

IS TYPHOID EPIDEMIC FEARED?

(Continued from Page 1)

say whether Calgary water is infected with typhoid germs without a test. The color of the water has absolutely nothing to do with the germs that may or may not be in it. The company also has a good water supply at the shops. In advising wholesale vaccination against typhoid, however, the Canadian government is merely following the practice in modern armies since the typhoid fever through the use of typhoid vaccine was widely known.

The physicians are giving the inoculations with the bacterin, each inoculation ten days apart. Residents of Calgary who desire to protect themselves against any possibility of typhoid will be inoculated if they desire for a reasonable charge to the cost of the bacterin and the cost of keeping a record of each person vaccinated for thirty days. The bacterin is made from the typhoid bacillus which the inoculations guarantee a period of three weeks, and in most instances very much longer than this period.

German Physician Discovers. Dr. Frank, a German physician, was the first to treat enteric fever in man by means of injections of killed typhoid bacilli. In spite of his experiments favorable results, the profession at large hesitated to follow his lead. Since the studies of Wright and others have shown that there are no pathogenic results with the administration of killed bacteria, this method of dealing with enteric, or typhoid, fever in modern armies, however, has been obtained by the use of the bacterin. In the case of the typhoid inoculation against typhoid was introduced by Sir A. E. Wright in 1897. Since that time, its use has become almost universal in modern armies.

President Taft Gives Praise. In an address before the Medical Club of Philadelphia, President Taft, in an address before the club, gave the highest praise to the bacterin and the immunizing value of typhoid-bacterin during the mobilization of troops on the Mexican border. The percentage of typhoid cases in the Spanish American war was as high as it is hard to believe that there were 20,000 cases with a case mortality of 7 per cent. of the volunteer regiments mobilized during the Spanish-American war. In the case of the typhoid inoculation, the mortality was reduced to one in ten thousand.

Flies Typhoid Carriers. Flies, especially, are the great typhoid fever carrier, even more than mosquitoes. It is for this reason that the disease is so difficult to guard against in construction camps and where the best of drainage is not provided. The use of the bacterin with its immunizing value, will practically eliminate all danger. The use of the vaccine is accompanied by a few simple precautions. One is cautioned against drinking water from any source, except the tap water or liquor on the day of treatment. There is usually some headache and malaise and a local reaction consisting of a red and tender area about the size of the palm of the hand, and sometimes tenderness in the axillary glands. The reaction is over in forty-eight hours, and for that period, exercise is to be avoided. The number of severe reactions has been very small, and regardless of their severity, they all disappear within forty-eight hours. The vaccination is well borne by larger children and women, but no special effort need be made to vaccinate those who are already had typhoid fever, or those over forty years old.

Watch Repairing of All Kinds. American, English and Swiss. Moderate charges, work legally guaranteed. 218 Avenue Street, below the Queen's. Phone 2240. Open till 9 every night. 1977-L.F.

It is Criminal to Neglect the Skin and Hair

THINK of the suffering entailed by neglected skin troubles—mental because of disfigurement, physical because of pain. Think of the pleasure of a clear skin, soft, white hands, and good hair. These blessings, so essential to happiness and even success in life, are often only a matter of a little thoughtful care in the selection of effective remedial agents. Cuticura Soap and Cuticura Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a post to "Cuticura," Dept. 3M, Boston, U.S.A., will secure a sample of each, with 32-page booklet on Skin and Scalp Treatment.

Right Food Works Wonders

It is often the case that people drift into wrong habits of food, although they should know better.

When one gets into trouble of this sort it's a fine thing to know how to get out of it. The "food route" is the common sense way back to health and comfort.

Grape-Nuts

FOOD is made of wheat and barley, so perfectly cooked that it is partially pre-digested and contains the vital tissue-making elements required for the daily rebuilding of body and brain.

A dish of Grape-Nuts and cream for breakfast regularly, helps mightily to put one in mental and physical condition for the day's work.

CONTRACTORS WILL PROBABLY FIGHT CITY ON GROUNDS CEMENT WAS INFERIOR

(Continued from page 1)

foregoing contracting firms, which furnished the city for faithful performance of their contracts, according to specifications show them to be of the most rigid character. If enforced, as City Solicitor D. S. Moffat has stated, the city will be fully protected from loss. The question lies only in their enforcement.

In fact, the bonds are so rigid that Mr. Tomlinson, assistant to the city engineer, believes they go too far. "I don't believe the city could recover on the contractors or make them tear up the paving if the matter went to law," said Mr. Tomlinson. "The contracts are too much one way. I don't believe they would be worth the paper they are written on when they come before a judge."

Mr. Tomlinson's idea of the contracts, however, is not that of a barrister, and Solicitor Moffat already has been quoted as to the force and binding effect of the papers which the contractors signed. Efforts to secure from the city engineer's office data regarding the sums that have been paid over to contractors for the work that has been completed may involve a great amount of work," declared Mr. Tomlinson. "Besides, I don't know whether the engineer would want it given out or not. I must give it out unless I have his permission."

CALGARY IN BRIEF

General Superintendent A. Price, of the Canadian Pacific, left yesterday for a month's outing in the Columbia River valley. Mr. Price is accompanied by the members of his family. N. E. Brooks, division engineer, will officiate in the capacity of acting superintendent, during Mr. Price's absence.

Dr. H. G. Robb left yesterday for an extended trip in the east. He will return to his practice about August 15th, next.

Auditors started a clamor when the policeman interfered. Both speakers maintained that they were within the law, and proceeded to continue. McIntosh promptly led both away to jail.

Neither O'Brien nor McCloskey gave any resistance as they were led away by a mass of jeering, yelling men.

No time was lost in booking the prisoners, and within a few minutes they were both behind the bars. Socialist sympathizers immediately set about raising bail, but it was nearly midnight before Colonel Sanders could be located to fix the amounts. They were in jail nearly four hours.

MINISTER MONK IS ON HIS WAY WEST

Fort William, July 15.—On his first visit to Western Canada, Hon. Mr. Monk, minister of public works for the Dominion, arrived here today. He came as far as the Soo on the government cutter Speedy, and completed the journey across the lake on the steamer Harmonic. Mr. Monk stated that he was much amazed at the extent of the inland navigation from the time he left Quebec until his arrival here, and he fully realized the necessity of nationalizing all of these ports.

He inspected the harbor this afternoon on the yacht Sigma.

At the Police Chiefs' Convention in Toronto, Martin Sheridan, on the left, famous athletic member of New York City police force; T. C. Flanagan, of Toronto, one of champion Jack Johnson's managers; and George S. Dougherty, chief of detectives of New York City.

BRITAIN DISINTEGRATES IF IT LOSES CANADA

(Continued from Page 1)

ally leading to war, and took issue with that conclusion, particularly as regards the relations of Great Britain and Germany.

Germany, the speaker declared, is ambitious to attain a position at the head of the nations of the world, an ambition which he described as the wonderful progress made by the German Empire since its consolidation in the Bismarck regime. Were it not for this ambition, which any nation might come to foster, it might be possible for the dream of statesmen who would see all international controversies settled by arbitration to be realized, but he did not think ambitions such as that entertained by Germany would ever be submitted to arbitration, hence he believed that the supremacy of Great Britain as the leading nation of the world would have to be maintained by force and in his judgment, Great Britain would only maintain her supremacy and survive as the greatest of nations while she was strong enough to protect herself.

Touching upon the relation of Canada to the empire, the speaker gave expression to the belief that Canada should not survive without the aid and protection of the United States, hence Canada could scarcely hope to become a great, powerful, independent nation, and her greatest destiny lay in the maintenance of her position in the empire. The speaker also declared the belief that the British Empire should not survive without Canada, and there was therefore a double reason for further strengthening the ties between the motherland and her important colony.

The club also had an honorary superintendent of public schools for County Wentworth, Ontario, who is a former president of the Canadian Club of Hamilton, the first to be organized in Canada. Mr. Smith assisted in the organization of the Calgary club, and it was upon his suggestion that the policy of erecting flag poles and flying the Canadian flag was adopted.

POLICE CHIEFS IN TORONTO AT CONVENTION SEE THE BALL GAME

Police chiefs in Toronto at convention see the ball game.

CHARLES O'BRIEN, M.P.P., ARRESTED; GOES TO JAIL

Well Known Socialist is Taken in Tow for Harranging Crowds on Street

Two Thousand People Follow Him to Lockup; Bail is Furnished

Followed by a crowd of the city prison by the doors of nearly two thousand people, Charles O'Brien, member of the provincial parliament from the Rocky Mountain constituency, and William G. McCloskey, a laborer, were locked up last night after they had been arrested for harranging crowds on the street on socialism. They were released at midnight on \$20 bail each.

Obstructing the street probably will be a specific charge the men will answer to when they appear in court today. According to the police, the speakers had collected such a crowd and the congestion had become so great on both sides of the street, that the police were obliged to clear the way practically at a standstill. Officer McIntosh ordered the speakers to depart and they refused.

ARMSTRONG HIT BULLSEYE FIVE OUT OF SEVEN

Basley Camp, July 15.—Sergeant J. H. Armstrong of Halifax won The Daily Telegraph's tin with five bull's eyes, including the sighting shot. This is given for the best seven shots at six hundred yards, a score to all corners, and besides the cup carries 275 pounds. The score also counts in the service rifle aggregate, and in the all corners and grand aggregates.

Following are the scores of competitors today at the six hundred yard range at the Alexandra cup competition: Capt. Andrews, Winnipeg, 10; Sergeant, Halifax, 44; Private Auld, Winnipeg, 28; Sergt. Battershill, Winnipeg, 35; Staff Sergt. Bayles, Toronto, 30; Lieut. Blackburn, Winnipeg, 25; Private Davidson, Winnipeg, 19; Sergeant Lyons, Halifax, 23; Lieut. Foster, Ottawa, 31; Capt. Kennedy, Platoon, 21; Sergt. MacDougal, Victoria, 29; Sergt. Molinas, R. E. I., 30; Private MacPherson, Stettland, N. S., 33; Lieut. Marks, Vancouver, 32; Corp. Mortimer, Quebec, 23; Private Mitchell, Toronto, 34; Staff Sergt. Richardson, Victoria, Corp. Vagan, Edmonton, 27; Capt. Scialer, Vancouver, 32; Sergt. Mith, Ottawa, 30; Lieut. Stone, Quebec, 21; Capt. Stoddard, Stoddard, Hamilton, 31; Rev. R. A. Simpson, Rosland, B. C., 31.

station, what is required, etc. Speaker—Dr. Hodgett, Public Health Branch of the Dept. of Agriculture, Dominion Government.

Tuesday, July 23rd. Heating, Ventilation and Sanitation. What is being done in same. Speaker—Prof. F. H. Kinsley, of St. Louis, Mo. Pres. Amer. Assn. of Heating and Ventilating Engineers.

Wednesday, July 24th. Business Management, as applied to modern requirements. Speaker—Mr. A. Mueller, of Decatur, Illinois. Pres. The H. Mueller Mfg. Co.

PRINTERS' COST CONGRESS WILL MEET IN CALGARY

The date for the meeting of the Cost Congress which is being arranged by the Calgary Printers' Association, has been fixed for Thursday and Friday, September 5th and 6th, next. One of the speakers secured to address the meeting is Mr. George H. Saults, of Winnipeg, one of the ablest exponents of the cost system in Canada. Other well known speakers expected to attend include Mr. William J. Hartman, of Chicago, Ill. and Mr. F. W. Baltes of Portland, Oregon.

ARRANGEMENTS COMPLETE FOR EDMONTON GAME

Final arrangements were made for the Edmonton soccer game on July 21 at the meeting of the executive committee of the league last evening, with the exception of the selection of the teams, and this latter particular depends upon the form displayed in the international game on Thursday evening. The selection will depend upon the form shown by the men on that occasion, and this will put each man on his mettle and add zest to the game.

EDMONTON TORIES WILL TRY TO UNSEAT CROSS

Edmonton, July 15.—The return of the scenic car to Edmonton will be protested by the Conservatives at the end of the week. The petition was drafted today by C. S. Newell, Conservative election agent, but it may not reach its final form for some days. The protest is to be made under the corrupt practices act. It will be alleged that persons not entitled to vote were taken into the polls in connection with the act.

RUNAWAY CRASHED INTO A TELEGRAPH POLE

Destruction of Pole Lets Loose Live Wires on Street Which Bobbies Bravely Guard

Racing down Ninth avenue between First and Second streets east, a team of horses attached to a light wagon driven by Arthur Castle, crashed into an electric light pole at First street yesterday afternoon with such force as to snap the pole off at the ground. Castle was uninjured.

The destruction of the pole severed a number of charged wires, and a force of linemen was busy for several hours in making repairs, while policemen and volunteer guards were kept on the alert protecting pedestrians from the dangling electric wires. No one was injured.

A good crowd was on the thoroughfare at the time.

CRICKETERS' CLUB

A well attended meeting of cricketers was held last night in the city hall to discuss the idea of having a cricketers' club or headquarters. Lieut. Colonel Sanders, D.S.O., was in the chair, and it was decided to appoint a committee to go fully into the different issues, and when they had completed their duties to have a general meeting to decide what action should be taken.

The scheme is a very comprehensive one, and the committee will report as to the general support that may be expected, the probable outline and running expenses, and as to where suitable premises could be obtained. Already several prominent citizens have signified their willingness to give assistance to the scheme, and there is practically no doubt but that the movement will be firmly established in the near future.

Any inquiries, offers of help, etc., should be sent to the organizing secretary, Norman M. Plummer, Land Titles office.

Nothing Serious

Somebody has invented a summer drink entitled "the Roosevelt bolt." The distressing thing about it is, according to the statements of people who have tried it, that it is merely a milk shake with a little prune juice.

SENIOR TEAMS MAY SIGN MEN UNTIL JULY 20

The executive of the Senior Baseball league met last night in the Y. M. C. A. and arranged for the playing of postponed games, and decided to hold open entry for signing players until July 20. The Centra's vs. Y. M. C. A. game will be played August 5 and August 8.

COSTS REAL MONEY TO BE A "HAT" REAL ESTATE

Council Has Raised the License from \$25 to \$100 and Some Turmoil at Same Time

Bylaws are Passed Providing for \$700,000 for Improvements; Great White Way

(Special to Morning Alberta) Medicine Hat, July 15.—Medicine Hat's real estate dealers do not take kindly to the new council made in their license, jumping them from \$25 to \$100, and \$25 for each additional man and dog. Last night's meeting of the council a lengthy petition against the new bylaw was introduced. However, the council did not think that it was warranted, and so will enforce the new charge.

Four bylaws, expending \$700,000 for local improvements, and a fifth, connecting the agreement with the Clay Products company, were passed. The gas and electric committees will go thoroughly into the matter of illuminating the city streets with the idea of making the business section like that of New York's Great White Way.

Cluster lights are proposed every 60 feet on both sides of the street; the lights will be on each pole, one of which will be electric, to show the superior lighting power of the gas over the electricity.

SIR WILFRID TO ANNOUNCE PARTY POLICIES IN FALL

Ottawa, July 15.—Sir Wilfrid and Lady Laurier are leaving at once for their old home in Arthursville, where the ex-premier will take a holiday of about a month.

Sir Wilfrid has received many requests to make speeches, and it is likely that during the latter part of August and September he will address a number of political meetings and picnics in Ontario and Quebec. It is understood that in these speeches he will outline the attitude which the opposition proposes to assume in regard to the tariff, and also in reference to the government's naval policy, which will in all probability be announced before that time.

ALLEGED MURDER ATTEMPT IN CORONATION DISTRICT

Coronation, Alta., July 15.—Word reached town Saturday morning of an attempted murder at Brownfield, eight miles north of Coronation. From the information gathered, it appears that J. A. Bernard, a farmer of that district, attended school on his return home was knocked on the head by an unknown person and terribly beaten. The wounded man's story was to the effect that he had been coming from a dance, laid down on a cot in his shack and dozed off. He was awakened by a blow on the head and shoulders by the blow to recognize his assailant, who beat him over the head and shoulders in a terrible manner.

MUNICIPAL SIGHT SEEING CAR SCORES BIG HIT

Eleven Trips Made Yesterday and on Each Occasion the Car Was Crowded

Scenic Car is Probably Most Elaborate in Service in Canada

The new sightseeing car of the Calgary Municipal Electric railway made its initial trip yesterday and scored a great hit. Eleven trips about the city were made during the day, and upon each occasion the big car carried a happy crowd of sightseers.

The scenic car is perhaps the most elaborate in Canada. It is of the very latest design, with large panel mirrors on the sides, and surmounted with scores of var-colored electric lights. The car is finished in white, the seats are arranged in tiers, thus giving every passenger an unobstructed view, and the whole car is trimmed in brass. The car is provided with awnings for use in inclement weather, or on hot days. Regular trips will be made daily from now on.

EDMONTON TORIES WILL TRY TO UNSEAT CROSS

Edmonton, July 15.—The return of the scenic car to Edmonton will be protested by the Conservatives at the end of the week. The petition was drafted today by C. S. Newell, Conservative election agent, but it may not reach its final form for some days. The protest is to be made under the corrupt practices act.
