The Farmers' Market

WINNIPEG MARKET LETTER

WINNIPEG MARKET LETIEK

(Office of The Grain Grower's Grain Company Limited, April 1, 1912)

Wheat.—The beginning of another week sees wheat working stradily higher, even though American rists were off today. Monday, almost one cent per bushed. Now the lower grades at our own terminals again bringing better prices than the same grades in bond at Duluth and West Superior, and this will dy continue. One and two Northern wheat in bond Duluth or West Superior will probably not come to Fort William-Port Arthur prices. The chief reason for this is that in the past year one and two rithern have not been wanted for export nearly as keenly as the lower grades, and, of energes, the wheat bond at Duluth must chiefly go for export. There seems a very good export enquiry. The spread on gh grain remains about the same as it was last week. Shippers should bear in mind that absolutely tough grain is being dried at any terminal today, nor will any terminal accept orders to dry tough grain, it whole equipment being utilized to care for down and wet grain. For the first time is many weeks at Canadian terminals decreased slightly last week, going to show that the Canadian Pacific ilway company is moving stuff now more rapidly eastward, and the improved movement should conver. Farmers aboutd not thip one or two Northern, or it C.W. oats to American terminals, but if persion can be obtained to bill to Fort William or Fort Arthur, such grain should be sent there. Navigation any ice.
