TO WIPE OUT THE MOSQUITO.

A Simple Method Which Works Wonders.

Liquid Is Squirted On Pond From High Pressure Fump - Water Turns White- Everything In It Dies.

Orange, N. J., Sept. 2.-The mosquito plague of the Oranges seems likely to depart from it. For two weeks the Oranges have been the subjects of experiments with a new mosquito-killing fluid. The experiments have been very satisfactory, and though there are a mosquitoes floating about some of the damper and shadier corners of the villages, the citizens no longer feel it necessary to arm themelves with tar ointments and nets about their hat brims when they go abroad in the cool of the evening. The Oranges have been fighting mosquitoes on the Doty plan with crude petroleum for some time with fairly good results. Two weeks ago two barrels of a patent preparation were sent to Health Inspector Elvia Scott, He found it easier to handle than crude pe-

troleum, and for that reason more ef-A demonstration of the methods of using the apparatus was made at the Japanese Gardens at Mountain Station this afternoon. The Japanese Gardens is an inclosure, kept by a Japanese company, in which the landscape is laid out after Japanese ideas. There is a lake at the lower end. For a time the people of Orange took great pleaoure in visiting the place and in sipping tea in the pagodas along the lake. The mosquitoes made the place absolutely unfit for habitation. They rose from the Dond in dense swarms. The place has almost deserted lately.

This afternoon Dr. Bonnel, who is inbrested in the new preparation, went sown to the shore of the pond with his petroleum tanks, and the pond was thoroughly treated in about

COULDN'T WORK AND WALK

low Walking's a Pleasure pose to sell the apparatus and oil rath-Since Using Foot Elm.

"I am never troubled with sore feet how and I am only too glad to help advertise the most wonderful powder for sore, tender, sweaty feet, that has ever been on the market. If you had seen my feet before using Foot Elm and could see them now, you would scarcely believe them the same feet. I can now enjoy a walk, whereas I had to stay in the house before using Foot Elm, in order to be able to work

R. R. DUNNETT 224 John street, Hamilton, Ont. To overcome all the tiredness and soreness, the itching and aching the swelling and sweating, the burning and chafing that comes from long-con-tinued use of the feet, there is nothing to equal Foot Elm. Price 25 cents a box at all druggists or sent by mail tott & Jury, Bowmanville, Ont.

an hour. The tank is a long iron barrel, about the size of an ordinary kitchen water heater. Back of it is a cylinder of liquid carbonic acid gas which furnishes pressure. The pressure is usually kept rather high. From one end of the tank runs the hose, which carries the oil from the tank to the pond. A very heavy hose is used because of the high pressure. The nozzle looks like the nozzle or an ordinary garden hose. Dr. Bonnel stood on the edge of the pond and squirted the oil at the water. The oil as it came from the nozzle was dark brown. The moment it struck the water the water turned milky white. The whole pond was like milk very soon. A lot of minnows and little fish | 1st Hussars. Granted. came to the surface, gasping for breath. Those which could be reached were taken out in a net and put into clean water, where they soon revived. It was said by the operator that the effect of the compound used was to shut off the oxygen supply of everything in the water. The oil kills all vegetables and animal organizations in the water it touches. After the oil had been in the water for half an hour or more free crude petroleum began to come to the

> Dr. Bonnel explained that the compound has a greater specific gravity than water and sinks to the bottom as soon as it strikes. Then after a time petroleum frees itself and rises to the surface, permeating the whole body of water as it comes. Thus the end sought by Dr. Doty with his machine for forcing petroleum under water is attained with rather simple apparatus. The process left the pond much less pleasant to look at than it had been, and the neighborhood was thoroughly impregnated with an odor like that of moth-balls. It that the pond would clear some in the course of a week, and that the odor would be less strong. But ne mosquitoes arose from the pond last night. In order to show those who came to see the demonstration what the effect of the secret compound was on mosquitoes, larvae and pupae in large jars were treated to a dose of the mixture. The stuff dropped to the bottom and then rose in a white cloud that reached the top of the jar. The larvae and pupae struggled vigorously to get away from it. The live mosquitoes under the netting covering of the jar dropped helpless as soon as the fumes reached them. In fifteen minutes every larva and pupa in the jar was dead.

> Bonnel and his assistants have been treating the ponds and swamps and even the more sluggish brooks of the village for a week. Yesterday's tests were witnessed by representatives of the health boards of Montclair and of other towns and villages. Nearly all of them have been using the crude petroleum method. Those who are exploit. er than make contracts for the elimination of mosquitoes, but it was said yesterday that the making of such contracts might in time become a feature of the business.

> UNION OF ALL CHURCHES. New York, Sept. 4.-The Society of the Atonement of the Anglican Church has established a Franciscan order at Graymoor, a few miles from Garrison-on-the-Hudson. The society has for its principal object a union of all the churches under the pope. The high church element in the Anglican Church has for years been endeavoring to have its orders recognized by the Vatican A year ago the pope refused requests of such a nature. The leaders in the movement have not become discouraged, however, and are working through the Society of the Atonement for the attainment of their end. This organ-ization is a revival of the order founded in England by the Sons of St. Fran-cis several hundred years ago.

THAT TAR-MACADAM

Committee Will Reconsider Final Payment.

Lively Controversy in Council About Queen's Avenue Job.

Request for Union Label on Civic Printing Again Refused—Other Items of Business.

What business the city council had to transact last night was proceeded with in a fairly expeditious manner, Ald. Cooper being the chief obstructor, when any obstruction occurred. Tar macadam loomed large as a subject for discussion, and No. 2 committee will reconsider its recommendation that the pavement be accepted, and the contractor paid off. The union printers of London received no better treatment from the present council than from those of former years, their request for the placing of the union label on the city printing being refused. The balance of the session was consumed in the consideration of other necessary but not strikingly import-

ant features of civic administration. Those present were: Mayor Rumball, Ald. Winnett, Parnell, Campbell, Olmsted, Garratt, Geary, Cooper, Beattie and Greenlees and Secretary

*COMMUNICATIONS RECEIVED. The following communications were received, dealt with summarily or referred to their respective committees: Mary and John Orange, for remission of taxes. No. 1. Ann Gould, for remission of taxes.

Jewell and Andrew Dale, city auditors, as follows: We have to report that during the quarter ending June 29, 1901, the license fee received from the circus which exhibited in this city on June 24 was \$50,

Cheapside to Victoria, by raising of sidewalk. No. 2.

Peter Inkster et al., for cement walk on East Inkerman street. No. 2. P. J. Thompson et al., for cement sidewalk on East College street. No. 2. Isaac Nixon et al., for grading of Dufferin avenue, from Adelaide to Elizabeth, and for electric light. No. 2. Purdom & Purdom, on behalf of Masonic Temple Company, re nuisance of auction sales on Market Square. No. 3. John Y. Ormsby, requesting permission to give an exhibition on the

streets of the Kilfyre Fire Extinguisher Company. Referred to No. 3 with John Garvey, jun., requesting fre use of city hall for Friday next. Sept. 6, for reorganization of A Squadron, Mrs. Brooks, for admission to Old

People's Home. Referred to inspector with power. Meredith, Judd, Dromgole & Elliott, re passing of bylaw to place union label on city printing. Action deferred thought that the workingmen of the until consideration of No. 1 committing should receive some consideration.

FOR THE UNION LABEL

Mr. J. C. Judd, of Meredith, Judd, Dromgole & Elliot, appeared on behalf of London Typographical Union, No. 133, in reference to the request to have the union label placed on the city printing. He pointed out that two or the clause carried, all voting for it the typical second of the motion. Ald. Cooper could find no other sponsor for it, and the clause carried, all voting for it to the clause carried, all voting for it and the clause carried, all voting for it to the clause carried. hree years ago the council had passed a bylaw providing that union wages must be paid on all city work. Mr. must be paid on an city what year Judd stated that during the past year the firm doing the city printing had paid less than union wages. Mr. Judd contended that the present bylaw was not sufficient to guarantee the payment of union wages, and asked the passage of the requested bylaw, as this would secure the desired effect.

TALKED TAR MACADAM. The first six clauses of No. 2 committee's report, recommending various local improvements, passed without opposition. The seventh clause, recommending that the tar macadam pavefeet with an amendment to refer the clause back to committee. Some of the residents on Queen's avenue, he said. were dissatisfied with the pavement, and would not pay for it.

Ald. Olmsted arose and said that the

committee and the engineer had examined the pavement and considered it first-class and in good condition. Ald. Garratt remarked that Ald. Olm sted and the committee evidently knew nothing about good roads or they would not characterize the tar macadam as The recent top dressing had infured the road more than it had bene-

This was too much for Ald. Olmsted and he replied heatedly and positively that the road was a first-class one, and that anyway he knew as much about roads as some slop bricklayers and others going around town.

After Ald. Garratt's dry suggestion that Ald. Olmsted be called to order, Ald. Campbell said that the only thing wrong with the tar macadam was the fact that people expected to get an asphalt pavement and didn't. He did considerable driving himself, and he considered the Queen's avenue pavement the best piece of road in the city The amendment carried by a division of 5 to 4, and the matter goes back to committee.

The proposed construction of a bituminous tar macadam on Talbot street between Fullarton and Oxford streets, was referred back, Ald. Cooper's motion that the clause be struck out being de-

TO APPOINT PARK OVERSEERS. The recommendation that the council appoint three park overseers, drew from Ald. Garratt an indignant protest. He moved that the clause be struck out, at the same time inquiring what was the use of electing three more men to do the work of No. 2 committee. Surely there were enough sensible men in the council to look after the city

Ald. Parnell supported the clause. There were few aldermen or private citizens who knew anything about

UNION LABEL TURNED DOWN. hands of No. 1 committee. The only other objections made to any of the eleven clauses of the report were those made by Ald. Cooper in reference to the letting of contracts for printing and advertising.

Ald. Cooper moved that the clause recommending acceptance of A. Talbot & Co.'s tender for printing be referred | done back. He claimed that since the committee meeting he had discovered a lower than the recommended one, and by its acceptance the city would save \$800. Ald. Garratt seconded Ald. Cooper's motion.

Ald. Cooper then discovered, however. that it was the advertising, and not the printing, tenders which he had in mind. He, however, pressed his motion, in order that the petition of the union printers, that the union label be placed upon the city printing, be considered. He

Don't Spend Your Money In Travel and at Hotels

Stay at Home, Rest and Use Dr. Chase's Nerve Food, and Your Health Will be Restored.

It Puts Your System in Shape to Withstand the Withering Summer Heat.

To persons without leisure and means, travel and residence at some watering place is impossible, or only obtained with worry, unnecessary expense, and consequently strain on the system which more than makes up for any slight benefit received. Like scores of others who have profited by the above advice you will be thankful if you follow it. There is England spends £8,400,000 a year on her paupers, Scotland £900,000, Ireland £1,400,000. France spends less than £1,no more certain way of recuperating the wasted tissues of the 500,000. body and preventing the weakening and debilitating diseases consequent on the trying heat of summer.

The rosy cheeks and healthful appearance of people who use Dr. Chase's Nerve Food are an outward indication of the revitalizing influence which is going on in every part of the body. Loss of flesh is prevented, nervous prostration and exhaustion averted, and all diseases of the nervous system thoroughly and permanently cured by the regular use of the famous treatment. You can rest better at home than any place in the world. Rest and Dr. Chase's Nerve Food will be of more lasting benefit to your body and mind than any amount of tiring and expensive travel or wearying and restraining life at a summer resort.

50 cents a box, at all dealers, or Edmanson, Bates & Co., Teronto.

Ald. Greenlees opposed the placing of the label on the city printing. He was

save Ald. Cooper.

Ald. Greenlees moved to amend clause
10, which recommended the awarding of the advertising contract to The Advertiser, by adding: "And that when necessary to use more than one news-paper, the advertisement be inserted in the Echo, its tender being the lowest." The amendment carried. No. 3 committee had no report to

INQUIRIES BY MEMBERS.

Ald. Cooper inquired who paid for cement approaches to sidewalks on King street. Ald. Winnett answered that the approaches had been made on one block only, where the walk was so ment on Queen's avenue be accepted high that it would be impossible to from the contractor, and that the final payment of \$511 83 be made P. L. Marsupposed that they had been characteristics. len & Co., brought Ald. Cooper to his to the sidewalks, and that the property owners had paid pro rata.

MOTION MADE. Ald. Parnell moved that the gulleyhole on Byron avenue be moved to the dividing line between the property in front of which it now stands and the property to the west. The motion car-NOTICE OF MOTION.

Ald. Cooper gave notice that at the next meeting of the council he would move that hereafter all cement approaches to sidewalks be paid for by the people benefited by them. BYLAW PASSED.

A bylaw was passed to amend bylaw 751, section 6, by adding the words, "or act in a disorderly condition," to the regulation prohibiting drunkenness in public places. Heretofore charges of disorderly conduct could only be laid under the statute, as there was no pro-vision in the civic bylaws, and fines mposed for the offense had to go to the provincial treasurer instead of the

The council then adjourned to meet Sept. 16.

American Woman Charged in a London Court With Forgery Involving \$500,000.

SLICK SWINDLER

FORGERY INVOLVING \$500,000 London, Sept. 3.-Marie Josephine Eastwick, of Philadelphia, was arraigned in the Guildhall police court yesterday, charged with having forged a railway certificate of the value of £100,000. Sensational evidence was presented. The public prosecutor said the defendant has been residing in London for eighteen months, and was believed to be an American of wealth. She had been living with persons said to be her father and sister at the Metropole, London, and in the most exhibited in this city on June 24 was \$50, which amount was accepted by the city treasurer upon the written recity treasurer upon the written recommendation and advice of a majority of the members of the city council. This was undoubtedly irregular, as the bylaw calls for a fee of \$100, and in the most expensive manner. She obtained an introduction to Mr. Beaton, a member of the city's advantage to have experts in these matters interesting themselves in the care of the parks.

Ald. Campbell's amendment, that the clause be referred back to committee for slight changes, was carried.

Ald. Cooper objected to the payment by No. 2 committee on a lot used for city storage purposes, as payment of rental. On Ald. Winnett explaining that the lot had been used for twelve years without return being made the owner, the clause carried. to the Charing Cross branch of the Credit Lyonais, and asked the manager The matter of the proposed bylaw to prohibit trading stamps was left in the hards of No. 1 committee. The only The prosecutor said that by Aug. 26 the certificate had been altered, the name of the original holder had been crased, and the name of Marie Josephine Eastwick had been substituted. The word "five" in the number of shares and the numerals had been altered, so that it appeared to be a certificates for 1,000 shares instead be a certificates for 1,000 shares instead of for five shares. This was skillfully done, three kinds of type and ink being used, showing considerable preparation. The only mistake was that the document bore a shilling revenue stamp instead of one for \$10, which a certificate for 1,000 hares would carry. The defendant sen shares would carry. The defendant sent the altered document, with a letter, to Mr. Beaton, on Aug. 26, asking him to buy 1,000 United States Steel shares in the firm named, also requesting a loan of f4,000. Mr. Beaton's clerk noticed the stamp irregularity, and when to the Canadian Pacific office, where is was pronounced to be a forgery. The woman arrest soon followed. She was remanded until Sept. 9. She will be afforded special privileges on account of the poor state of her health, and will be examined by doctors. Her counsel intimated that the prisoner was suffering from temporary insanity. Her father said he would not explain the matter at present, but everything would come out all right.

A True Brain Food

must replace the feeling of lassitude and mental tiredness by clearness and strength of mind. Not that it goes directly to the brain, that were foolish. The true brain food must be carried by rich, red blood. If mental fatigue worries and alarms you, look not to the brain, but the stomach and assimilative organs. No remedy yet discovered possesses the marvelous brain strengthening power that Ferrozone has demonstrated in thousands of cases. Ferrozone does not stimulate the brain into a fitful glow, but by improving digestion, strengthening the nernust replace the feeling of lassitude and proving digestion, strengthening the nervous system, stimulating assimilation, giving new strength to the heart, it sends a stream of red, vitalizing blood to the brain. Thus it is a true brain food. Ferrozone is sold by W. T. Strong & Co.

Out of 100,000,000 passengers by sea all over the world 30 lose their lives. Out of the same number by rail, 47. NO PERSON should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint and there is nothing like being ready and there is nothing like being ready with a sure remedy at hand, which often times saves great suffering and frequently valuable lives. This Cordial has gained for itself a widespread reputation for af-fording prompt relief from all summer
