Petrograd, Nov. 1.—(C) nce of The Associated Press housing problem in Petrograd becomes more and more acute. Refugees have poured in, filling the hotels, filling all lodgings, and producing a congestion throughout the city. It has proved particularly to thousands of university students. At present there is hardly a vacant room in any of the hotels, which ordinarily let rooms to families in comfortable circumstances without the slightest need for an income by taking them. There are many cases where the students have yielded to the tremendous high prices to a panicky push of the moving picture converted into lodging-houses that the idle steamboats are requisitioned. Evidence of the present of lodgings occurs daily in the advertising columns of the newspapers. In some advertisements it is stated that as many as five hundred (two hundred and fifty) be paid as a bonus in addition to the regular rental merely for leading to the lease of an apartment.
