mieux's Mission.

Tokio, Nov. 17. — Hon. Rodolphe Lemieux, the Canadian Postmaster-General and Minister of Labor, who is here to consult with the Japanese authorities regarding emigration from this country, has established an office at the British Embassy and is in frequent conference with the officials of the Foreign Office. He expects a favorable outcome to his mission. To a representative of the Associated Press he said: "I am not proposing any change in the existing treaty, but desire to reach an agreement with a friendly nation, looking to the doption of a programme for the future which will be beneficial to both countries cincerned."

tion of a programme for the induce which will be beneficial to both countries cincerned."

The Minister will be entertained by the municipality of Tokio next ruesday, and the Government is preparing an elaborate programme for his entertainment during his stay in Japan.

The Foreign Office has notified the emigration companies that 406 Japanese will be allowed to enter Hawaii this month and December. It is understood the Government intends to exercise a close supervision over those going as students to San Francisco. There is reason to believe that considerable fraudhas been practised by registering laborers as students, and that this has escaped the scrutiny of the emigration inspector.

The Japanese Government is said to be considering the advisability of shutting off all emigration to the United States and Canada for the present, on the ground that economic conditions render it inadvisable for citizens of Japan to visit foreign countries unless they are able to show that they are amply self-supporting.

Although there were six de-tectives and six crooks, all of whom were busy emptying revolvers at each other, not one of the whole party was injured, and the detectives scored a bloodless victory.

injured, and the detectives scored a bloodless victory.

Chief Carpenter, of the city detective force, was this evening informed that a band of men, supposed to be robbers, were camped near St. Lambert's, and he despatched half a dozen of his men to gather them in, guided by the man who brought the information. While on the way the detectives met four men on the road, but passed them, thinking they were not the men they were after. Later they found two of the gang sitting by a camp fire.

As soon as the detectives appeared the strangers opened fire on them with revolvers, and the detectives pulled their guns and fired back. The shots alarmed the four on the road, who, were also members of the gang, and they at once ran back and attacked the detectives from the rear. The latter, however, won out, and the four decamped, leaving the original two to be arrested. The latter gave their names as John Brown and Will Hudson, but their names do not count, for much, as yet.

Powers.

Paris, Nov. 16.—The treason of Ensign Ullmo, of the French navy, who was arreated at Toulon on October 25th, on the charge of being a spy, and who it was announced subsequently, had confessed, is now considered to be firmly established. There is no longer much doubt that he made several trips to Germany and delivered documents to the chief of the German spy service at Brussels, which will necessitate a complete revision of the French naval and military signal codes and plans for mobilization. Nevertheless, the incident is not likely to lead to diplomatic complications with Germany, as spying is a recognized institution in Europe. The French Government officially announced to-day that it did not demand the recall of Rear-Admiral Siegel, the German naval attache at Paris, who is suspected of having participated in Ulimo's espionage.

The Case Fully Reported, Prove the Work Was Done by Dr. Hamilton's

Halifax, N.S., Nov. 18.—A well-known resident at 93 Sackville street, Mr. Perresident at 93 Sackville street, Mr. Perney Hirtschman, who has been in a somewhat serious condition lately, has recovered, and says: "Six months ago my appetite fell off and my health became very poor. I had terrible attacks of indigestion and often was unable to sleep at night. My poor color showed what an ill man I was. I tried numerous remedies, but the only genuine one was Dr. Hamilton's Pills of Mandrake and Butternut. Two boxes cured my indigestion. My appetite increased and my strength came back quickly. To-day I have a fine zest for my meals. I feel as strong and healthy as a young boy. Because they are so cleansing and so tonic in their effect I think Dr. Hamilton's Pills should be used by every person. My wife used them regularly with grand results."

last week a striking example of the effects of universal suffrage combined with spiritual control of Socialist theories. Its Legislature consists of a single chamber of two hundred members. Fifty-six per cent. of the votcrs at the last election in the towns and fifty per cent. in the rural districts were women. Nineteen vomen were elected members of the chamber. The Socialist Democratic party elected eighty members, and it has other sympathizers. It has just passed a drastic act for the total prohibition of spirits, wine, beer and alcohol, which may be kept only for medical and technical purposes and for the use of Russian troops. Even the use of wine for communion service is forbidden. No one may keep alcoholic drinks in his house unless he can prove that they were in his possession before the Act. was passed. The police have full rights of search, and the penalties vary from \$20 to penal servitude for three years. There is no provision for loss of capital in breweries, distilleries or private houses. The Baroness Gripenberg, one of the best known women members, said that in dealing with a question of this vital social importance it was quite time to leave "reason aside and let sentiment prevail." This moves the Times to remark: "There we have the true inwardness revealed of the Social Democratic revision naked and unashamed. The early revisions were content to inaugurate the age of sentiment, and we know what that means. It was reserved for the Social Democratic revision naverate the age of sentiment, and we have yet to learn all that that means. At any rate it means, so far as it has gone in its chosen home of the Grand Duchess of Finland, one heavy blow at the 'principles of liberty.'" It is not expected that the law will ever come into operation, for the veto of the Czar is regarded as certain."

### REMAINS OF WRECK VICTIMS.

Father and Son Placed in One Casket-An Ill-Fated Brakeman.

An ill-Fated Brakeman.

Ottawa, Nov. 17.—All that remains of Baggageman James Irvine, who was killed and cremated in the ill-fated Soo train at Moore Lake, Friday morning, arrived in this city yesterday. The fureral will leave Ottawa for Carleton Place on Tuesday morning. The Brother-hood of Railway Trahmen will take charge of the burial arrangements.

Fate seems to have hanuted the deceased railwayman ever since he entered the employ of the railroads. Nine years ago he lost two fingers at Carleton while coupling cars. Later he had his foot crused at Arnprior, and he has been in three train wrecks and sustained injuries in each. His father, too, an old railway man, is minus his left hand while at work.

The remains of Prendergast, father and son, have been placed in one casket and sent to Webwood for burial on Tuesday. All than can be found of D. A. Clark, expressman, of Montreal, is a brace of revolvers he carried in his hip pocket.

Mrs. Steeves.

Hopewell Cape, N. B., Nov. 17.—Just before his execution for murder on Saturday Thomas H. Collins disposed of his trinkets to friends, and sent the following poem to Mrs. I. D. Stevens, who had interested herself in his case and tried to save him from the gallows:

My Dear Mother:
A brighter vision of the light,
Oh, mother, dear, as from thy face,
Will live in works of pure delight
For love of God or love of right.

To-day we grieve and say farewell With trembling lips and silent tear, And view the spell we know so well Throughout this long and dreary year.

May peace and rest be thine alone,
For here thy steps are gently led
To raise and cheer in our distress,
As faith without its work is dead.

### FRANCE'S GOLD.

FRENCH THRIFT IS IN A CLASS ALL BY ITSELF.

The Coining of Skill-My Lady's Hats vs. Fifty Tons of Coal—The People of France Have One-third of All the Coined Money in the World.

Paris, Nov. 16.-Never before haps in the history of France has there been such occasion for pride in the wealth of country as during this week, when practically every stock exchange in Europe and America has been sending petitions to Paris for more gold.

Although much gold has left Paris in the last fortnight, France still has more of the previous metal than she knows

hat to do with. French thrift knows no limits. France no one is idle, everyone saves. Nor is money saved to be hoarded. The huge semi-official banks which have

huge semi-official banks which have no counterparts in America, and which not only accepts deposits, but give advice concerning investments, have more customers to-day than ever before.

The Postoffice Saving Bank, State controlled, where a deposit of one sou is as welcome as that of a hundred francs, also shows a tremendous increase in business for the present year. Although the maximum account allowed to one depositor is only \$100, it is estimated that the deposits in the Postoffice Banks this year will have run up to near a billion dollars by the end of December.

Moreover, when the thrifty French-

reaft has volatized it."

As a case in point, the owner of a coal mine figured his profit on digging fifty tons of coal and shipping it to France the exact equivalent of the price of his wife's Parisian hat. Foreign buyers paid France for this kind of thing last year no less than \$240,000,000.

Much of this exportation is highly profitable business. France requires no costly plant, with attendant expenditure, to keep up new machinery. The great asset is French skill and taste and savior faire. These sources of revenue and the French habit of economy have resulted in an enormous gold holdings, for a portion of which the markets are now bidding.

This reserve showed a constant increase last very.

kets are now bidding.

This reserve showed a constant increase last year. The Bank of France held in running accounts \$541,000,000 at the end of August, 1907; its reserve was \$561,000,000. This means that France alone holds about a third of all the coinced money in the world.

Pastoral From Archbishop Bruches Absolutely Forbidding Them.

Absolutely Forbidding Them.

Montreal, Nov. 17.—An important pastoral was read in the Roman Catholic Churches to-day, absolutely forbidding mixed margiages. Archbishop Bruchesi made an announcement that in so far as this diocese is concerned dispensations will no longer be granted to Roman Catholics wishing to marry Protestants. The custom hitherto in vogue is done away with. In strong and emphatic language his Grace places a ban upon all such unions. Hereafter should Protestants and Catholics wish to marry they will not be able to secure the blessing of the Church upon their union.

Louise of Orleans wore a superb lace veil of the finest point d'Angleterre designed by herself. It is of the Louis XVI. period. The bouquets are reproduced from a pattern worn by Marie Antoinette. These bouquets are a very distinctive feature, and not only form a rich border around the veil, but are also repeated at balanced intervals on the lower end, which will spread out over the court train. The veil is five yards long by two yards wide, and, being worn short in front, barely reaching the elbows, almost the full length will as a pendent ornament over the white satin folds of the dress. Above the bouquets, worked in Alencon stiches, are the arms of the bride and the bridegroom. As both belong to the royal family of France, there is little difference in the blazon. Two fleurs de lis in chief, one in base, are sewed on each shield, and above the royal crown "Fermee a cinq tenats." The different correct tinctures are indicated on the veil by the variations of the fine point stitches. The edge of the veil is slightly scalloped on account of the close setting of a conventionalized flower form. Four thousand buds, single leaves and flowers are used to powder the whole veil.

Mr. Gibbons declared yesterday: "That is all a mistake. The negotiations are going ahead. There has been no foundation for any such rumors. The writer does not know what he is talking about. A meeting of the joint committee will be held in the near future." The Chicago paper's story was to the effect that preliminary communications had satisfied Secretary Root that Canada is opposed to limiting the amount of water that may be taken for power purposes from the Canadian side of the Falls; also that Canada was equally unwilling to enter into new agreements for the protection of the seal herd. Therefore, until these matters are settled the United States would not negotiate for the limitation of lake fishing rights nor discuss the northwestern boundary question.
