Montreal, Dec. 11. - Twenty-five invalided members of the Canadian Mounted Rifles and Royal Canadian service in South Africa, and who have left for their homes, came up from Hallifax. Thirty-one all told came over by the Tunisian, but a few remained in the Lower Provinces. The men who came on here were all troopers. They had received their discharge before khaki uniforms. Most of them seemed to think that they had had enough of homes, but they all admitted that they had been treated well, although hospital comforts, when they were suffering from wounds and enteric fever at the Vet River and Bloemfontein, were of the most meager kind.

The most conspicuous member of the party was Trooper Milloy, of Ottawa, who was so severely wounded in the head and face at Bronker's Spruit that he has entirely lost the sight of both his eyes. His fellow-soldiers declare that he was the life and soul of the entire party as they crossed the ocean.

At the mee of the provisional government yes day is was stated that all the gov ments have entered into the plan except France, whose representatives sist that the French territory shall be excluded from the rule of the commission appointed. Though army cers have been appointed members of the commission, it is the desire of the generals to make the rule civil as far

as possible. GEN. CHAFFEE'S STORY. Washington, Dec. 11 .- The war department has received a report from Gen. Chaffee of the incident that occurred at Pekin in connection with his representations to Field Marshal Von Waldersee. It appears that Gen. Chaffee did use some pretty vigorous language in protesting against the thieving and looting of the foreign troops. What particularly hurt the feelings of Waldersee was a pointed reference by Gen. Chaffee to the fact that disgraceful, unmilitary practice of looting was being indulged in, not by the men who did the fighting and opened the way to Pekin, but by the late-comers, who had borne none of the brunt of conflict and hardship. Waldersee himself did not reach Pekin

until long after the expeditionary force had occupied the town. It is recognized here officially that deliverance, but regret is felt that he

Toronto, Dec. 12.-The comporations represented by Mr. Christopher Robinson, Q.C., and half a dozen other counsel sprung a surprise on the assessors and the assessment commission yesterday by suggesting that all corporations should be assessed on 60 per cent of their gross earnings. His proposal was contained in the following memoran-

A tax, as hereafter directed to be ascertained, shall be imposed upon 60 per cent of the gross earnings from local or provincial business of companies for the supplying of water, light, heat and power to municipalities and the inhabitants thereof, telephone companies and companies operating street railways and electric railways, such tax to be in lieu of all taxes, rates and assessments of every nature (including school taxes) upon the real and personal property of the company acquired and used for the purposes of the same.

A provincial board, to be appointed by the governor-in-council, shall ascertain in each year the total gross earnings of such companies for the preceding year, and shall apportion fairly the assessable part of such gross earnings between the municipalities in which the companies operate, and thereupont the said municipalities may each of them assess such companies at their respective current rates of taxation upon an amount equal to the proportion of the gross earnings of the pany so apportioned to each of them

by such board. The provincial board shall have power to reduce the taxes to be paid by any company of such percentage of the whole amount thereof from such company would be unfair or inequit-

Existing future contracts for ex-

emption from municipal taxation not to be affected. Mr. Helimuth spoke for the London street railway. He said that Mr. Grant, assessor of London, was mistaken in saying that there had been no objection in London to an assessment of \$7,500 a mile. Mr. Grant was also wrong in stating that the Street Railway Company did not make any payment similar to the mileage rental in Toronto. The complany did not pay in that form, because the people of London chose to take it in the form of reduced fares instead of mileage. More than that, the clity of Toronto maintained the right by

of the railway company, and then charged a rental of \$800 a mile for it, which looked like a return from the company, but in London the railway comlooked after their own roadbed. Therefore in that way and in the reduced rates the London company paid the equivalent of a mileage rate. They really paid what was equivalent to a mileage rate of \$1,500 a year.

Mr. Bell on behalf of the Grand Trunk Railway, asked to be left alone. as their present assessment was entirely satisfactory.

All of the companies represented ex-

cept the Grand Trunk supported Mr. Robinson's proposal. Mr. Fullerton, on behalf of the city of Toronto, asked for time to prepare his reply. He asked for an adjournment of this subject until Thursday. which was granted.
