

Special 60 Day Anniversary Prices.

For the next two months I am going to give my Canadian friends an opportunity to buy separators, engines, manure spreaders and other farm implements and household goods at special anniversary sale prices. Do not buy a gasoline engine, a cream separator, a manure spreader or any other machine until you have received my new special anniversary sale prices and proposition.

Galloway's Sanitary Separator

2,000 of these New Galloway Sanitary Perfect Skimming Cream Separators at special anniversary sale prices. They are made so good in our own factories that I will send one anywhere without an expert to set it up, to any inexperienced user for a 90-day trial, to test against any make or kind that even sells for twice as much and let the user be the judge. It's the most modern, the most sanitary, the most scientific, the cleanest skimmer, the most beautiful in design of any cream separator made today and I have seen them all. Positively sweeping the field before it.

More Power For Less Money

5,000 of these New Galloway Masterpiece Big 6 H. P. Gasoline Engines at our special anniversary sale price. Positively the power sensation of 1915. The most engine ever offered for the money. Its new design is mechanically perfect, big 6 H. P. engine built from highest quality of material, smooth, easy running, perfectly balanced, supreme in power, simplicity and design; not overrated nor light weight but large bore and long stroke, low speeded and built for long, hard, continuous, satisfactory service. Made in our great factories by the thousands and sold direct from factory to user at only one small manufacturing profit.

New Galloway Low Down Spreader

Don't buy a spreader any more at any price until you know all about this New No. 8 Low-Down Spreader. Eleven special patented features. Heavy channel steel frame. TRUSSED like a steel bridge. Double chain drive, direct from rear wheels. LIGHTEST CHASSIS of any low down spreader built. Tight bottom; 65 lbs. rake; scientific beater; runs close to the ground; steel drive chains, will not stretch. Steel wheels; only low-down spreader made with ALL-ROCK WHEELS (under the load). Front wheels turn clear under. Feed adjustable from 4 to 24 loads per acre. 60-70 bushels capacity. Superior in every respect to the new style horse killers that eat you up for repairs. Only 42 inches high at center of box.

WM. GALLOWAY CO., of Canada, Ltd.
Dept. 11, Winnipeg, Manitoba

Farmers! YOU ARE FACING RUIN

when you do not protect your buildings and livestock by a fire insurance policy. It would be a terrible hardship to have to spend the proceeds of this year's crop to replace your property when a few dollars each fall expended in an insurance policy will give you protection from such a calamity. INSURANCE THAT INSURES is what you require and this can be had at a very low cost from

THE SASKATOON MUTUAL FIRE INSURANCE COMPANY

SIR DONALD MANN SAYS FARMING MUST BE MADE MORE PROFITABLE

Sir Donald Mann, vice-president of the C.N.R., was recently asked by the Toronto News what in his opinion was the chief thing to do for Canada in order to re-establish prosperity. His answer is given below:

Farming must be made more profitable. The back-to-the-land movement will never advance beyond the magazine article stage, and the exodus from the farm will not be stayed until farming becomes a means of making something more than a living. Born and brought up on an Ontario farm, I know its hardships and the scant savings that are made from a life's work, and appreciate the eagerness with which so many young men seek work and hope for riches in the city.

The attractions of the city are many. Sanitary conveniences, public libraries, swimming baths, athletics, shorter hours of work, have all contributed to the 65 per cent. increase of urban population that occurred within the decade covered by the last census; but back of it all lies the hope of greater gain. It has always been a difficult thing for governments to hold the balance between agriculture and industry. It will always be difficult. But, since there is no more important task, it is well worth the best efforts of our men in public life.

A National Problem

The question must be approached from the national standpoint, for the country's development is built upon its natural resources, of which agriculture is the most important. To secure immigration is important; to direct it into proper channels in this country is not of secondary importance. It cannot be directed to the land unless agriculture offers a sufficient reward for the capital and labor applied to the land.

That in the ten years covered by the census the rural population increased only 17 per cent., is sufficient evidence that the tide of immigration is not flowing on to the land; and this in a country in which only one-third of the land fit for cultivation is occupied. This is not alone a farmer's problem. It is everybody's problem. The three great interests—Industry, Finance and Transportation—cannot be prosperous unless the farmer is successful, and all must unite to bring about that success.

Better Markets and Cheaper Credit

There are many things that might be done for the farmer. May I emphasize two of them, viz., more primary markets and better credit facilities. One of the farmer's difficulties in my farm days—and I understand matters have not improved much since—was to find a nearby market for small quantities of vegetables, fruit, poultry, dairy and meat products, produce ready for market, but not in sufficient quantity to justify a wagon-haul to the city. Altho the individual farmer may have only a small quantity, the aggregate amount is large and, for the most part, perishable. The aggregate waste and loss of these products is considerable. Germany has worked out a rather elaborate system of markets; and as these suggestions are only as to what shall be done when the war is over, I would advise that an investigation be made then as to how they do, or did, their marketing in Germany.

Agricultural credit facilities involve many technical difficulties with which I do not pretend to be familiar, but I understand that France and Germany have led the way, while Denmark has copied the German system, and Australia the French system, with success. It is stated that, so far from being a drag on the government of the latter country, the loans to the farmer at four and a half per cent. interest have actually yielded a profit.

SQUIRE BUNG AND PROHIBITION

In Scotland sometimes I stay in an idyllic fishing-village, which has no public-house. It belongs to a distiller, who has a residence there, and he naturally protects himself by prohibition—in his vicinity.—Dr. C. W. Saleeby.

Treaties and international agreements, laws which nations make themselves—these are the only alternatives to and preventatives of war.—Miss Violet Asquith.

ONE SURE WAY TO Increase Production

and get what you produce is to put your machinery under cover to protect it from the weather and make it convenient for cleaning and repairing

Machinery that stands out all winter takes heavy toll in low efficiency and rapid depreciation

FREE PLAN OF IMPLEMENT SHED Protect your Farm Machinery and Vehicles with one of our Specially Designed, Metal Covered, Skeleton Frame Implement Sheds. Fire-Retarding, Lightning-Protecting, Storm-Proof, Permanent. Select from the list of Plans given below the one best suited to your needs, and we will send you free Blue Print showing Plan, Elevations and Sections, and quotation on the materials.

These Plans range from Model Buildings to the Plainest form of Sheds.
Plan No. 1—Size 24 ft. x 48 ft. Walls, 8 ft. high. Swinging Doors. Partitioned into Shed, Repair Shop and Office. Specially designed for Fire, Lightning and Weather Protection.
Plan No. 2—Size 24 ft. x 56 ft. Walls, 8 ft. high. Sliding and Swinging Doors. Plan partitioned into Shed, Repair Shop, Engine Room and Office. This is a larger Building, but less completely finished, and is lower in price than Plan No. 1.
Plan No. 3—Size 24 x 48 ft. Walls, 10 ft. Sliding door in end and side. Partitioned into Shed and Repair Shop. Plans below have no partitions.
Plan No. 5—Size 38 ft. x 56 ft. Walls, 8 ft. Sliding Doors in ends and sides.
Plan No. 10—Size 30 ft. x 50 ft. Walls, 10 ft. Sliding Door in each end.
Plan No. 18—Size 30 ft. x 50 ft. Walls, 12 ft. and 8 ft. Sliding Doors in each end and on side.
Plan No. 21—Size 34 ft. x 36 ft. Walls, 8 ft. and 6 ft. Two Sliding Doors in each end.
Plan No. 20—Size 24 ft. x 40 ft. Walls, 8 ft. One end Sliding Doors. Sliding Door on side.
Plan No. 4—Size 24 ft. x 40 ft. Walls, 8 ft. Sliding Door on one side.
Plan No. 22—Size 18 ft. x 36 ft. Walls, 8 ft. One side mostly taken up with Sliding Doors.
Plan No. 6—Size 20 ft. x 32 ft. Walls, 8 ft. Sliding Door on one side.
Plan No. 9—Size 18 ft. x 28 ft. Walls, 10 ft. Sliding Door on one side.
Plan No. 14—Size 12 ft. x 30 ft. Walls, 10 ft. Swinging Doors in each end.
Plan No. 15—Size 15 ft. x 30 ft. Walls, 10 ft. Swinging Doors in each end.
Plan No. 7—Size 15 ft. x 30 ft. Single pitch roof. Front 9 ft., rear 7 ft. Sliding Door on front.
Plan No. 8—Size 12 ft. x 20 ft. Single pitch roof. Front 8 ft., rear 6 ft. Sliding Door on front.
Plan No. 11—Size 12 ft. x 16 ft. Walls, 8 ft. Double Swinging Doors in one end.
Plan No. 12—Size 10 ft. x 14 ft. Walls, 8 ft. Double Swinging Doors in one end.
All the above are FIRE-RETARDING CONSTRUCTION. The range is a wide one to select from, but if you do not find what you want, then let us know, as we may have something similar, or if not, then we will draw you a Plan. DO IT NOW.

Death to Gophers!

An Ingenious and Effective Exterminator, by which farmers can swiftly and surely rid themselves of the gopher pest.

The Improved Western Gopher Destroyer (Yeoman's Patent) is a simple little machine which you can carry around and with it destroy every gopher whose burrow you can locate.

You simply put hose in gopher's burrow,

and pump in the poisonous sulphuric gas, which will immediately kill the gopher. The machine consists of air pump, with gas production chamber attached, rubber gas conducting hose. Will not blow back, because of patent valve in chamber.

Gas is produced from burning charcoal and sulphur, both of which can be procured anywhere. Weight of Destroyer, 9 lbs.

Order No. 22X1. Complete with enough Sulphur and Charcoal to test out. Price... \$5.00
