COMPANIES WILL NOT RETRENCH BUT WILL EXPAND UNDER RECIPROCITY PACT

Ottawa, Ont., Aprit 20.—A remarkable reeviation of the character of the campaign being conducted against the reciprocity agreement and of the real effect of the proposals upon Canadian industry, was given in the House of Commons today, when Wm. O. Sealy, Liberal member for Wentworth, inquired from the minister of public works as to the intention of the government to perform dredging work in Rurlington Bay, in the vicinity of the International Harvester and Olive: Chilled Plow Company's works.

Hon. Mr. Pugsley replied in the affrmative. The government had seen an anti-reciprocity press report to the effect that on the adoption of reciprocity these concerns would be closing up and removing to the States. He had received communications from the industries stating that there was absolutely no truth in the stories published in the anti-reciprocity press, nor had the companies been consulted any way concerning the facts before the untruths were published-Instead of retrenchment the Oliver Company wrote that they would, under the operation of the reciprocity arrangement, enlarge their Canadian plant to the capacit, of a thousand plows per day, while both companies expect, as a further result of the pact, transfer considerable of their export trade from the United States to Canada. The reading of the letters by the minister was greeted by applause.

At a Liberal caucus this morning it was decided, on the suggestion of the premier, to leave the further discussion of reciprocity in the House to the Opposition, who must now accept the onus for further obstruction. Hon, Mr. Fielding is to close the debate for the government.

Western Conservatives return after the recess much chastened over the reciprocity conditions in their ridings. One member is reported to have wired a Conservative colleague, who did not intend to go home for Easter, to come along, as conditions were serious. He went on the first train. The Opposition is regarded as likely to abandon further fight within a few days.
