant Louse Killer.

Instant Louse Killer Kills Lice

We Will Buy

You a Bottle of Liquozone, and Give it to You to Try

We make few claims of what Liquozone will do. And no testimonials are published to show what it has done. We prefer that each sick one should learn its power by a test. That is the quickest way to convince you.

So we offer to buy the first bottle and give it to you to try. Compare it with common remedies; see how much more it does. Don't cling to the old treatments blindly. The scores of diseases which are due to germs call for a germicide. Please learn what Liquozone can do.

What Liquozone Is.

The virtues of Liquozone are derived solely from gases, by a process requiring large apparatus, and from 8 to 14 days time. No alcohol, no narcotics are in it. Chemists of the highest class direct the making. The result is to obtain from these harmless gases a powerful tonic-germicide.

The great value of Liquozone lies in the fact that it is deadly to germs, yet harmless to you. Germs are of vegetable origin; and this gas-made product, when absorbed by them stops their activities. We publish an offer of \$1,000 for a disease germ it cannot kill. But to the body Liquozone is exhilarating, vitalizing, purifying. It is helpful in the extreme.

That is its main distinction. Common germicides are poisons when taken internally. That is why medicine proves

so nearly helpless in a germ disease. Liquozone is a tonic.

We Paid \$100,000

For the American rights to Liquozone, after hundreds of tests had been made with it. After its power had been demonstrated, again and again, in the most difficult germ diseases. Then we spent in two years, more than ten times that sum to let others test it at our expense. The result is that millions of people, scattered everywhere, have shared in the benefits of this invention.

We make the same offer to you. We ask you to prove, at our cost, how much this product means to you. Let Liquozone itself show how wrong it is to suffer from a trouble that it cures.

Germ Diseases.

Most of our sickness has, in late years, been traced to germ attacks. The list of known germ diseases now number about one hundred.

Some germs—as in skin trouble—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in Consumption. Some—like germs of Catarrh—create inflammation; some cause indigestion. Directly or indirectly, nearly every serious ailment is a germ result. Such diseases call for Liquozone—not drugs, which can't kill germs.

Every germ attack, no matter what its symptoms, calls for a germicide. The mildness of Liquozone makes some of its results seem almost incredible. But in that mildness lies the power that germ diseases need. And diseases which have resisted medicine for years often yield at once to it.

50c. Bottle Free.

If you need Liquozone and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it today, for it places you under no obligation whatever. Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON

Fill it out and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is.....
I have never tried Liquozone, but if you will supply me a 50c bottle free I will take it.

W413 Give full address—write plainly.

Note that this offer applies to new users only. Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

THIS HANDSOME STEEL RANGE

WHEN WRITING TO OUR ADVERTISERS PLEASE MENTION THE FARMER'S ADVOCATE

THE SAFEGUARD AGAINST POVERTY.

Besides being one of the most successful business and financial men of modern times, James J. Hill is also one of the most versatile thinkers and talkers upon economic questions, art and education. Transportation and agriculture are his two favorite subjects. Of his mastery of the former, the wonderful success of his railway and steamship lines bears ample testimony. Of his knowledge of the latter, farmers are frequently given an opportunity to judge by his vigorous advocacy of advanced systems and methods of farming. When he turns his mind to education the same clear discernment of the logician is observed. At a recent gathering of friends in St. Paul, Mr. Hill is reported as saying:

The nation at large feels that it is immensely prosperous. We are cutting a wide swath; there is no doubt of it. But if we will get down closer and examine what we are doing, we will find that we are living profligately and squandering our heritage in every possible manner.

We should insist on better cultivation of the land. For on that one item depends our future growth and prosperity, and there is no other item to which we can look; no other source of wealth than that which comes out of the cultivation of the soil.

If the soil is protected, if it is intelligently handled, if our crops are properly rotated, if the land is fertilized and rested and intelligently handled, we have a mine in the soil that will never be exhausted; quite unlike the other mine.

The millions and hundreds of millions of dollars coming into the Northwest from the annual crops, while it is large, it isn't half as large as it ought to be.

I was in England in November, and met a sad sight—Trafalgar Square filled with idle people, large numbers of idle people asking for bread up around Hyde Park. Why? The men who carry on the work, who paid the payrolls, are no longer engaged in the business.

In the west of England, which was a great center of broadcloth manufacturing and of woolen goods, their output is less than quarter of what it was twenty-five years ago. Germany is selling cutlery in Sheffield.

And I took pains to look around London, and to walk into the shops and find out. I couldn't buy a pair of hosiery thread gloves that were not made in Germany. Underclothing, stockings, cloth, almost everything made in Germany. They have a system of education in Germany. They educate their men.

I am not going to undertake to say that their way is better than ours, but I want to impress this on you, that when this country has 150,000,000 of people, they have got to do something; they have got to earn a living.

It is all well enough to talk about what we are doing. Examine it closely and you will find that we are doing nothing except selling our natural resources and exhausting them. When you dig a ton of coal out of the ground you can't plant another ton, as you could potatoes; it is gone. And when the fertility of our fields, the fertility of the soil is gone, where are we going to replace it from?

I am not going to find fault with education; it never hurt anybody. But if in place of spending so much time and so much money on languages and higher studies, we fitted children for the life that they are going to follow, for the sphere in which they are going to move, we would do more for them.

I know that in two or three, more or less, railroads in which I am interested, the payrolls cover 80,000 to 90,000 people.

We have tried all manner of young men, college men, high-school men, and everything else, and I will take a boy at
