

DIAMOND CRYSTAL SALT

* THE process by which this Salt is made is different from any other one of the kind in existence. That PERFECTION in the manufacture of such a variable article as Salt should be attained at once was not to be expected, and while the remarkable purity of Diamond Crystal Salt was generally conceded very soon after it was placed on the market, still the manufacturers were obliged to admit that at first it was not in every respect a perfect BUTTER Salt. Although much thought was spent and many experiments made, it was not until after FOUR YEARS of such effort that the trouble was discovered and the defects entirely remedied.

In spite of its defects, however, many dealers in butter, especially those who stored their goods for several months, insisted that this Salt should be used, since they had learned by repeated tests that it was the best Salt they could find for preserving butter and holding its flavor. To their first success—Purity—they have added a second by securing all the conditions essential in a Salt to be used for producing the Highest Grade of Butter.
