

SPIRIT OF THE PRESS.

The *News* refers to Mr. Mitchell's defeat as "Northumberland's defeat." We believe that Northumberland's "re-election" is a sorry event for the best interests of that fine County, and now that the news of Mr. Mackenzie's defeat is a relief to that effect, it will be a relief to the people of the County. It will be a relief to the people of the County. It will be a relief to the people of the County.

The County of Northumberland has earned a disgrace with Kingston. It has rejected Hon. Peter Mitchell. Mr. Mitchell will probably not seek re-election in any other county at present; but New Brunswick owes him a seat.—*Halifax Herald*.

While the defeat of the Liberal-Conservative candidates in such counties as St. John, Northumberland and Charlotte is a matter of regret, it is a relief to the people of the County. It is a relief to the people of the County. It is a relief to the people of the County.

(From the St. John Telegraph.) The intelligent Liberals of all the Maritime Provinces have the common consolation of feeling that they are the defenders of a just cause. The New Brunswick Liberals can comfort themselves with the additional reflection that they have been able to take care of the Liberal cause here, and that New Brunswick is the "Banner Province." Any Conservative who enters the House of Commons from this Province will not be able to reckon many followers. He may claim Mr. Jostin in Victoria and Mr. Jostin in Kingston; possibly Mr. Jostin's position may enable him to vote for the Conservatives and to adopt their tariff, but the action will be little short of a betrayal of the people of the Province. We know of none. [The editor of the *Telegraph* even thinks of Mr. Snowball even as an "Independent" supporter of the MacDonald Gov't.]—Editor.

From the Ottawa Free Press. (Gov't paper)

Now that the fight is over, and the smoke of battle is clearing away, and many noble virtues are being revealed, it is a relief to the people of the County. It is a relief to the people of the County. It is a relief to the people of the County.

The defeat of the Hon. Peter Mitchell, for Northumberland, is a matter of surprise as well as of great regret. The Hon. gentleman was one of the most attentive and persevering members of the Commons, and his remarks always compelled respect from both sides of the House. We believe that his defeat was due largely to personal reasons raised against him while he was absent and unable to defend himself, and that Northumberland even now regrets it.

The most corrupt means were practised by the Snowball party to secure this result, and we understand that the election will be contested and Mr. Snowball unseated, when Northumberland will again have an opportunity of electing a representative of ability and one who will bring some weight with the party in power.—*Moncton Times*.

Yellow Fever Incident in New Orleans.

A Stricken Family.

A few weeks ago, one night, in an unpretentious cottage on Custom house street, there lay dying a child sick of this dreadful malady. The father, a poor man, was at his last gasp, and the mother, a poor woman, was at her last gasp. The father, a poor man, was at his last gasp, and the mother, a poor woman, was at her last gasp.

He immediately told the police his pious tale, and they encouraged him by promising to look for the thief. They found sufficient evidence to warrant the arrest of a negro who was seen prowling about the house. The father was called from the coffin of his child to come up to the court to make an affidavit. While there, giving a description of the jewels, he received a message that his wife had fallen a victim to the fever. Not waiting to sign the affidavit, he frantically rushed from the court room to attend to the wants of his wife. The death of his child, the sudden illness of his wife and the loss of all that remained of his money so worked upon his nervous system that he also was claimed as a fit subject for the fever.

The child was buried by friends. Within a day after the father's wife expired, and the day after the mother's spirit followed that of her child and husband.—*New Orleans Picayune*.

HEROIC DEVOTION AT THE SOUTH.

The Chicago Times, which has been exceedingly full regarding the fever-stricken cities of the South, says: "The singular truth appears that from the outbreak of the fever at Grenada, through its ravages at New Orleans, Memphis, Vicksburg, Greenville, and in many smaller towns, it has never been charged that a clergyman of any denomination fled from his charge, or failed to do his duty. Some fathers have left their families, some doctors have run away from their patients, but there is not a single instance reported, from the beginning of the plague until to-day, of any representative of any form of religious belief deserting his post. Hardly a day has passed in which some clergyman or

some Sister has not given up life while in the discharge of the tenderest offices. It is a record in the presence of which the bitterest blasphemer cannot find it in his heart to cheer or joke. It is a manifestation of practical religion that has been confined to no sect. Catholic and Protestant, Jew, Gentile, and even Buddhist have faced the danger unflinchingly and have braved it to the bitter end."

The *New York Catholic Review* says: The plague still rages unchecked in the Southern cities, and there is no hope of its cessation until the frost comes. Up to the hour of our going to press more than three thousand six hundred cases have been reported as terminating fatally, in the centre of the disease—chiefly five towns. Numbers of priests and nuns have died at their posts, and others have volunteered from Northern cities, in some cases to find their duty accepted, others to find it refused, as it was certain and useless death for strangers to visit the scenes of contagion. Bishop Leray of Natchitoches, has gone to the aid of the heroic Bishop Elder, journeying through seven States to reach him and administer to his needs. Bishop Elder's death has been announced, but the news lacks confirmation. The *Catholic Review* has telegraphed to the South for particulars, but up to the hour of our going to press on Monday night, no news has come.

The roll of the priests and nuns attacked with the yellow fever, or who died during the week ending September 7, contains the following names: Sister Bonahue, Memphis, dead. Sister Bonahue, Memphis, dead. Sister Bonahue, Memphis, dead. Sister Bonahue, Memphis, dead. Sister Bonahue, Memphis, dead.

A Fierce and Destructive Tornado.

New York, Sept. 21.—A Michigan despatch from Chippewa State, describing the tornado yesterday, says: A sudden darkness fell upon the place, accompanied by a deafening noise. The atmosphere was so light that the tornado struck the town with indescribable force, lasting but a few moments, yet it utterly swept away every structure in the place. The inhabitants, warned by the darkness and the deafening noise, fled in all directions. The tornado struck the town with indescribable force, lasting but a few moments, yet it utterly swept away every structure in the place.

Tornado and Tidal Wave.

New York, Sept. 22.—Advices from Haiti by letter report a terrible destructive tornado and partial tidal wave on the 20th and 21st of September. The Hon. gentleman was one of the most attentive and persevering members of the Commons, and his remarks always compelled respect from both sides of the House. We believe that his defeat was due largely to personal reasons raised against him while he was absent and unable to defend himself, and that Northumberland even now regrets it.

Last Moments of Mr. Conroy.

For the first eleven days of his sojourn in St. John's the pen was hardly out of his hand. It was thus he "rested." We who saw him in the past discharging, and that with signal ease and splendid success, the duties of a free press, can well understand that rest meant in his case a temporary cessation from his labors.

He immediately told the police his pious tale, and they encouraged him by promising to look for the thief. They found sufficient evidence to warrant the arrest of a negro who was seen prowling about the house. The father was called from the coffin of his child to come up to the court to make an affidavit. While there, giving a description of the jewels, he received a message that his wife had fallen a victim to the fever. The death of his child, the sudden illness of his wife and the loss of all that remained of his money so worked upon his nervous system that he also was claimed as a fit subject for the fever.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, plains and oceans, and thousands of means for employment. We desire to be better than in perfect health; but how often do the majority of people feel like giving it up, discouraged, and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease when born. Dyspepsia and Liver Complaints is the direct cause of seventy-five per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it. E. L. Street, agent for New Brunswick.

General Sir Patrick MacDonnell, K.C.M.G., is expected to arrive in Quebec about the end of the month, and will take up his quarters for a time in the Citadel before proceeding to Ottawa to act as Administrator until the arrival of the Marquis of Lorne.

TO CONSUMPTIVES.—The production of a remedy that "may truly be said to so alter the prospects of the Consumptive as to give hope of cure in not a few days, and to prolong life in by far the greater number," is the only remedy worthy of the name, which, if carefully and faithfully used may arrest the disease, and is a remedy sure to return it and prolong life more than any other known remedy. It is a great desideratum. Yet this desideratum is fully met in Robinson's Phosphorized Food, or Cod Liver Oil with Lactophosphate of Lime, which is universally acknowledged, wherever introduced, to be the best preparation of Cod Liver Oil extant, and which, if "carefully, faithfully, and persistently used," will rarely fail to produce marked beneficial results. Prepared only by J. Robinson, St. John, N. B., and for sale by Druggists and General Dealers. Price \$1 per bottle; six bottles for \$5. Sent 24 wks.

Invalids. do you wish to gather flesh, to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep, to feel and know that every fibre and every system is being braced and renovated? if so, commence at once and use the Quinine Wine prepared by Robinson & Co. of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best aperient and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and pleasant invigorant. It is a tonic, and the properties of Quinine are its refuge tonic and antiperiodic. Small doses frequently repeated, strengthen the pulse, increase muscular force, and invigorate the system of the nervous system. The peculiar operation of this medicine in general debility and as an aperient, has undergone long and close observation, and it is believed will never fail, if properly and judiciously administered, unless other diseases predominate. It is a tonic, and the properties of Quinine are its refuge tonic and antiperiodic. Small doses frequently repeated, strengthen the pulse, increase muscular force, and invigorate the system of the nervous system.

What they say of it! A few facts for the people.—There are but few preparations of medicine which have withstood the impartial judgment of the people for so long a length of time. One of these is Dr. Thomas' Electric Oil. Read the following extracts from the *Telegraph* and *Standard* of Montreal, P. Q., dated 1st and 2nd of September, 1878. "I have tried Dr. Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shore, P. Q. "I have been troubled with liver complaint for several years, and have tried many different medicines with little or no result. I have tried Dr. Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shore, P. Q.

SOME NEW

GAMES FOR CHILDREN.

Now that the long evenings are approach-

ing it is advisable that the children should be

provided with useful recreation. The follow-

ing Games are both instructive and

amusing, and will keep the children occupied

and happy. The first two are quite an assistance to

the school course, the first exercising the young

in the correct spelling of words, and the

second teaching them to count quickly and

correctly.
