A WILD MAN.

pler Found After Several Year

In a forest of Galicia, Austria, near the town of Bialak, the peasants have just captured a wild man who for years has been the terror of the district. Travellers in numerous instances had been attacked by him, and he was accustomed to plunder the ottages of the peasantry for food. By those who to their sorrow had seen the man he was described as a monster, unkempt, innocent of clothing and covared with hair from head to foot. Finally a hunting party was organized, and the wild man was captured after desperate resistance. His appearance quite bore out the worst of the dequite bore out the worst of the descriptions. Atter he had been washed, shaved and clothed he was identified, to the surprise of his captors, as John Herman, formerly Secretary of the District Council in Wodnian, Austria. Several years ago Herman belonged to the fashionable circle in Wodnian, and went at an exceedingly rapid gait. He embezzled 5,000 guldens, fled to escape pursuit and could not be traced. He seems to have taken refuge in the forest, which he dared not leave, and it was the life he was forced to lead there that transformed him from a sybarite into a savage.

### OUT OF HIS LINE.

Do you know, cautiously inquired a young man who was making his first trip on an ocean steamer, approaching a group of passengers on the deck, whe-ther there's a doctor on board? Yes, replied a fun-loving passenger. That is one standing over there near the rail.

The young man hastened over to the grave, elderly personage who had been pointed out to him. pointed out to him.

Beg pardon, he said hurriedly, but
you're a doctor, ain't you!

Yes, replied the other, with a slight

smile, doctor of laws.
Well, Doctor Uvlaws, rejoined the young man, I wish you would come down to the cabin with me. My wife if awfully sick to her stummick."

### A MISUNDERSTANDING.

How soon will father be home? asked he boy who had a large book on his

knees.

Very soon, answered Mrs. Cumrox.
Do you wish to ask him something?

Yes I want to ask him if he ever

A writer in "The Stockbreeder" assigns to Thomas-Phosphate Powder tomething approaching the important place it is evidently destined to occupy in agriculture in the future. "Possessing as I do keen sympathy with our cattle breeders, graziers, and farmers generally, I would esteem it a privilege to add, through you columns, my quota of testimony to the splendid manurial qualities of this somewhat recently introduced form of phosphate. I have used it on my land, where it has transformed pure grass phosphate. I have used it on my land, where it has transformed pure grass into a beautiful clover-bed, of the greater feeding and meat-producing of which, compared with the former condition of the herbage, it is needless to expatiate upon, here and now. But to refer for a moment to Mr. Wallis' able criticism of the Glasgow Technical College report, I am one with your correspondent "J.W.H." when he says: "In the closing paragraphs the difference in albuminoid feeding value, of the turnips. I take as the pith of the whole experiment. If there is a benefit in Thomas-Phosphate Powder, as here shown, why do not professors attempt to lay it before us?" I beg to hazard, with some deference, a conjectural reply to this question: that certain professors of agricultural science may possibly fear that if the recuperative and wealth-producing properties of this Thomas-Phosphate requirements of the Thomas-Phosphate requirements of the Thomas-Phosphate requirements of the Thomas-Phosphate requirements of the succession of the cartification, hearing will be destroyed forever; along the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; delight to harp upon—as constituting their raison d'etre—as to render many of their formerly accepted dicta at an inconvenient discount.

# Winter Warnings

We never know when an apparently healthy system may succumb to a cold or an attack of pneumonia, typhoid fever or the grip. The only safety at his season is in keeping the blood pure, the appetite and digestion good and the bowels regular. Hood's Saraparilla and Hood's Pills are the most ffective and valuable winter medicines. Hood's Sarasparilla purifies, artiches, and vitalizes the blood, tones and strengthens the stomach, creates in appetite and gives good digestion, and Hood's Pills keep the liver and howels in a healthy condition, cure biliousness, constipation, indigestion and headaches.

NO RIGHT TO BE MURDERED.

Lord Monck, at one time Governor of Canada, sat in the House of Commons for an English constituency. An Irishman himself, he was very patronizing to the Irish members. Meeting Vincent Scuily, the member for Tipperary, in the lobby one night, he slapped him on the shoulder and said familiarly: Well, Scull, how are you? The other, annoyed by this form of address, rejoined: I will thank my lord not to deprive my name of the last letter. Or, if you do pray add it to your own, and call yourself Monkey. Vincent Scully once gave utterance in the House to a ludicrous confusion of thought. A landlord had been murdered in Tipperary, and, during a discussion in regard to the crime, an attempt was made to prove that it was agrarian. Mr. Scully spoke of the murdered man in terms of the highest praise. He was much beloved, said he; he distributed food to the starving people, and no man had less right to be murdered. Scull, how are you? The other, annoyed

Mrs. W. Rowe, of Woodstock, Tells a Thrilling Story.

restrated by Female Weakness, Kidney and Liver Troubles—Her Doctors Gave Her up to Die—Saved by Dodd's Kidney Pills.

Woodstock, Ont., Jan. 23.—Mrs. W. Rowe, who keeps a grocery store at No. 311 Dundas street, here, and who is known to, and respected by, a very large number of people in the town, had a very narrow escape from an untimely death, recently.

To our reporter, who called on the lady, and asked for particulars of the incident, Mrs. Rowe said:

"I have had an experience such as fall to the lot of very few women. Twelve years of my life were made almost unendurables by 'Female Weakness,' together with Kidney and Liver Complaints.

"My physicians did all they could for me, but they could not give me either relief or cure. They finally announced to me that I could never get better.

relief or cure. They finally announced to me that I could never get better.

"Then I began to try what the various proprietory medicines that were advertised in the epapers, would do for me. I took a good many bottles of one remedy and another, but my case continually grew worse.

"One day I was advised by a friend to try Dodd's Kidney Pills. They will cure you, I know, for they saved my daughter's life, and she was worse than you are."

"Well, I took her advice. In two days a wonderful change for the better had occurred. I felt myself growing stronger daily. My appetite returned, the dull, heavy, weary ache went out of my back; the terrible leaden weight from my legs, my headaches. Vanished, my sleep became sound and refreshing. To-day I am healthier, stronger and better every way than I have been for twenty years.
