CITY ROADS AND CITY FATHERS

THE FOURTH AVENUE AND MINES ROADS MUDDLE.

The Board of Works Disregards the City Council-Inconvenience Suffered by the Mines-Desecration of the Graves.

ommended the city council to open the not say that there should be representaroad to the cemetery, park, Columbia-Acotenay, Dig Three and Iron Cost mines Yaul to Georgia street. This was rejected. A grade was made a little off Fourth crossing private lots, which by a circuitous route reached, after divergence, both the Columbia-Kootenay mine and the cemetery. Both of these routes have been fenced up and yet the city council are by no means prepared to follow the adengineer they employed. Fourth avenue has to be opened, but this ill-fated street can only be opened in Between Monte Christo and sections. Georgia it is to be graded, but between Monte Christo and St. Paul, one block, or rather one-half block as the part in front of the school house is already open, must remain closed.

From Georgia street access can be had on the right by an already graded road (crossing private property) to the park, on the left the Columbia-Kootenay mine is opening a road at its own expense to its property. This portion of the road will be granted a free right of way by the Nelson and Fort Sheppard railway. This is already started upon and a gang of 10 or 11 men are occupied in tracing out the road recommended to the council a year since, but abandoned by the city fathers for no apparent reason other than that some municipal voter's sidewalk was more important than a mining road.

But connection has to be made with the city system of roads and the city and request that the sale of cigarettes fathers or the chairman of the board of be stopped on Sunday. works have decided to connect, not by grading half a block, but by grading two blocks or what is really, according to the manner started, four. In other words, they propose running down Monte Christo work on Second avenue was stopped by

a vote of the whole council.

Alderman McKenzie uplifted his voice at the last meeting and protested, as did erman Hamilton, against the wasteful expenditure of money. They were assured by Mayor Goodeve and Alderman Dean that the way over Fourth avenue from St. Paul street, that half block, was more expensive than that from Second avenue and along Monte Christo street, and that the present city engineer had so

reported. As a matter of fact, the city engineer had made comparative estimates of crossing the railway track via Third avenue and Monte Christo street, and said the

latter was the cheaper.

As another matter of fact, Alderman McKenzie's scheme, poohpoohed because practical at the last session, would cost \$10 to \$25, against \$300 or \$400 by either of the alternative routes. Moreover it crosses no graves. -

A further point with regard to this botched-up job is the letting by tender of the Fourth avenue grading. The work cannot be begun under this system for come, and in the meantime the Iron Colt and Columbia-Kootenay mines cannot get coal to sharpen their steels nor a wagon out with any freight

THE QUARANTINE.

It Is to Be Kept in Force Till All Donger Is Over.

Canadian government is as rigidly adhered having been shot throught the leg twice, to today as when first organized some months ago. It is hard to understand speak in high terms of their treatment by just what occasions such vigilance on the Lord Roberts. part of the Dominion government, unless it is to give a few favored ones fat salaries. As far as is known there is not one isolated case of smallpox in the country, unless possibly it may be in Chinatown, San Francisco. Even providing that there had been of late some cases, it is a well established fact among physicians that this is the season for that disease to subside. All mails going into British Columbia are delayed 24 hours to be fumigated, for which service the postmaster at this point receives \$3 per day, and 50 cents for a helper Regular inspectors go through all north bound trains and subject the traveling public to the inconvenience of either showing proper vaccination certificates or marks of vaccination. As a natural sequence of this state of affairs the business men and merchants generally are anxious to see the farce terminated, especially those whose interests are over the line. There was no question raised in the beginning because of the enforcement of the quarantine, when it was a known fact that there were a number of cases of smallpox in the United States, but now that this is a matter of ancient history it will be of interest to see how long the burlesque is to be perpetuated.

Inquiry of the gentlemen in charge of the quarantine as to the justness of the complaint brought out the following: Recently circulars or inquiry were sent Assertion That 10,000 Troops Are Leaving out to all the centers of population in Washington, Oregon, Idaho and Western Montana. These circulars requested information as to the existence of smallpox and to what extent. The replies rerealed that smallpox prevails in a number of places, although it is on the decrease. It is known that there are numerous cases of smallpox in Manitoba and in the Northwest territories, all of which had its origin in the states. to the disinfection of the mail at Northport, that is a matter which is left to the ials. The Dominion government, in its wisdom, is determined to keep the quarantine in force till all danger of infection

YUKON AFFAIRS.

tack the Government

Ottawa, June 18.-(Special.)-In the House today Sir Charles Tupper stated that he would move, on going into supply, some day in the near future, that the Yukon council should be partly elected and partly appointed, and the district should be represented in parliament. Laurier said that the representation in Over a year ago Mr. H. B. Smith rec- the council was arranged for, but he did tion in the Dominion parliament.

Sir Hibbert Tupper moved an amen by grading down Fourth avenue from St. ment on going into supply to the effect that Walsh and other officials were specially favored in regard to Yukon exempavenue to the north and cut down the tions, and that the government was to be bank to the east of the railway track, censured for the same. The House divided on the amendment, which was lost by 33 to 63 against.

CAPE TROOPS.

South Africa for China.

New York, June 18.—The extreme gravity of the Chinese crisis, says the London correspondent of the World, is shown by the decision to detach a division (10,-000) of infantry, three batteries of artillery and a siege train from the Natal (Sir Redvers Buller's) forces, for immediate despatch to China. When asked how many troops he could spare from South Africa, Lord Roberts at first rethe American postal offic. plied that he could not spare a single man until he had fought a decisive battle with General Botha, the commandantgeneral of the Boer army, as the sending away of any part of the British force A Resident Physician—That's what you their resistance. Sir Charles and Sir Hibbert Tupper At- The Steamer Jeanie Brings the First News From the Frozen Up Fleet.

Seattle, June 18.-The steamer Jeanie Captain Mason, arrived last night, 14 days from Cape Nome with few passengers and no freight. The Jeanie brought out no gold except what was in the possession of her passengers, as it has not been possible to do much work during the winter sea-

The Jeanie was the first vessel to break through the ice and reach Cape Nome this season. She sailed from Seattle May 2, and arrived at Nome on May 23, three days ahead of the steamer Alpha, although the latter had sailed in the middle of April. The Jeanie brings news of all the ves-

sels of the northern fleet. They are waiting the breaking up of the ice, some remaining at Dutch Harbor and others scattered along to within 10 miles of Cape Nome. Several of the vessels, including the revenue cutter Bear, are frozen in about 105 miles from Nome. A number of minor accidents to the fleet are reported, and there has been some damfreight and baggage, but, so far as learned, no injury to persons or loss

Returning passengers report the gen eral health at Nome to have been good throughout the winter. There has been lack of accommodations and prices for everything are high, but the situation will be relieved as soon as the ice shall break and freight vessels get through.

THE HOSTILITIES.

Details of the Taku Fight-Seymour Retreats From Pekin Road

London, June 18 .- In the House of Commons today Mr. Broderick, for the government, amplified the admiralty's news from Chetoo. He said the Japanese warships reported that the Chinese forts opened fire on the gumboats at the mouth f the river yesterday at 12:30 a. m; that the ships then engaged the forts and that the engagement was proceeding when the Japanese ships left at 5:30 a. m. yester-

Detachments from all the foreign warships were landed on Saturday to protect Taku. There was one Chinese warship at Taku, which remained passive. Mr. Broderick added that the British Russian, Japanese and French reinforce ments were due to arrive about Thursday. Within the last hour Mr. Broderick said he had heard that the telegraph line from Taku to Tien Tsin had been restored The fitting out of the Japanese battleship Asahi, of 15,200 tons, being finished at the Clyde bank, is being expedited, and she is under orders to sail within a week. Lord Salisbury was questioned in the House of Lords today on the Chinese situation, and said he regretted he was unable to enlighten the house on the state of affairs in China. Admiral Seymour had evening and died this morning. He was returned to Tien Tsin, but the government did not know exactly why nor what Admiral Seymour's intentions were. The failure of the international forces to reach Pekin has greatly intensified the anxiety here as to the fate of the Europeans hud-dled together in the legations at the Chinese capital, and it is feared also that the check to Admiral Seymour's forces. necessitating their return to Tien Tsin will lead to large additions to the ranks of the Boxers, and make their suppression still more difficult.
