MEAT MERGER

Goes Into Operation Sept. 27-Next to Steel Trust in Magnitude.

Chicago, Sept. 12 .- The long expected merger of the great meat packing in-terests of the United States will go into active and open operation Saturday, Sept. 27, unless there should be entirely unlooked for change in the plans agreed upon by all those concerned in the deal at the meeting held here yesterday. An industrial combination, second only to the steel trust in point of magnitude and importance, therefore practically an

plished fact. The new packing combine is to be capitalized at the rate of 25 times the last year's earnings of the constituent companies. Cudahy & Co. are said to have earned about \$820,000 in 1901, which would make their share of the capital stock of the merger \$21,-000,000. On the basis of capitalization Armour & Co., whose last year's profits are supposed to have been about \$8,000,000 will receive \$200,-000,000 in the new securities in exchange for their business.

It is said that it is the undoubted determination of the consolidated meat interests to control all of the packing houses and stock yards of the country.

W. the correspondent of the London Daily Mail says that the speech made at Montreal, Que., by Sir Edmund Barton, prime minister of the Federation of Australia, has elicited severe criticism. Newspapers of Australia, says the correspondent, draw comparisons between the premier's deprecation of militarism and preferential trade while he was in England, which ideas were in harmony with Australian sentiment, and his flambovant utterances in Canada. which the newspapers say are worthy of Mr. Seddon, prime minister of New Zealand. Sir Edmund Barton has suddenly lost the esteem, concludes the correspondent of the Mail,

that he gained by his supposed attitude in London. CATTLE EXCLUSION. Right Hon. Robert W. SALE OF THE SHORE LINE

To the Grand Trunk Railway

Company.

Henry A. Everett Said To Be Now Arranging the Deal.

Detroit, Sept. 12 .- Henry A. Everett is in New York in connection with the deal by which the Grand Trunk is to purchase the Shore Line, says the Free Press, and a dispatch from the metropolis says the sale was practicaly made some time ago, only a few details remaining to be completed. At the Detroit offices of W. B. Strang, who holds the option, however, it was reported that nothing would be given out for several days. It is understood that one thing which prevented the deal from going through was that there is about \$80,000 worth of overhead equipment for trolley service on the Shore Line, which the Grand Trunk people did not want to pay for, while Strang, who holds the op-tion, insisted that he must have pay for the wire and poles. It is expected Prime Minister Barton Oriticised | that arrangements will be made to dispose of this equipment in some shape, and there seems to be little doubt that the deal will finally be com-

pleted. One railroad man said yesterday: "Why, it is likely that the Grand Trunk would save enough on the coal it has to pay for if it bought the Shore Line to pay the interest on the purchase price of the property. It would take the Grand Trunk into Toledo, where it could connect with a number of coal lines, and would give it great coal carrying business, while it would bring the Grand Trunk into one of the est freight originating districts of the country-that south of Detroit'
