

THE DOMINION'S TRADE SHOWS BIG INCREASE

Nine Millions More in June This Year Than Same Period Last Year.

Ottawa, July 19.—Canada's trade for June shows an increase of \$9,328,898, as compared with that of June last year, and of the first six months of the present fiscal year an increase of \$20,686,824 over the corresponding period of last year. The recovery from the depression which set in during the latter part of 1907, and which was reflected in the trade figures up to the beginning of the present year has been rapid, and the imports and the exports are now close to the record mark set in the summer of 1907.

The imports entered for consumption last month totalled \$21,231,914, an increase of \$7,134,846 over the preceding June. For the three months the imports totalled \$61,824,463, an increase of \$14,926,885. The exports of domestic products last month totalled \$10,554,000, and of foreign products \$2,661,659, being increases, respectively, of \$1,766,524 and \$1,824,646. For the three months the exports of domestic products totalled \$30,227,006, and of foreign products \$4,138,597, increases, respectively, of \$5,238,228, and \$2,377,512.

During the first quarter of 1908-09 Canada imported coal and fuel to the value of \$2,023,329. This year for the same period the amount was only \$267,727.

G. T. P. AND ITS MEN

The Board of Conciliation Grapples With Differences.

Winnipeg, Man., July 19.—The first session of the board of conciliation which is to settle the dispute between the Grand Trunk Pacific Railway and its operating employees opened yesterday afternoon. R. F. Sutherland, ex-speaker of the Dominion Parliament, is chairman of the board. The board is composed of the company and J. G. Donoghue, who has figured in several disputes, as arbitrator, is looking after the interests of the employees.

The members of the board have already discussed the preliminary points at meetings on Saturday and yesterday morning.

The men claim an agreement similar to those enjoyed by the employees of the C. P. R. and all other roads, but with modifications to suit conditions along the Grand Trunk Pacific. They have grievances relating to equipment, condition of the road, hours and the men's engines at roundhouses, and they also claim that serious accidents have occurred through lack of proper regulations and precautions.

The question of wages is not being entered largely upon, but the men are asking for a different method of grading.

WHEAT KING THREATENED

Man Attempts to Force His Way Into Patten's Office.

Chicago, July 20.—Clerks and patrons in the office of Bartlett, Patten & Co., in the Western Building, yesterday were alarmed by the appearance of an unidentified man who attempted to force his way into the private office of James A. Patten, the "wheat king," and threatened the latter's life. The man was dragged from the brokerage office by the police. He is believed to be a negro, and is being held by the police. He was overpowered by a negro watchman. As he was arrested, he declared he would kill the negro, and would "get" Patten later. When taken to the Harrison street station the man gave his name as W. M. Belvin, and said his home was in New York. In his pocket was found a Sherman House room key. At the Sherman House yesterday, when he was taken to the hotel, he was stopped at the hotel since July 17, but that when he registered he did not indicate his place of residence.

HAS WEDDING MONOPOLY

But the Woman Judge Omits the Word "Obey."

Beloit, Kas., July 20.—So popular have become the marriage ceremonies performed by Probate Judge Mary H. Cooper, that the probate judge in the United States, that it has become almost a fad in Mitchell County for young women to have their marriages performed by Judge Cooper. Judge Cooper today, to an effort on my part to get away from the hackneyed, machine-like way in which civil ceremonies are generally performed, I attempted to make the service as impressive as I know how.

"And this office does not believe in tips. It accepts only the legal fee for the license or the ceremony. I presume there is nothing wrong in accepting additional money from an over-zealous, love-saturated groom, but I believe that the law intends that I shall take no more than set forth in the statutes."

JAPAN AND CHINA

Premier's Organ Hints at Possibility of War.

Tokyo, July 20.—The Kokumin, one of the most influential of the Japanese newspapers and which is generally regarded as the mouthpiece of Marquis Katsura, the premier, in matters pertaining to the Government's policy, in an article today discusses the situation between Japan and China, and strikes a somewhat alarmist note. It was expected, says the article, with the withdrawal of the proposal to refer The Hague arbitration tribunal, the differences between China and Japan to precede the adoption of what was held to be a more satisfactory situation by China. But this expectation has not been realized. China now proposes wholly unacceptable terms, and refuses to reply to Japan's request for reconsideration.

The article concludes: "The Japanese Government is showing all possible patience, but is not carrying endurance on the point of sentimentality. Unless China's mood changes before the conclusion of the current month, Japan will be obliged to assume a different attitude."

FLOGGED SOLDIER SLAYS OFFICER

Russian Army Punishment Causes Double Tragedy.

St. Petersburg, July 20.—The system of flogging, which is still used as a means of punishment in the so-called disciplinary battalions of the Russian army, led to a tragedy today at Miedvedy, Novgorod Province, where the largest battalions are located.

A soldier was condemned to fifty lashes for stealing. After a few blows the man begged to be released. This was refused, and he wrenched himself free, at the same time drawing a knife, which had been overlooked in searching him.

He leapt upon the supervising officer, Captain Kalerovsky, and stabbed him to death. Then he slashed two soldiers who attempted to seize him, and buried the knife in his own breast.

AFTER CANADA'S MARKET

German Government Working Hard to Secure a Foothold.

London, July 20.—A Berlin dispatch states that Germany is striving with might and main to secure a firmer commercial foothold in Canada. The efforts of the German Government are being backed up with the greatest enthusiasm by merchants and commercial magnates, and scarcely a day passes without the attention of traders and exporters being drawn, through the press, to Canada as a field for German enterprise.

The Berliner Lokal Anzeiger will dispatch in August its naval correspondent, Capt. Vonpustau, to the Dominion to make an exhaustive tour and write a series of articles. Vonpustau will also endeavor to interview Canadian statesmen in order to bring to their notice the recently formed German-Canadian Economic League, and will sound them as to the prospects of a better commercial understanding in the near future.

N. Y.'S \$77,000,000 TUNNEL IS NOW OPEN

Jersey City 3 Minutes From Broadway.—Taft Sends Congratulations.

New York, July 19.—Jersey City is today within three minutes of Broadway, the result of the formal opening of the two down-town tubes of the Hudson and Manhattan Railroad Company.

The New York terminus of these tunnels under the Hudson is at Church, Cortland, Dey and Fulton streets, and the Jersey City terminus is at the Pennsylvania Railroad station. It is planned to open the connection on the New Jersey side with the Erie and Lackawanna stations Aug. 2, and it is promised that within two years the New York extension to the Grand Central station will be in operation. The total cost of the system as at present projected is \$77,000,000.

The event of today was celebrated by an excursion of New York State and city officials and capitalists to the Jersey City hall, where public exercises were held.

Incident to the ceremonies was the reading of a letter to President Wm. G. McAdoo, of the Hudson and Manhattan Railroad Company, from President Taft, congratulating him and his associates on the happy results of their great work. In it he expressed his regrets at being unable to be present, and congratulated those who have been so long associated together in the work, and who at last see it an accomplished fact, "even more the people of your vicinity in having secured so valuable an accession to their ease and comfort in travelling from one state to another."

President Taft characterizes the work as "an engineering feat of vast magnitude—a monument to American enterprise."

GYPSY BAND BATTLES

Row Over a Little Girl Taken Into the Courts.

Ottawa, July 20.—The gypsy bands in Hull were engaged in a legal battle today over the custody of a girl, who, it is alleged, was sold by her father to a member of another band. The girl claimed to be maltreated and returned to her father, only to be recaptured by her lover. The arrest of the latter, charged with abduction, precipitated a hearing this morning before Recorder Desjardine. That official decided that the girl must remain in the custody of the law pending final judgment, but to both sides strenuously objected, the mother throwing herself at the recorder's feet and beseeching him to reverse his judgment.

Both sides made a lavish display of wealth, hiring all the available automobiles and carriages in the city. One woman is said to have displayed \$2,500 in gold. Nevertheless the authorities have ordered all the members of both bands, except those in jail, to leave at once.

It is said that the girl in the case, who is only 13, complained that she had been tortured with red-hot irons, but she seemed quite pleased today at the sensation she was creating and gave no signs of injury.

AN EXTRADITION CASE.

Detroit, Mich., July 20.—Attorney Pound is asking for a writ of habeas corpus to secure the release of James Kibley, whom the Canadian Government is trying to extradite to Canada to answer a charge of larceny. Mr. Pound contends that United States Supreme Court Commissioner Carrie Davidson has not legal right to perform that part of her duties in that she acts as an examining magistrate, and that under a supreme court decision she cannot be a prosecutor. He also contends that no evidence has been presented to show that Kibley committed any crime in Canada. Kibley has been in jail since last March, and this is the latest effort to secure his release. Miss Davidson is the daughter of former United States Court-Commissioner Davidson. She acted as her father's clerk for several years, and upon his death was highly indorsed as his successor.

All was quiet until he got in, and then Walter Kelly jumped on Fysh and started to punch him as hard as he could.

P. C. Fysh threw his man, and held him down. A moment later Sergt. Birrell arrived, and the wagon was called.

Mrs. Kelly went continually during court. JULIA CANE LOCATED IN NORTH END CELLAR

Unfortunate Girl Sought Shelter in Basement of Victoria Street House.

Miss Julia Cane, the young woman who escaped from the Asylum some days ago, was found last night shortly after midnight in Mr. James Clancy's cellar on Victoria street. The family heard sounds in the cellar, and upon investigating were surprised to find the missing girl.

Miss Cane made most pitiful appeals not to be returned to the Asylum. She stated that for three nights she had slept in a barn belonging to Mr. Clancy. It was feared that she might be the efforts of some fourteen people, she could not be located, that the girl had drowned herself in the river. Such, happily, was not the case.

She escaped from the Asylum a week ago last Friday, and although a most thorough search was instituted she could not be found until last night.

On Saturday afternoon she was seen by Mr. Alex. Flowers, of Victoria street, but got away when he went to get her some clothes.

The finding of a watermelon, with the name inscribed on it yesterday, near Becher's Island, made the searchers think she was somewhere close by, but despite their efforts they could not find her until last night. The U. M. W. were sufficiently disguised to make it impossible to identify the leaders. One of the P. W. A. men is now under the doctor's care.

Information has been sworn out against a number of U. M. W. men.

CANADA'S "INTRUSION" ENRAGED THE OTHERS

German-Americans and English Wanted Japan's Trade to Themselves.

Ottawa, Ont., July 20.—Referring to the Canadian Associated Press dispatch from London this morning stating that the colonial office had sent a protest to the Canadian Government, respecting Trade Commissioner W. T. R. Preston's advocacy of direct trade relations between Canadian and Japanese businessmen, the latter, who is now in Ottawa, declares that the protest referred to is probably simply the forwarding of complaints made to the British ambassador at Tokio, and to the colonial office by British commission and trade agents in Japan.

He has bitterly resented the intrusion of Canada into the Japanese market, and the efforts made during the past two years to capture for Canadian exporters some of the trade with Japan, which is now confined practically exclusively to the British, American and German commission houses in the Orient.

Mr. Preston says that prior to his going to Japan practically the whole of the trade between Canada and Japan went through the medium of the commission houses. In order to get a foothold for Canada in the Japanese market, he endeavored to secure direct trade relations, and as a result of this he was naturally opposed to the efforts of the British and American commission agents, who naturally wanted to keep everything in their own hands. As soon as his efforts bore fruit, the British and American commission agents, who were an angry storm of protests from German, United States and British traders regarding the upsetting of existing conditions, and the protest were taken up by the American, German and British ambassadors, and the foreign government officials, who seemed to share in the view that Canada was an intruder, and should be kept out. The Japanese on the other hand sided with Mr. Preston, and as a result of the propaganda of the past year or so indications now point to the rapid development of Canadian trade with Japan.

BOVINE OR HUMAN

Scientists Discover Method of Determining Origin of Tuberculosis.

Paris, July 20.—Dr. Calmette and Guérin announced before the Academy of Science last night the discovery of an easy method of determining whether tuberculosis in individual cases is of bovine or human origin. They proved that the bacilli in tuberculosis of human origin are of a different size from those of bovine origin, and that the latter are practically unaffected, and continued to give nourishment to its young, the health of the animal is not affected.

Another goat was inoculated with a culture taken from a body suffering from tuberculosis, and this inoculation resulted in the death of the animal. From this the doctors were able to conclude that infection was not of human origin, but resulted from milk taken from tuberculous cattle.

Two Other Brothers May Get Their Liberty—Mother Is Incurable.

Orangeville, July 19.—Albert Johnston, one of the three brothers who were committed as lunatics from the city jail here, and who have been since in the county jail here, has been discharged by the authorities on the certificate of the jail surgeon, having been employed as a farm laborer by Mr. Archie Greer, reeve of the above township.

James, the eldest, and David, the youngest, are still confined here, awaiting the pleasure of the authorities, but it is likely that they will also be released, as it is believed they would be able to get outdoor employment under proper supervision.

David, the youngest son, whose love affairs affected his mind, has become quite rational, although he some time ago, when working outside, made a futile effort to run a train, and rented his place, fearing violence by his family, has expressed his willingness to resume farming operations and employ his sons, or to permit them to hire out, as they may elect.

Mrs. Johnston and her daughter are confined at Hamilton Insane Asylum. The former is incurable.

The first was between the mail carriers and the firemen, and resulted in a win for the former by 21 runs to 12. The second game, between the hardware clerks and Austins, revealed a score of anything from 10 up to 20 for the hardware boys, to the unit registered by the dry goods misrepresentatives. Both spectators and players had a highly entertaining time.
