BRIGHT LIGHT DREAMS VANISH AS GIRL'S MONEY GOES

Olive, of Medicine Hat, Disappointed in Quest for Lobsters and Cabarets in Calgary—Lands in Station House Instead

CHUM LURES HER BY TALES OF GAY LIFE

Well-Meaning Stranger Also Gets Into Trouble Through Aiding Two Lost Girls; Trio Arrested and Train Leaves While They Explain

This is a story of blasted hopes, shattered dreams and a police station. It contains the history of the brightest night and the darkest days in the biography of Olive Minnerzswald of Medicine Hat, a girl who longed for a wider sphere of enjoyment than that furnished by the prosaic Gas City.

It seems with broken romance and an unfeeling chief of police, a well-meaning reporter, a mistaken detective and a good looking young man of mystery.

For sixteen years Olive has been content with life as exemplified by Medicine Hat.

Heretofore her wildest dreams of a Perfect Day brought her to a moving picture show and ended up with an ice cream at the corner drug store.

The sedate youth of Medicine Hat marked her limitation as far as the opposite sex were concerned. Life to Olive was just one ordinary thing after another, but she had a different attitude toward the joys of romance and a different mode.

She was once darest girl in town, and she told of what a regular life in Calgary consisted. She painted the picture of hunter and lobster, cabarets and conviviality, joy rides in large red touring cars and the sight of young men in night suits and day into a thing of bliss.

She had a ticket to the dearest chum accompanied her to Calgary last Friday. Everything was strange—so different from the quiet life in Medicine Hat. The three girls went to the station where they were met by a man in a suit and a sympathetic crowd in the lobby.

The crowd hurriedly made up a collection, and the girls were well on their way to Medicine Hat when the well-meaning reporter injected himself into the picture.

Stranger, Reporter, Detective. He notified the police. As he stepped from the telephone the two girls were startled to see a man in a suit and a girl in a dress.

The reporter caught up to the trio and demanded the whys and wherefores. The stranger, still hurrying, refused to be interviewed. Then the mistaken detective appeared. He also asked questions, and the stranger emphatically and defiantly told him to mind his own business.

The detective took the trio to the police station, where it required twenty minutes to get the excited stranger to explain himself. He was custodian of the Olive Rescue fund, and was taking the two girls to the depot, where he intended putting them on the train for Medicine Hat. Investigation proved the truth of his story, but by this time the train had left, and Chief Cuddy took the girls into custody.

Sending them to Miss Gordon's Home, Olive's chum proved refractory and wanted to take her home. Chief Cuddy, however, held the pair until last night, when Olive's brother-in-law was permitted to take her home. Chief Cuddy explained him to take the chum with him, but he declared that one girl was enough for him to handle.

The girls left for Medicine Hat, yowing and sobbing and cabarets were two things which were forever scratched from her book of memory, and the dream of a Perfect Day was a thing of the past.

THE MORNING ALBERTAN

CALGARY, THURSDAY, MAY 22, 1913.

TWELFTH YEAR—NO. 71

ANOTHER DELAY IN CITY LOAN; MONEY FOR CITY SAID TO HAVE BEEN NEGOTIATED IN LONDON

AFTER a special meeting of the city council, called expressly to pass a resolution dictated by the solicitors of the Bank of Montreal, and supposed to validate the recent issue of \$2,000,000 worth of treasury bills, the bank's solicitor has discovered a flaw in his own motion; and as a result there is still no money forthcoming for the engagement of 1,000 laborers on various public works which have already been delayed five or six weeks.

It is understood that the bank has negotiated the notes in London at 5 1/4 per cent.; but that the transference of the money to the city is delayed by the action of the local solicitor representing the bank.

CANADIAN PRODUCTS TO BE VIEWED IN CALGARY JUNE 7

"Made in Canada" Train Will Spend All Saturday in City; Last Year Greatest Crowd in All the West Visited the Train in Calgary

ARRIVES ON FRIDAY
AND LEAVES SUNDAY

Itinerary of Manufacturers' Train Will Be Over All Three Western Lines and Will Cover Many More Points Than Last Year

The "Made-in-Canada" train which Calgary board of trade has decided to give an official welcome, will arrive in this city on Friday, June 6, at 3 p.m., and remain open for inspection until Saturday evening.

The largest crowd met with anywhere on the route passed through Calgary last year, and this year is expected to be a record. The train, consisting of 10 N.R., and G.T.P. lines, and takes in a much larger area than last year, while the exhibits themselves will be nearly all different from last year and on a constant scale.

The train left Montreal on May 14 and visited Ottawa, Toronto, Sudbury, Port Arthur, Fort William, Sault Ste. Marie, and Dryden in turn. On Friday and Saturday of this week it will be in Winnipeg, where it picks up the western section, and goes on to Carman, Souris, and Brandon; thence to Regina, Moose Jaw, and Arcola. Moose Jaw, Medicine Hat, Lethbridge, and Macleod, and Calgary at 2 p.m. the same day, with Aldersyde from 3.30 to 10 a.m. on Friday, Okotoks 10.20 a.m. to 10.40 a.m., and Calgary at 11.10 a.m. the same day.

From Calgary the train will pass through Crossfield, Olds, Ingleton, Red Deer, Lacombe, Ponoka, Wetsaskwin, and Damsland on Monday and Tuesday, June 10, and 11, continuing on the new C.P.R. line from Macklin to Moose Jaw and Regina. It will then be turned over to the C.N.R., which will handle the train from Regina through Saskatoon to Prince Rupert, and from Warman to Edmonton, where they will transfer to the G.T.P. for operation over their system from Thibault to Alton, from Edmonton to Melville, and from Melville to Canora. At the latter point it will be turned over to the C.N.R. again, making stops at Dauphin and intermediate points before proceeding to Winnipeg, where the exhibits will be dismantled. This is a much more comprehensive tour than that of last year, and practically all the points covered, except the larger cities, will be new ones.

FIRST BAND CONCERT HELD LAST EVENING

The first band concert of the season was given last evening at Movia, Park and a large and appreciative crowd was present for the occasion and the various numbers were greatly applauded by those present. The concert was given by the Citizens' Band which was minus its conductor who will not be back from Toronto, where he is attending the convention of musicians.

The following was the programme given last evening: Popular selection—Medley Overture No. 3, Vol. Rossini; Hungarian fantasia, Theo. Mosz; Tobin, Hands Across the Sea, Theo. Mosz; Tobin. In the Garden of Melody—Intermezzo, W. J. Suds; The Broadview Review—F. Bodenwall; Naughty Marietta—Selection, Victor Herbert.

FRENCH SHIP STRIKES MINE AND IS BLOWN UP 200 PEOPLE ON BOARD

Marseilles, May 21—A private message received here says that the liner Senegal, of the Compagnie des Messageries Maritimes, struck a mine as she was leaving Smyrna and was blown up. It is believed that there were nearly 200 people on board. No confirmation of this dispatch has yet reached the company's offices here.

The Senegal was a vessel of 3,625 tons. She was built at L'Orient in 1872.

London, May 22—A Smyrna dispatch to The Daily Mail says that tugs have gone to the assistance of the Senegal in the hope of saving life. The Senegal left Marseilles last Thursday with about 60 passengers aboard and a crew of 60.

J. W. DAVIDSON BACK FROM CITY PLANNING MEET IN CHICAGO

Two Canadian Appointments on the General Committee; One Goes to Toronto, the Metropolis of the Dominion, the Other to Calgary

THERE MUST BE A REASON FOR THIS DISTINCTION

Mr. Davidson Says Calgary Is Being Favorably Commented on Because of Having Engaged Mawson—Alberta Act Discussed at the Convention

JAMES W. DAVIDSON, president of the Crown Lumber company, returned to Calgary yesterday from a month's trip east during which he represented Calgary at the City Planning convention held in Chicago early in this month. There were two Canadian appointments on the general committee, Mr. Davidson and Mr. Hynds of Toronto. From the Chicago reports it would appear that Calgary received much attention, doubtless due to the efforts of our representative.

There was a large attendance representing all the large cities on the continent. Calgary was very freely praised for its selection of Mr. Mawson to create the Calgary plan and it was predicted that the results of his labor would be of special interest owing to the fact that Calgary was the first city on this continent to obtain for work of this nature, the services of this famous expert.

Mr. Davidson was specially pleased over the great interest taken in the new city planning act lately passed by the Alberta legislature. The status of the act was discussed at length, and much that is necessary if city improvement is to be made possible in a much larger area than that now covered by the city limits. It was pointed out that it is necessary in several important instances cannot be obtained without the consent of the legislature, which is not easily accomplished. One of the meetings was devoted to a discussion of the important subject. The very pressing alterations in the laws which were necessary to bring the act into effect, Mr. Davidson, and it covered most of the afternoon.

Alberta is Complimented. Comments were most profusely bestowed on the province, and on the Calgary city planning commission for the enterprise and the high standard shown in obtaining such advanced legislation. More than sixty applications were made immediately for copies of the act, and Mr. Davidson found, on his arrival here, that the act had been passed.

What the West Did Yesterday

CALGARY. Five local companies with headquarters at Calgary are incorporated with a capital of \$850,000. The celebrated town planning expert, Mawson, in his advice to the Calgary town planning commission emphasized the need of a good auditorium. The city hopes to attract at least three big conventions this summer.

STRATHMORE. The giant cucumber just produced at the C.P.R. demonstration farm is in length 27 inches, circumference nine, weight five pounds two ounces. It has been grown under glass.

BRANDON. The Manitoba Medical association is holding annual convention here on June 5 and 6. It is expected about 150 medical men will be present.

FORT WILLIAM. The first quarterly report of the public utilities shows a surplus of over \$10,000 in electric light and \$1,300 in telephone.

LETHBRIDGE. The proposed scheme for grading hay and straw, made by the associated boards of trade and the city, is attracting much attention in the States. The department of economics, North Dakota Agricultural College, request copies of the proposed grades and rules with a view to recommending similar ones in that state.

GOVERNMENT WILL GO TO THE COUNTRY WITHIN EIGHT WEEKS IS PREDICTION FROM OTTAWA

OTTAWA, May 21—A meeting of the Liberal senators was held this morning, to consider the attitude of the party on the naval bill which will come up for second reading soon.

The senators were very reticent as to what occurred, but the general impression prevails that it virtually was decided to take such steps as will prevent the naval bill from becoming effective for some time to come; in all probability they will add to the bill the amendment which the Conservatives in the upper house endeavored to attach to the Laurier naval service bill.

This was an amendment declaring that the money it was supposed to expend should not be sent until the matter had been referred to the people. Such an action would suggest the possibility of an early general election. As a matter of fact, it is now predicted that the government will go to the country within eight weeks.

STUBBS WINNING IN HARD BATTLE AMONG MINERS Captured Lethbridge but the Smith Faction Put Up Hard Opposition

Lethbridge, May 21.—At a large meeting of the Lethbridge local No. 674, United Mine Workers of America, last night, Clem Stubbs was nominated as the hard opinion part of the Smith Socialist faction. The greatest opposition to the election of Stubbs came from the Hosmer and Michel locals, which are Smith strongholds, but Lethbridge, Coleman, Fenwick and the largest locals in the district are lined up solidly behind their old leader.

UNIVERSITY PROFESSOR DEAD London, May 21.—The death occurred suddenly at Edinburgh today of Dr. James MacGregor, professor of natural philosophy at Edinburgh university. Dr. MacGregor was apparently quite well when he rose this morning, but while dressing he was seized with an illness to which he succumbed almost immediately.

POSTMASTER FALLS UNDER HIS HORSE NEAR SHEPARD

F. E. Mooney, Well Known in District, in Holy Cross Hospital as the Result of Serious Injuries Received in Fall from Horse

HORSE REARED AND THREW MAN UNDER Fractures of Bones About the Thigh Are Serious and Looks as if Man Was Struck by Saddle of Falling Horse; Will Take Two Months to Recover

F. E. Mooney, postmaster at Shepard, fell from his horse on Tuesday afternoon while out riding. The horse, too, fell and came down on the top of the rider, with the result that he is now at the Holy Cross hospital suffering from serious fractures of the bones of the thigh. It will take a full two months treatment of the man at Shepard, and he is suffering considerable pain, but his condition is not for the present dangerous.

Mr. Mooney was out riding in the afternoon, and his horse was being young and spirited, and not much used to being ridden in the saddle, shied at something which attracted his attention. The animal started away suddenly, then stopped and began to rear up in its excitement. The rider was thrown back as the horse reared up, and the man was thrown back right on top of him. From the injuries it appeared as if Mooney was struck heavily by the saddle.

Fortunately, assistance was soon secured, and Mooney was taken home. He was attended to by Dr. E. J. Martin, who dressed the wounds. It was seen that there were no fractures of the proper treatment of the man at Shepard, who he is now located. The latest report received last evening was that Mooney was as well as could be expected under the circumstances.

HUNDRETH BIRTHDAY OF WAGNER IS TODAY

Today is the Wagner centenary, for today a hundred years ago to the famous musician and writer was born. He was an exile from Saxony but his life was one of "storm and drake" and he died in Venice. He was one of his time at musical work to take a living and live in exile for his revolutionary views. From his ill health he was an exile from Saxony but on his return like so many other great exiles, he had on popular favor and some back the hero of his people. His greatest works are: Tristan and Isolde, Parsifal, The Flying Dutchman 1845, and The Nibelungen which in composition occupied most of his life and was finally published in 1875 at Bayreuth, which had made his home and where he died in 1883. His centenary are being known but hardly less important. There will be a Wagner recital in Calgary to-morrow.

MANAGER DINGMAN IS NOT A BOOSTER OF OILFIELD

Disclaims Any Get-Rich-Quick Scheme on Part of Petroleum Products Company; He Says There Is a Stampede for Unearned Financial Gain

RIGHTS IN DISTRICT ARE ALL TAKEN UP

Manager of Another Company Asks if Mr. Dingman Wishes to Discourage Those Who Have Secured Oil and Gas Rights Near Black Diamond

THE report given in The Albertan yesterday that a great many persons had secured gas and oil rights in the Black Diamond district, in the neighborhood of Okotoks, has brought out the letter given below from A. W. Dingman, managing-director of the Calgary Petroleum Products company, which was stated to be operating in the district.

The article in The Albertan merely stated that gas had been found in commercial quantities and that it is not denied by any one. The statement as to the oil, was that it might be struck any day. H. J. Marrs, 2133 Seventeenth street west, last evening, speaking to The Albertan as the representative of the Firefree Gas and Oil company, which is also working in the district, said that he would like to ask the question why the company of which Mr. Dingman was manager had secured 6,000 acres and why many more people had secured rights for oil and gas and many had taken out the fee simple to the land, if there was nothing doing? He asked further if Mr. Dingman wished to discourage those who had holdings in the district so that they might give up their holdings.

Gas is Now Located. The claims as to the great deposits of oil and gas in the Black Diamond district are not new, and have been made by Mr. Dingman himself. But as recently as May 19 a circular letter was sent out to the shareholders of Mr. Dingman's company stating that there had been discovered in the boring hole a flow of gas to the extent of 2,000,000 feet a day.

The taking up of the rights has all gone on suddenly and unobtrusively during the last ten days, and the question is whether this would have been done without the consent of Mr. Dingman. The following is the text of the letter of Mr. Dingman:

Letter From Mr. Dingman. There has appeared in the press from time to time, and more particularly in The Albertan of this morning reports to support, or—in the mind of some persons—propose operation in what is stated to be in these parts, a huge oil and gas field near Black Diamond, some little distance south of Calgary.

These reports are so worded as to (Continued on Page 8).

ALARMING INCREASE OF EXPENDITURES IS OPPOSITION'S CLAIM

Mr. Cockshutt, High Tariff Leader in the Commons, Declares That Duty on Agricultural Implements Should not be Reduced—High Cost of Living is not to be Feared as Much as the Cost of High Living—Labor Member Refers to Increased Cost of Living.

OTTAWA, May 21—The budget debate was commenced today. Mr. McLean of Halifax, the chief opposition critic, led off with a speech nearly three hours in length. His main contention was that in view of the large surplus in the hands of the government, and the probable large surpluses of the future, some steps should be taken to reduce the present burden of tariff taxation. This was made doubly necessary, he said, owing to the rapid increase in the cost of living.

Mr. Ames, St. Antoine, who followed, contended that no good case had been made out for a reduction in the tariff more particularly as a large income would be required to meet the growing and necessary expenditures. Mr. Ames said that while there was no doubt the burden of taxation is higher than it was some years ago, the people are in a better position to bear it. He predicted a great area of development in Canada during the next decade.

Mr. Verville produced a great mass of figures to show that the cost of living is higher in Canada than in the United States. He noted the trend of recent events in the United States and said that a lower tariff must come in Canada. He maintained that the high cost of food products was due to the fact that there is a cold storage combine.

Mr. Cockshutt, (Brantford), the last speaker of the day declared that the working men of Canada are thrifty, contented and prosperous. He attributed the large increase in the revenue to the fact that the present government has strengthened the customs staff and (Continued on Page 8).
