

PORT COLBORNE REFINERY

Area 330 Acres
Buildings 31
Employees 500
Cost . . . Over \$5,000,000

THE magnitude of the Port Colborne Refinery and the investment that gives it the enormous capacity of 24,000,000 lbs. of nickel, typify the enterprise that has brought "Nickel Service" to the present high standard, not only in Canada and Great Britain, but in all parts of the world.

INCO NICKEL

Shot—High and Low Carbon. Ingots—25 lb. and 50 lb. sizes.
Electrolytic Nickel—99.80 %.

Prime Metals for the manufacture of Nickel steel, Nickel silver, Anodes, and all remelting purposes. It is also produced as rods, sheets, strip stock, wire and tubes.

INCO MONEL METAL

The name Monel is given to a line of metal products developed from a natural nickel alloy—67% nickel, 28% copper, and 5% other metals. These products include Monel rods, Monel blocks, Monel castings, Monel wire, Monel strip stock, Monel sheets, etc.

Monel Metal withstands alkalies, high temperatures, most acids, and erosive action of gases and superheated steam. Can be forged, cast, rolled, drawn, machined, brazed, soldered, and welded. Takes and retains a perfect nickel finish.

Monel Metal may solve your difficulties—our Technical and Sales Departments will gladly cooperate with you.
