AROUND THE WORLD.

The theatrical company from Rotterdam has won golden opinions in London. The costume of an English lady of fashion in a ball-room in the year 1812 is far more indecous than that of an Indian savag.

Mis Birvre, of Charleston, S. C., has a court case on foot. He is accused of being the father of a child. It is of purple stain, and is still in good condition.

A Chicago man, arrested while attempting to kill himself with a razor, told himself away from the policeman and jumped from a high bridge, thus accomplishing suicide.

A man in London makes a living as a searcher for lost things. He goes to places of public resort, such as parks where free concerts have been given, and daylight every morning, looking for accidentally dropped articles.

Have you brought a new penitentiary out of the penitentiary? A Hartford person undertook to talk through an iron grating to a man who had just been released from prison.

A marriage is arranged between Lord Algeron Prynne, youngest son of the Duke of Northumberland, and Lady Catherine, eldest daughter of the Earl of Mount Edgcombe.

The Methodist ministers of Boston have formally requested the city authorities to cease giving free concerts on Sunday in the public parks, on the ground that such music is "promotive of Sabbath desecration and injurious to public morals."

One act was to have by her husband from a trapeze and hold her acrobat by her teeth. Recently in Hamburg she had her teeth and her husband were torn out, letting the man fall.

The Roman Catholic of England are building a magnificent cathedral at South Kensington, London. It will rank in grandeur with St. Paul's and Westminster Abbey.

Madison Brown was to be hanged at Moberly, Mo. He and his wife agreed to die at the same time. The execution was postponed, and they were compelled by physicians to recover, and then died on the scaffold.

The St. Petersburg press party confirms the statement that in future political trials the Emperor will be surrounded by distinguished civil courts, and not of Military tribunals.

On his return from Europe I became a member of the Artistic League in New York city, and had a studio next to Hartley, the sculptor.

An authority on horsemanship says that it is folly for a lady to stuff doll eyes, as she is likely to see them in the future, and she is on her horse.

It is bewildering to read of the naval preparations made by China and Russia for their coming war. If the war does break out, the East will be a scene of confusion.

The Italian Chamber of Deputies is a heavy paving stone of basalt was hurled from the tribune among the members, and the speaker of the Chamber, Oscar Sinigaglia, was struck by the stone.

Trunk, Janes himself a Roman Catholic; as matter of fact he is an Englishman, and is leaving very strongly in certain circles of revealed religion, and thinking that he can only do his best to leave his English wife.
