

**LONDON AWAITS
TORONTO DECISION**

Will Take No Action at Present
Regarding Sale of Bread.

ONLY BE MONEY WASTED

Inspector McCallum Had a Conference
With Mayor Beattie and the
Lobbyist This Morning.

Inspector McCallum will take no action regarding the inspection of bread until the case now pending in the courts at Toronto is disposed of.

A conference was held in the mayor's office at noon today and that decision was arrived at.

"The bakers were found guilty in Toronto of selling illegal bread," said Mayor Beattie. "That is simply a test case, and has been appealed, as it was known it would be. Until that is settled we will not know exactly what we can do. We would be incurring unnecessary expense. When we know exactly what our powers are we can go ahead. In the meantime we had better wait. Then our position will be clear, and we will then know how to act."

A number of inquiries have been received at the city hall as to when the inspector was going to enter charges against local bakers, but this will effectually prevent any action until the appeal case is disposed of.

**HON. MR. KING REPLIES
TO MESSAGE OF LONDON**

Government Is Doing All in Its
Power to End the G. T. R.
Strike.

Hon. W. L. Mackenzie King, minister of labor, has responded to the telegram sent by the London City Council asking him to use his influence to bring about a speedy settlement of the Grand Trunk strike. He states that the Government is making every possible effort to end the difficulty. His telegram in full is as follows:

"Your telegram, July 28, received. The Government is putting forth every effort to bring about a speedy termination of Grand Trunk dispute."

(Signed) MACKENZIE KING,
Minister of Labor.

"With both parties and the Government doing their best to stop the dispute, there should be a speedy cessation of the strike," said Mayor Beattie. "I hope that it will soon end."

**LOOKS LIKE LONG SESSION
OF CITY FATHERS TONIGHT**

Debatable Material Is On the
List—Mr. Graydon May
Be in Limelight.

The city council will meet tonight, and a long session is looked for. There is a large amount of business to be transacted, and the question of a debatable nature will give the aldermen an opportunity of displaying their oratorical abilities.

The report of a special committee on local improvements will be submitted. It is not thought probable that a long debate will ensue over this, as there is apparently no one course open to the council, and that is to adopt the finding of the special committee.

There was some talk today that some of the aldermen would move to dispose of the services of Consulting Engineer Graydon. Some of the aldermen repented of their action, when some person asked them. They are now endeavoring to square themselves by dismissing Mr. Graydon. It is not considered likely that such a move will be successful, as it will require a two-thirds vote to rescind their former motion. There are others matters, too, likely to cause a discussion.

**BELLE ELMORE'S SISTER
TO ATTEND TRIAL**

New York, August 2.—Mrs. Mills, a sister of the late wife of Dr. Hawley Crippen, has been asked to go to Scotland Yard officials to go to England for the trial of Dr. Crippen. She has not been informed what they want of her, but she is preparing to leave soon. She states that she will probably go to England by way of Quebec, stopping to see Dr. Crippen and Miss Leneve en route. Mrs. Mills seemed happy over the news of the arrest of the couple.

**LABOR MINISTER
HINTS AT PEACE**

Mr. King Will Make Announcement
On Strike Tonight.

IS NOW IN CONFERENCE

But Dispatches From Montreal Say
That a Deal May Take
Place.

[G. N. W. Despatch.]
Montreal, August 2.—The Grand Trunk trainmen's strike is not yet settled, and it now looks as though a deadlock will result from the negotiations which have been in progress for the past few days. When the negotiations set on foot by Hon. Mackenzie King were a few hours old the outlook seemed favorable, and it was confidently felt that 24 hours would see the end. The company, however, is not inclined to give up the advantage it has gained since the strike commenced, and the strikers will not go back unless they get their old jobs.

Niagara Falls, Ont., August 2.—Wm. Groom, M. C. R. transfer switchman, appeared before Police Magistrate Fraser this morning charged with assaulting Special Constable Black when the latter was on duty at the Grand Trunk station Sunday evening. Groom is alleged to have struck the officer in the face. The case was enlarged until Friday next.

**THREE ON HAND CAR
HIT BY LOCOMOTIVE**

G. T. R. Sectionman of Komoka Was
Brought to City Badly Injured.

Peter Storm, Frank Evenson and Fred Adams, Grand Trunk sectionmen engaged in watching the tracks in the vicinity of Komoka, had a remarkably close call from being seriously injured yesterday morning. About 4 o'clock, when a handcar on which they were riding was run down near Komoka by engine No. 343 running light from London to Paris, the car and engine struck, struck the car and hurled it to one side of the tracks. Storm struck on his head apparently against the handle of the car, and sustained a number of severe cuts. The other men were badly shaken up, but escaped without severe injuries. Storm was hurried to a hospital, where Dr. A. S. Thompson attended him, and he was brought in on No. 4, the early morning express, and placed in Victoria Hospital, where he is doing well.

**DREW A KNIFE
ON CONDUCTOR**

[Special to The Advertiser.]
St. Catharines, Aug. 2.—An Italian is in jail here charged with drawing a knife on a G. T. R. conductor. The Italian, who is a sectionman, got on a train at Merrittton to go to Jordan. He got into a fight with another man on the train, and when the conductor intervened the Italian drew a knife and it is said tried to stab the conductor, who is taking the place of a striker.

**SMEARED WINDOWS
OF A MILLINER**

Orville Richards, of Melbourne, was served with a summons by County Constable Corsaut this morning to appear before Squire Chittick at the court house Friday at 1 o'clock to answer a charge of smearing the windows of Miss Margaret Campbell, a milliner, of the same place, with tar or oil.

**SEWERS FOUND
IN GOOD SHAPE**

Thorough Inspection Was Made
by Engineer Wright and
His Assistant.

CHIPMAN REPORT DEAD

Nothing Has Been Heard of It For a
Long Time—System of Storm
Sewers Badly Needed.

A thorough inspection of the big trunk sewers of the city was made on Saturday by City Engineer Wright and Sid Loveless, the foreman. They walked through the big pipes from the river to Wellington street, and down Dundas street and Richmond street also.

They were found to be in excellent condition. "We made the inspection after the heavy rain of Friday in order to discover how they stood it," said Engineer Wright. "We found them in excellent condition and working splendidly. Very little repairs are needed."

"Of course, there was considerable flooding after the last two heavy rains, but the solution of that difficulty is in a storm sewer system. We are beginning to realize what a benefit a storm sewer system would be, and I fancy they are convinced more that it is necessary."

Now About Chipman?

By the way, nothing has been heard of the report of Engineer Willis Chipman on the sewer system of the city. Some time ago an elaborate report, then conditions existing in the city was presented to the council, but nothing has been done. Mr. Chipman recommended a storm sewer, and insisted that this was the only way of relieving the present sewer system.

"We have told the council year after year that it is necessary," said Consulting Engineer Graydon. "It is becoming more necessary each year, and if some relief is not given before long there will be difficulty."

It is understood that some of the aldermen will suggest a bylaw for a storm sewer and this year.

So far they have taken no steps with reference to it.

**LONDON BOYS AT PORT
HAVING A GRAND TIME**

All in Perfect Health—Military
Discipline Is Being En-
forced.

The fresh air laddies are having the time of their lives at Port Stanley. They arrived safely at the Port on Saturday afternoon, and were taken to their camp grounds, where they were given instructions about the routine of the camp.

This done they were clothed in their uniforms, black sateen shirts, blue knickerbockers, and white straw hats, with red cockades. They present a natty appearance, and all have entered into the spirit of the occasion.

They won't. The mother has reached sick going down, but they soon recovered, and are now in perfect health.

My, how they eat! Some idea of the appetites of the youngsters may be gained from the fact that it takes 12 loaves of bread to feed them at every meal in addition to the other provisions. All are possessed of voracious appetites, and these are being attended to most carefully.

Military Discipline.

The boys are awakened every morning at a certain hour by bugle call. They dress and assemble on the drill, and after a short exercise, they are taken to breakfast, where they are taken for a swim. All are taught how to swim, and many are fast becoming adepts.

In the afternoon the youngsters play baseball, football, and other games, and certainly make things hum when they start.

The boys are being well looked after by Capt. Gregory, Fred Sreanott and Dr. Arnott, and they do not want to leave.

Mr. Smith of St. Thomas, yesterday took every one of the boys out for a ride behind his team of chestnut ponies. At the present writing Mr. Smith is deservedly popular with the youngsters.

FIREMAN RUNS AMUCK.

San Diego, Cal., Aug. 1.—Bert S. Durham, a former fireman, after shooting and killing one city fireman, mortally wounding a second, and seriously wounding a third, near a firebox from which he had sent in a false alarm in an effort for revenge, early today went to his home and with a bludgeon beat his wife and little children to death. He boarded a car and rode quickly to the plaza, in the centre of the business district, where he put a bullet into his brain. He recovered consciousness later, but the coroner says he will die.

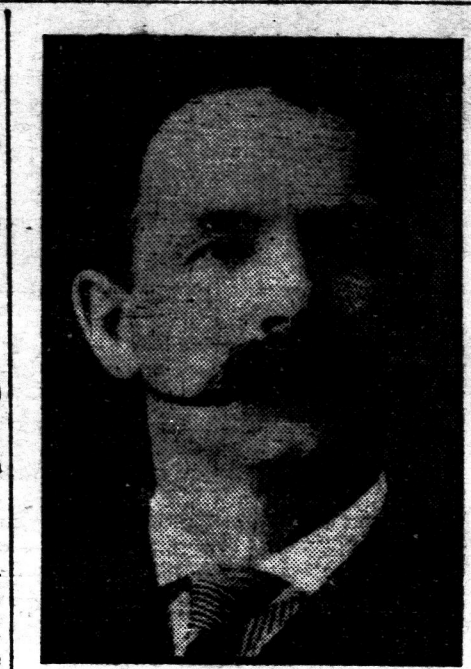

Mrs. Durham and her child were beaten to death with a steel bar while they lay asleep in their rooms in a downtown lodging-house.

MEAFORD WINS.

Meaford, Aug. 2.—Meaford defeated Thornbury in a Georgian Bay Baseball League game here yesterday by the score of 3 to 2. Batteries: McIntosh and Myer; Smeltzer and Lougheed. McIntosh for Meaford struck out 16 men and allowed only three hits.

PICKED HIS POCKET.

Windsor, Aug. 2.—Stephen Lusted, city clerk, has reason to remember yesterday's Emancipation Day celebration. He was on his way home in a sandwich car when three young fellows seated next to him jostled him, and shortly after alighting from the car he found his pockets had been

**FINES WERE IMPOSED
BOYS UNDER AGE**

Cases Instituted by Inspector
Clark Against Local Employers
Prove Successful.

FATHER ALSO MULCTED

Said He Was Ignorant of the Law, But
Magistrate Declared He Should
Be Better Informed.

The first of a series of charges laid by Factory Inspector Harry Clark against local firms for employing children under 14 years of age, was heard before Magistrate Love this morning.

When a local firm, charged with hiring Jacob Fisher and Edward Smith, two lads, was fined \$5 on each charge.

"There was absolutely no justification for hiring children like those two," said Magistrate Love. "The firm was called. 'Anyone could tell at a glance that they are not 14 years old, even if they said they were.'"

One of the lads had given his age as 14, and on looking up the records of the juvenile court, it was found that when he appeared there in July, 1908, his mother and sister had said he was 11. In court this morning the boy said he was 13 years and 4 months old.

The Way of a Woman.

"We have little girls come repeatedly and tell us they are 14," said the firm's representative. "I have even known them come with their hair done up in side combs so that they would look older."

Inspector Clark stated that he had gone to the trouble to supply the firm with blanks to give children who appear for work, and were thought to be under age.

"If they would send them home to get the blanks filled out it would save a good deal of trouble," he said, "but they won't. The mother has reached the stage where we have got to do something to protect the children. There have been a number of very serious accidents to little children in factories lately, and the department is preventing any further trouble. Besides, there is a moral side to the question. These children are not going to grow up as they should if they are not to work for ten hours a day in a hot factory."

Ignorant of Law.

Wesley Waters, of 754 Lorne avenue, charged with allowing his son Milton to work in an East End shop, admitted that he had done so, but said he did not know there was any law against a boy working in a factory during the school holidays. He said the lad wanted to work and he let him go.

The court told Mr. Waters that he should have known the law better than that, and fined him \$3 and \$15 costs.

A case preferred against the shop where young Waters was employed was not gone on with as the information charged the wrong person. Another charge will be laid at once.

Another East Side manufacturer who was charged with hiring a boy that he was 15 years old, had told him that he was 15 years old.

Inspector Clark said that the boy had admitted to him that he had told the manufacturer the wrong age.

The lad failed to appear, and the court enlarged the case until tomorrow morning.

MICE START FIRE.

Meaford, Aug. 2.—Fire broke out about 2 o'clock this morning in the residence of Mrs. Maxwell, on Barry street, having been caused, it is believed by mice. Mrs. Maxwell, who is widow, succeeded in getting the children out by the window, later escaping herself. The fire by the aid of the fire brigade was suppressed, although greatly damaging the house, while the contents were completely destroyed. The place was pretty well covered by insurance.

BLEACHED FLOUR BARRED.

Windsor, Aug. 1.—Millers must stop bleaching flour, pending adjudication by the higher courts, or stand criminal prosecution for each shipment made in interstate commerce, according to a decision reached here today at a conference between officials of the department of agriculture and justice.

A SOCIALIST VICTORY.

Stuttgart, Germany, Aug. 1.—The Socialists gained a further victory in the by-election for member of the Reichstag in the district of Tübingen and Cannstatt. The Socialists polled 18,705 votes, the National Liberals, Von Oettinger, 9,523, and the Peasants' Party candidates, Wolf, 4,220. The seat had previously been held by a National Liberal.

**JOHNSTON ARRAIGNED;
CHARGED WITH MURDER**

Says He Will Make a Statement
as to Killing of Enos.

[Special to The Advertiser.]

Chatham, Aug. 2.—James Johnston was arraigned this morning in the police court, charged with the murder of Jacob Enos in this city on the night of July 18. He pleaded not guilty, and was remanded for a week to be given his preliminary hearing. Johnston will tell all he knows about the murder, and will give a statement to the crown today.

Enos, the murdered man, was from London.

**LONDON REGULARS
STONED ON TRAIN**

Car Windows Peppered When
On Way for Duty at
Bridgeburg.

Niagara Falls, Ont., Aug. 1.—Late last night the Toronto and London regulars arrived here on a special train, and remained in their cars in the yards all night. The detachment of 25 men from Wolseley Barracks, London, arrived at Hamilton before the men from the Dragons at Stanley Barracks, Toronto, and were stationed by strike sympathizers, but no serious trouble occurred. After the train carrying soldiers had started from Hamilton to this city, a few stones found their way through the car windows. At Merrittton there was more trouble of a minor nature. A short distance east of that town a stone weighing about three pounds crashed through a coach window from an overhead bridge, showering Lieut.-Col. Hill and Major Elmsley with splintered glass.

Lieut.-Col. Hill was at his summer home, Port Dover, and was brought from Port Dover to Hamilton by a special train.

Early this morning a detachment of 60 men from Companies A, F and G of the Forty-Fourth Regiment, stationed here, marched from the army, and 20 men from the Welland company joined the forces.

Besides Col. Hill, Capt. Vandersluis and Capt. Robinson and Cameron accompany the detachment from the Forty-Fourth.

Officers of the Forty-Fourth said they had no trouble getting the men out for strike duty, although more than one of the men who left in a red uniform today to guard the Grand Trunk property were striking employees of the railroad.

"We could get more men than we wanted. The strikers seem as anxious as the company to prevent violence," said one officer.

The train went to Bridgeburg via Merrittton and Welland Junction, and arrived about noon. Superintendent C. Cunningham, who has been in charge of Grand Trunk affairs here since the strike was called, left for Port Erie today. He will remain there for a few days. An attempt will be made to move freight there tomorrow.

Five freight trains left local yards today for the west. All is quiet here tonight.

WRECKED A RIGGING

Attempt to Destroy Duluth Docks
With Dynamite.
[Associated Press.]

Duluth, Minn., Aug. 2.—Two heavy charges of dynamite were exploded at Philadelphia and Reading coal docks in Superior, Wis., early today. The docks were nearing completion. A steel unloading rig weighing 550 tons and costing \$80,000, was thrown down and partly wrecked.

The contracting firm operates on the open shop plan, but has never held any labor trouble.

**A FREE FIGHT
IN CUBAN HOUSE**

Havana, Aug. 2.—At a meeting of the Liberal Club last night, held to ratify the municipal nominations, General Asbert, governor of Havana province, and Diaz de Villegas, secretary of finance, in the Cuban cabinet, exchanged blows.

A band of negroes, armed with clubs, broke into the building, and a great fight ensued, in which many persons were injured.

WINDSOR AND POWER.

Windsor, Aug. 2.—After the lapse of a month, the public vote was taken, discussion of the scheme for bringing Niagara power to the border was renewed at last night's meeting of the city council, with the result that the council decided to ask for bids for the purchase of surplus power under a 1,500 horsepower contract, which may be marketed in Detroit. Ald. Bedford moved that the city council ascertain the intention of the Ottawa Government in regard to the proposed export of power, but the motion did not succeed, the decision being to leave companies bidding for power to make their own arrangements for export.

Great Sympathy Shown For Girl, Who

Career.

Quebec, Aug. 1.—Probably not before Aug. 18 will Dr. Hawley Crippen, formerly Dr. Elphinstone, and Ethel Clare Leneve be taken aboard a trans-Atlantic liner bound for England, there to stand trial jointly accused of killing a woman believed to have been Belle Elmore, the doctor's American wife.

The criminal law of the British possessions established this today when the haggard dentist, whose flight ended so dramatically aboard the steamship Montrose yesterday morning, was arraigned before a magistrate and remanded until Aug. 8, when he is to appear in court. The girl was too ill to appear, but if her condition improves she may be brought into court tomorrow.
