**Prohibition Campaign**

MRS. DAVID LLOYD GEORGE SAYS SCOTLAND'S PROHIBITION CAMPAIGN DEPENDS UPON WOMEN  
 Mrs. David Lloyd George, wife of the British Premier, is taking a prominent part in the prohibition campaign, addressing a meeting of 2,000 women at Glasgow recently.  
 "It is the duty of women to help the victims of alcoholism at home, as it was to help the victims of Prussianism in Belgium five years ago," Mrs. Lloyd George is reported to have said. "Scotland is on the eve of a great campaign, and next year the eyes of temperance reformers throughout the world will be focussed on Scotland. If Scotland is won, the victory will be a great stimulus to the world to do likewise."

Cardinal Mercier, primate of Belgium, the militant prelate of the Catholic Church whose heroic figure stood between his martyred country and the Hun during the war, has taken a stand in favor of general prohibition.  
 In an interview given to a representative of the New York Times, at the archiepiscopal palace at Malines, on June 18, the cardinal, according to his interviewer, "expressed his views on prohibition with animation, warming to his subject."  
 "I am a great believer in the repression of all intoxicating drinks such as alcohol and absinthe," he said. "If general prohibition were introduced, more human lives would be saved than by general disarmament."

**Loss of Strength Through Indigestion**

THE STOMACH CAN ONLY DO ITS WORK WHEN THE BLOOD IS RICH AND RED

Indigestion means loss as well as suffering to many people. Loss of strength, loss of time and loss of money follows indigestion and debility continues as long as the indigestion remains. Workers suffer from indigestion because their hours are long, and often they cannot give proper time to meals. Then the appetite becomes fickle, digestion becomes feeble and the blood becomes impoverished. So the general health suffers; languor, nervous troubles and often sleeplessness follows. It is well to remember that the whole system relies upon good blood and that good blood is impossible unless the digestion is good.

The stomach cannot do its work unless the blood is made rich and red, and so new blood alone can cure indigestion. It is for this reason that a remedy like Dr. Williams' Pink Pills which makes new, rich blood, cures indigestion and builds up the whole system. The great value of Dr. Williams' Pink Pills in cases of this kind is proven by the statement of Mr. R. E. Small, Wingham, Ont., who says: "The truthfulness of my statement can be proven by scores of my friends and acquaintances. I am a glove cutter by trade and for six long years have at times been a great sufferer from complication of ills chiefly due to indigestion. Gas would accumulate on the stomach causing me great pain. I would bloat up at times and almost suffocate, and often when at work would be overcome by a drowsy oppression which was almost indescribable. Finally I began the use of Dr. Williams' Pink Pills, and after taking seven boxes I feel like a new man. The transformation they have made in me is simply remarkable, and while using them I gained thirteen pounds in weight. I may add that I began the use of Dr. Williams' Pink Pills as a result of what they did for a niece, who underwent a critical operation, and who did not regain her strength until she started using the pills. In her case they fully restored her health, and this encouraged me to begin their use, with, as I have already said, a complete restoration of health in my own case."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

**John Bull, No Quitter**

(Farmers' Sun)

Many American papers are making a great fuss over the fact that the United States loaned \$9,450,000,000 to the Allies during the past five years. They are hailing this achievement as an unparalleled feat in finance and are claiming that they are the world's greatest credit nation.

We admit that nine and a half billions is quite a tidy sum, but Uncle Sam must not run away with the idea that he is the whole show. There is sturdy old John Bull, for instance. John got into the fighting game right at the drop of the hat, put an unheard of number of men into the field, swept the Germans from the High Seas, supplied the Allies with foodstuffs, munition and money—and kept this up for three long years until Uncle Sam hesitated—but while considering whether it was "to be or not to be," managed to grow rich out of war orders.

Great Britain, while a borrower in the United States to the extent of \$4,210,000,000, loaned over twice that sum, or \$8,700,000,000 to the Allies. That does not look as if Old John was a down and outer or that the Old Lady of Threadneedle Street was about to go into liquidation.

The truth is that John Bull is a sturdy Atlas, bearing the burdens of a war wearied and war wrecked world. He fought with his back to the wall for years, putting every ounce of effort into the struggle and now, when all is over, he is feeding half of Europe with his own meagre stores and policing half of the rest of the world. He is a weary Titan, but he is no quitter.

It is about this time of the year that the old hen sleeps on her perch and dreams of what she will do to the flower beds in the spring.

**Okanagan Apples In Annapolis**

SUPERIOR QUALITY FINDS FOR THEM A MARKET IN FAMOUS APPLE DISTRICTS

"Carrying coals to Newcastle" is the proverbial way of expressing an anomaly.

But the apple growers of British Columbia have created a more modern and expressive one. Shipping apples to Annapolis, and to Grimsby, is the latest activity of the growers of the Okanagan.

"It did my heart good," said Mr. R. C. Treherne, dominion entomologist, just back from the East, "to see boxes of Winesaps and Jonathans on sale in the Niagara Peninsula, and in the Valley of Evangeline."

"The Ontario fellows didn't seem to care, because they have an immediate market in small baskets to the transient motor trade between Buffalo and Toron-

to. But say! don't the blueses roar! They have stuck to the old barrel pack, and our growers have swept down upon them with their fine boxes of rosy, pestless fruit, and are disputing their home market with them.

"They say their quality is better than that of the B. C. apples, but the consumers laugh and say 'Forget that quality stuff; what does a girl sell on but her rosy cheeks?'"

The whole situation in Mr. Treherne's opinion is the result of close co-operation among B. C. farmers, of excellent selling organization by the growers in the Okanagan, and of scrupulous care in eliminating pests. In these particulars, although B. C. orchards are valued at only twenty million, as compared with Ontario's fifty million, they have absolutely out-classed the latter.—Summerland (B.C.) Review.
