kins.

Write for free Almanac describing actual cures of Rheumatism, Liver Compiaint, Neuralgia, Scrofuia, Tetter, Blood Poison, Constipation, Fever and Ague, Female Diseases, Dyspepsia, Kidney Disorders, Eczema, Catarrh, Diabetes, Dysentery, Nervous Affections, Sick and Nervous Headaches, etc., etc. A complete and sure cure is guaranteed. A registered guarantee goes with each \$1.00 box of either tablets or powder. Sufficient for 200 days' treatment. If your druggist hasn't it, write us. THE ALONZO O. BLISS COMPANY,

aga St. Paul Street, Montreal, Canada.

this serious annual waste that any

prevailed in this country in the past.

of place to refer to the fact that dur-

ing the past year a number of new companies have come into the field,

offering fire insurance at lower rates than those current with the old estab-

lished offices. It will be interesting to

observe whether these experiments will prove more successful than previous

attempts which have been made to af-

ford indemnity against loss by fire on more favorable terms than companies

which have been long engaged in the

business feel safe in offering. While, as insurers, we may hope these new

companies may have discovered the

secret of combining cheapness with

security, we cannot overlook the fact

that the records of the fire insurance business in Canada during the past

twenty years show a loss of upwards

of two million dollars of capital which

was invested in companies organized

to transact business at what are term-ed "cut rates." We may at least feel

assured that companies working upon

assume any considerable share of the

reductions can be made in fire insur-

In this connection it may not be out

WESTERN ASSURANCE material reduction in the tax which the public pay in fire insurance pre-miums can be brought about, for it is only necessary to refer to the government reports, showing the income and expenditure of companies licensed to do business in the Dominion, to prove that there has been, during the whole period embraced in these re-COMPANY.

The annual meeting of shareholders turns, but a very moderate margin of profit to the companies at the rates and under the conditions which have was held at the company's offices, Toronto, on Wednesday, March 7. The president, Hon. Geo. A. Cox occupied the chair.

The following annual report of the directors, with accompanying financial statement, was read by the secretary: FORTY-NINTH ANNUAL REPORT. The directors beg to submit herewith the annual statement of the company's accounts for the year ending Dec. 31

The, revenue account shows a satisfactory growth in premium income, and after payment of losses and expenses there is a profit balance of \$118,642 60, as a result of the year's transactions. Two half-yearly dividends have been provided for at the rate of 10 per cent per annum, as well as an amount to cover depreciation in securities, and the reserve fund has been increased to \$1.100.380 50:

Taking into account the fact that during the year 1899 the fire losses in the United States were exceptionally heavy, the directors feel that these results must be regarded as eminently satisfactory.

For some time past your directors have had under consideration the ques-tion of extending the agencies of the company- beyond the limits of the North American continent, and shortly before the close of the year arrangements were completed for the es-tablishment of a branch office in London, England, under what appear to be favorable auspices.

GEO. A. COX, President. Toronto, Feb. 26, 1900. SUMMARY OF FINANCIAL STATE-

Security paid to policy-

tion of the report; said: . . It cannot fail to be gratifying to the shareholders, as it is to the directors and officers of the company, to note the evidence of the appreciation by the insuring public of the security offered by the "Western" to its policyholders, which is afforded by the growth in the volume of business transacted - the total income for the year having exceeded, for the first time in the history of the company, two and one-half mil-lion dollars. It is still more satisfactory to note that, notwithstanding the exceptionally heavy fire losses which have occurred in some of the chief cities in the United States, where the business proved generally unprofitable to the companies engaged in it, we are able to show as a result of the transactions a profit balance of \$118,642. The experience, of the year 1899 in Canada were exceptionally favorable and the diminished fire waste in this country is certainly a matter for congratulations, aside from our interests in the business of fire insurance. It is to be hoped that the introduction of improved fire protection in our cities and towns, and the adoption of more substantial methods in the construction of buildings, will tend to a further reduction of the burden which the payment of some five million dollars per annum by insurance companies for fire losses in Canada, imposes upon the community, for I need scarcely say that this has to be provided from the premiums collected from the insuring public. I desire to emphasize what I believe to be a fact-that it is only by adopting measures that will reduce

About three years ago I had to leave school with sore hands. My teacher said it was Salt Rheum or Eczema and told me to see the doctor.

it did me no good.

After I had suffered with the itching and burning about three months, mother thought she would try Burdock Blood Bitters.

I only took two bottles, when my hands got completely cured. -Emma Sheridan, Perry Sound, Ont

have been following for many years past. But to return to the consideration of our business during the year under re-view, it will, no doubt, be interesting to shareholders to learn that the marine branch, which has been responsible in some former years for rather serious the consideration of the question of

the desirability of following the exof the majority of the successful British fire offices and embracing a larger field of operations than we at losses, has shown a profit upon the business of 1899, and that the general outlook in this branch appears to be more promising than for some time past.

In our earnings from interests there has been a falling off, such as might W naturally be looked for, owing to the reduced rates obtainable, particularly upon the class of securities which are held by this company.

There is one matter to which I wish particularly to refer at this time. It is now within a year of half a century since the company commenced business in Canada. Some twenty-five years ago completed its system of agencies throughout the United States, and I think I am warranted in saying that it is now established over the whole of the North American Continent, on a favorable footing, with an efficient force of branch managers, special agents and local agents working in its interests. Under these circumstances your directors have turned their attention present occupy. In view of the efforts which are being made-happily with no small measure of success-to enlarge the trade relations between the mother country and her self-governing colonies, and to cultivate intercolonial business connections, we have felt that the present is an opportune time for making a similar effort to secure some measure of reciprocity in the business of fire insurance. As a practical step in this direction it was decided to establish a branch office of the company in London, England. This was opened on the 1st of December last, and placed under the management of Mr. W. B. Meikle-a gentleman, who, we believe, possesses all the qualities of a success-

ful insurance manager. A board of directors has been appointed in London, upon which we have been fortunate in securing the following gentlemen serve, namely: The Right Hon. the Earl of Aberdeen, G.C.M.G., the Right Sir John Kennaway, Bart., M.P. Hon and Mr. James Stevenson, of Messrs. Grahams & Co.; British and East India merchants; and I am pleased to say that we feel that we have every rea-son to be encouraged at the start which we have made in the chief metropolls of the empire, and at the agencies which have thus far been established in connection with this new branch. Mr. J. J. Kenny, the vice-president seconded the adoption of the report, which was carried unan mously. The election of directors for the ensuing year was then proceeded with, resulting in the unanimous re-election of the following gentlemen. viz .: Hon. George A. Cox, Hon. S. C. Wood. Messrs, Robt. Beaty, G. R. R. Cockburn, George Mc-Murich, H. N. Baird, W. R. Brock, J.

K. Osborne and J. J. Kenny. At a meeting of the board of direc-Mother got some medicine, but A. Cox was re-elected president, and Mr. J. J. Kenny vice-president, for the ______M. C. DICKSON, District Passenger Agent.
