HOUSEHOLD HINTS

To rid the kitchen of flies, close windows and boil a pint of water to which has been added 10 drops of carbolic acid vigorously for five minutes. Then raise windows and the flies that are not dead will fly out.

Remove grass stains from white garments by soaking in kerosene, then washing well with soap and warm water. If the stains are not bad a little lard, rubbed on the spots, then washed in soap-suds, will take them out.

Acid fruit require an almost unlimited amount of sugar, much of which can be saved by stirring in before sweetening, a little soda—a half teaspoonful to a quart of fruit.

Take lettuce as it comes from garden or store and put in an air-tight vessel with a little water in the bottom. Then when you wish to use it you will find many leaves which at first you would have thrown away, fresh and crisp. This is much better than putting on ice.

When buying stair carpets provide at least half a yard longer than is actually required, to permit of changing the tread from time to time. When laying the carpet for the first time have the surplus half yard at the top. After the first time it is taken up, when relaying it pull it over the steps a few inches, and so on until the surplus half yard is all at the bottom. Then the carpet can be reversed and the process repeated with the result that some years will be added to the life of the carpet.

HOW TO SECURE PATTERNS

To secure any of the patterns published in The Guide all that is necessary is to send 10 cents to The Pattern Dept., Grain Growers' Guide, Winnipeg, and state the number of the pattern, giving bust measure for waist patterns, waist measure for skirt patterns, and the age when ordering patterns for misses or children. It will require from ten days to two weeks to secure these patterns as they are supplied direct from the makers.

PROTECT THE CHILDREN

Samples of "soft drinks" ingredients analysed by city of Chicago and State of Illinois inspectors showed that while many of the delightful beverages which please the children are comparatively pure, others are adulterated and misbranded. Here are a few of the conditions covered in official reports:

Chocolate (to be used in coloring ice cream cones)—Contained floor sweepings, wooden splinters, bugs, and strands of human hair.

Pure Fruit Flavors—Artificially colored, sometimes contain benzoic acid or salicylic acid.

Sweet Apple Cider—Contains benzoic acid, sometimes an artificial substitute is used for apples.

Penny Pop—Often manufactured in unclean basements; "flavored" by laboratory product of brilliant color and often harmful composition; rarely if ever labeled correctly according to the laws of the country.

Other Carbonic Drinks—Not only made under insanitary conditions but distributed in bottles which not only have not been thoroughly cleaned but have "germ-catching" types of stoppers.

No. 8760—A New Skirt Model. Ladies Yoke Skirt with Circular Lower Portion.

A most attractive and stylish model is here shown. It is composed of a round yoke to which a circular lower part is joined. Silk, cloth, linen or other wash fabrics may be used for this design. The pattern is cut in 5 sizes: 28, 30, 32, 34, and 36 inches waist measure. It requires 4 yards of 36 inch material for the 34 inch size.

WHEN MOTHER TOOK TO SLANG

Once mother broke out into slang!
We'd often heard her say
Naught else was talked around her
From dawn till close of day.
And mother she was joyful,
"They've put me wise," cried she,
"It knocks me how I used to talk!
But sure, that's one on me!"

When mother took to talking slang
It was a mournful day,
And dad and all us children
Just listened in dismay;
But mother she was merry;
"Oh, drop it now!" quoth she,
"Cut out the grouch; come, be a sport,
Or else the joke's on me!"

When mother took to talking slang
The household speechless grew,
And father groaned and sister moaned,
And all the children, too;
Still mother dear was happy;
"You love it so," said she;
"I've learned it good and plenty
And I hope you're pleased with me!"
