They were followed by sev-eral members of Melville church, who in a forcible and feeling manner, ex-plained why the translation should not taks place. The congregation were very deeply moved, and when Mr. Ross was called upon his decision was waited mos

anxiously. When, after a few remarks, he stated he felt it, his duty to decline the call and remain in Brussels, the clouds dispersed and after complimentary remarks from Rev. Mesars. McQuarrie, of Wingham, and Brown, of Wroxeter, in moving and seconding the resolution that the call be not sustained, the Presbytery was dismissed by the benediction. At the close of the meeting a general con-

gratulatory time was put in and enjoyed by the many friends of Rev. Mr. Ross. Melville church is to be congratulated in retaining the services of Mr. Ross, who is an able preacher and a popular man.

Huron Presbytery.

Huron Presbytery met at Londesboro on Tuesday, May 11th, at half past ten, the Moderator in the chair. There was a large attendance both of ministers and Mr. Duncan Buchanan, Knox colleg

student, applied to presbytery to be re-commended for the first year in Theolo gy. In view of the fact that Mr. Bu-

chanan, though not having spent the full time required for the literary course of study, had yet passed with an excep-tionally high standing all the required examinations with one exception, it was agreed to ask the Assembly to recommend him for entrance into theology, with the understanding that the remaining subjects of the literary course be also taken ere he finish. Mr. John Young, Colborne, graduate of Queen's college Kingston, applied to be taken on trial for license. After examining him and finding all satisfactory, it was agreed to apply to the General Assembly for leave

to license. A call was presented from Bruc the Senate Chamber.

The Fremier's Double-Dealing with Sena tor O'Donohue-How Sir John Ignored "The Breed" in Which Me Had No Confidence.

OTTAWA, May 14 .- Sir John Macdonald leoked out upon the Senate from be-hind the Speaker's screen when it met today. A rare sight was seen of an audience in the Senate Chamber. A couple of scores of members of the Commons were present, some elergymen of Ottawa and a sprinkling of general citizens. Ex-tra seats were brought in on the floor of the House. Mr. O'Donshue spoke for about an

hour, commencing by moving the following resolution : "That an address be presented to the

Governor-General praying that his Ex-cellency will cause to be laid before thus House the patent of appointment er a copy thereof of John O'Donehue to the

Privy Council; a copy of the letters of the Right Hon. Sir John Macdonald to their lordships, certain bishops of the Province of Ontario, and all other letters and papers, and a copy of all orders in Council in reference to said appointment or the cancellation thereof."

His subject was the treatment of Iriah Catholics in Ontario by the two political parties and the treatment of himself by Sir John Macdonald in 1882. In 1878 the Irish Catholics voted against Mr. Mackenzie for revenge and partly because of the National Policy. He himself supported the Conservatives up to the time when the general elections of June 20 were coming on. He then proceeded to reveal the proceedings of the Chestaut Park compact, by which the Irish Catho-lie vote of Octario was sold to Sir John Macdonald. He was offered a seat in the Cabinet and accepted. This was in May, 1882. Shortly after Sir John wrote him a letter offering him a seat in the Senate. He did not understand this change in the Premier's intention. Then fellowed considerable correspondence be-tween him and Sir John On the 23rd of May in reply to his letter, Sir John

wired him : "I will write on the 25th of May." Mr. O'Donchue wrote to Sir John : "Your letter received. Does change

mean that no one from Ontario shall re-present the Irish Catholics in the Cabnet? If so, their protest will be

at MacPherson's residence. Sir John then signified his full adherence to the then arguined his fail adherence to the arrangement he had made with O'Dono-hue, and actually presented the patents of appointments signed and executed by the Marquis of Lorne. Everything was done and perfected. In return these Irish Catholics undertook to do their ut-

nost to return Sir John to power. They desired to communi ate with their bish-ops, and Sir John wrote the following tter to the bishops of the Roman Cath lic Church :

"TORONTO, June 5. -- My Dear Lord,-Mr. O'Donohue will tell you of the tem-pest that has been raised here in Toronto,

there would be a meeting of the Council immediately. Mr. O'Donohue said he did not read many of Sir John's letters, because they were nearly all marked confidential. On the 29th of October, 1885, he again wrote Sir John of October, ing an explanation of his views on this subject, in which he made the following remark : "Irish representation you know was the aim; the travesty of it has hated long enomen," He did not blame

Insted long enough." He did not blame Sir John for ignoring the breed in which he had no confidence. Concluding with an eloquent peroration he said : "Before long this corrupt Government will have to go to the people, and that will be the last of them. They stand to day as a stranded old hulk about to teacher, started a group of boys as happy as could be found in all Canada. Talk

of the diligence of beavers ! Upon ar riving at the desired bush, no beaver to day as a stranded old hulk about to ever applied themselves so assiduously be dashed to pieces by the storm. Such a day is coming to end one of the most corrupt of Governments—one which will be known as 'the bloody Administration of Sir John Macdonald.'" family ; a man Canada can speak of with

That arrangement had been broken by Sir John Macdonald by reason of the pressure of the Orangemen against O'Donohue, and Smith, having been appointed to the Cabinet by favor of the Orangemen, he represented them and not the Irish Catholics. The Orange-

men had said to Sir John, "We will take Smith but we won't accept O'Donohue-he's too Irish." He asserted that Smith recognized those he represented ecause 80 per cent. of the em ployes of the Toronto Street railway were Orange men, which accounted, perhaps, for the strike. It was the Orange body that mith represented in the Cabinet Sir John leaned upon that body for his main support. O'Donohue violently attacked said :

This insinuation, Mr. Smith after wards indignantly denied.

Mr. O'Donohue proceeded to argue that those of his creed were not sufficiently represented from Ontario in the Parliament. They did not share in the public offices, for the customs and postoffice departments were nothing less than Orange lodges. Coming back to his own grievance O'Donohue said Sir John had come to his own house and pressed him

to a ow Smith to go into the Cabinet in the meantime to bridge over this Orange

tempest. He did not know what to make of Sir John's recent statement regarding this matter, for up to the open-ing of this session Sir John professed anxiety to carry out the arrangement with him, and he had done his utmost to end the matter. But Sir John's last
