A Sarnia Man Attempts Suicide

[Special to The Advertiser.]
Sarnia, April 24. While in a slight intoxicated condition John Steele attempted suicide on Saturday evening by taking a dose of bromide at his home on Cobden street. He was rendered unconscious, and doctors were summoned. He was later taken to the hospital. He is reported to be improving today and will likely recover. This is the fourth time that Steele has attempted suicide by the same means. When sober he is perfectly sane, but under the influence of liquor has a desire to kill himself.

SCORES THE GOVERNMENT FOR SCHOOL BLUNDER

Hon. Mr. MacKay in Sharp Criticism of Dr. Payne's Department.

Woodstock, April 24. An audience that crowded the club auditorium, and included many farmers, some of whom had driven from ten to twenty miles, greeted Hon. A. A. MacKay when he appeared on the platform last night to address the Woodstock Young Farmers' club. Every foot of space in the large room was occupied, and not a few of those present were conversing with each other in the hall. The speaker, Mr. MacKay, devoted some time to local issues, briefly reviewing the wide field of subjects dealt with by the Provincial Legislature. He made a slashing criticism of the handling of the department of education under Hon. Dr. Payne, emphasizing the fact that at present about twenty-five per cent of the public schools of the province are in the hands of unqualified teachers. The speaker then turned to the question of the model schools which had been done despite the protest of the Opposition. The Liberals had kept up a steady fight for the restoration of these schools, and at last the Government had been forced to acknowledge its blunder, and was now re-establishing a number of model schools.

Hon. Mr. MacKay fixed upon the packing systems the responsibility for much of the increased cost of living. The farmers present showed unmistakably their acceptance of the statement that the adoption of the agreement would benefit the horse trade in advancing the prices of high-grade horses, whether light or heavy. The farmers of Ontario might lose some trade in the west, but it was only a question of a comparatively few years, anyway, when that trade would begin to fall off, because the west would soon begin to

EARLIER CLOSING

Drug Clerks of London Will Seek to Accomplish This.

A meeting will be held shortly by the drug clerks of the city to complete arrangements for earlier closing. The druggists of the city are heartily in sympathy with the movement, and state that there is absolutely no reason why they should keep open till 10 or 11 o'clock every night just to please people who might as well mark their purchases earlier in the evening, and would do so gladly if they were educated to it.

A RECORD JUMP.

Calgary, Alta., April 22. The world's record high jump by a lady amateur rider was made at the horse show last night when Miss Bernice Walsh of Beaver Dam, cleared the bars at six feet riding a little western pony. The little horse ridden by Miss Walsh has for a number of years past carried off records among the cow ponies. This is only the second time Miss Walsh has ridden the cow pony.

THE ST. LAWRENCE OPEN.

Montreal, Que., April 22. The St. Lawrence River is now open. The first general low movement began about ten o'clock last night and following the jam which occurred opposite the harbor office, the water rose to 22 feet 8 inches. This low is passing rapidly, and it is said that two days will see the channel free for navigation.

UNSCREWS GAS PIPE AND ENDS HIS LIFE

Unknown Man Found Dead in a Montreal Boarding House.

[Canadian Press.]
Montreal, April 24. A man, whose name has not been ascertained, was found dead in his room at the boarding house, 228 City Hall avenue, last night. The man was found by the proprietress of the house, who called the police. The man was found with his head against the wall, and his hands were found near his feet. The police are investigating the case.

ONE MILLION GERMANS TO PLAY WAR GAME

The Kaiser's Manoeuvres This Summer To Be On a Gigantic Scale.

[Canadian Press.]
Berlin, April 24. Germany will have under arms in connection with the manoeuvres this summer practically one million men. In addition to the regular army strength of 622,000 men, over 350,000 reservists will be called to the colors, making a total effective strength for the army of 972,000. Adding to these the men serving with the fleet, an armed force of considerably more than a million will be engaged in the gigantic war game.

LONDON OLD BOYS ARE COMING HOME

Organization Meeting Was Held and Arrangements Made.

The London Old Boys in Chicago are coming home in August. On Friday evening last, an organization meeting was held in the Grand Pacific Hotel in that city, and it was very largely attended.

NEW HOTEL COMPANY.

Montreal, Que., April 22. A new hotel company, the Hotel de Ville, is being organized. The company is being organized by a group of men who are interested in the hotel business in Montreal.

STEAMERS ARRIVED.

Glasgow, April 22. Arrived: Scotian, Antwerp-Montreal. New York-Campania, Calcutta, India. Liverpool-Virginia, Celtic. Southampton-Philadelphia, St. John-Lake Manilla. Mobile-California.

DIAS SENDS FOR REYES.

Paris, April 24. Gen. Bernardo Reyes, the Mexican ex-minister of war, has received a call from President Diaz to return to Mexico. Diaz asks his aid in the attempt to settle the revolution. Gen. Reyes expects to leave Liverpool within a fortnight, perhaps within a week.

BIG AMERICAN LABOR LEADER IS SEIZED CHARGED WITH MANY DYNAMITING OUTRAGES

Bridge Workers' Secretary Held For Los Angeles Times Disaster.

OFFICE RAIDED AT INDIANAPOLIS

William Burns, Great Detective, Claims to Have Perpetrators of Many Murders Deeds.

Indianapolis, April 22. — Detective Burns, superintendent of Police Highland, and Chief of Detectives Holte tonight found 17 sticks of dynamite and two quart cans of nitro-glycerin in a barn near here, owned by T. H. Jones, a structural iron worker, which Jones says was placed there last January by McNamara.

Indianapolis, April 22. — Charged with murder in connection with the explosion that wrecked the building of the Los Angeles Times on Oct. 1, 1910, causing the death of 21 persons, James J. McNamara, secretary-treasurer of the International Association of Bridge and Structural Iron Workers, was arrested late today in the headquarters of the organization in this city.

The warrant for his arrest was based on an indictment found by a grand jury in Los Angeles, and was served by William J. Burns, a detective, accompanied by Indianapolis detectives. Burns said he would start tonight for Los Angeles with McNamara, and would have McNamara's honor requisition papers.

Promises Sensational Trial. Responsibility for other destructive explosions would be placed on the shoulders of an investigation now in progress. Burns said. He added that J. E. McNamara, brother of James J. McNamara, and Otto McManigal were today detained by the police in Chicago as having knowledge of the circumstances of the Los Angeles Times explosion.

"This is the beginning of one of the greatest criminal prosecutions the country has known," Burns said. After the arrest of McNamara, Burns and other detectives searched the offices of the Association of Bridge and Structural Iron Workers and detained there other officials of the association. A search of the examination of papers and records.

When the detectives entered the office a meeting of the executive committee of the organization was in progress. Attending were J. E. McNamara, Chicago, president; H. W. Leighton, Pittsburgh; P. A. Coffey, New Orleans; A. C. Carey, San Francisco; M. J. Young, Boston, and J. E. Burns, Buffalo. These men were permitted to leave the offices afterwards.

President Protests. President Ryan protested against the presence of other officers in the room. Superintendent of Police Highland read a search warrant, but this statement did not prevent the officers from entering the room. Burns then lifted the top of McNamara's desk and began searching in the drawers for correspondence. After an hour's search McNamara had been taken mysteriously from the city before his companions when they began to plan their escape. He had been taken away when he had been arrested as being responsible for the dynamiting of the Times and the destruction of the dynamite.

The custody of the detectives, Burns, they were astonished, declaring they could not believe the report to be true. Their surprise was greatly increased when they began to plan their escape. When they began to plan their escape, their friends' release and were told he had been taken from the city.

The detectives followed him to his home, where he was taken to the police station. The police then searched the house and found a number of sticks of dynamite and a quart can of nitro-glycerin. DYNAMITE SUSPECTS NABBED AT DETROIT

Investigators Say They Planned to Destroy M. C. R. Terminal.

Chicago, April 22.—The blowing up of the new \$2,000,000 Michigan Central terminal being erected in Detroit was a part of the plans of the union labor plots, according to Detective William J. Burns. Mr. Burns tonight gave out the entire story of the investigation, which he has been making since the Los Angeles Times was dynamited.

Burns was in Los Angeles at the time of the explosion and attended a conference with Mayor Alexander, the chief of police, and the Merchants and Manufacturers' Association. For a while he worked under the supervision of the Los Angeles authorities, and then, following a misunderstanding, took up the work on his own responsibility.

He turned to his evidence gained of an attempt to dynamite a bridge in Peoria, Ill., in September, 1910, when an infernal machine planted by the dynamite men failed to explode. The conditions in Peoria coincided closely with the evidence following the Times explosion that the dynamite men had been working on the same men. The detective already had suspicions that the Peoria work had been done by one of the men who had been working on the dynamite men when he returned to Chicago.

Inspected Plant. McNamara, in the meantime, not knowing he was being watched, returned to Los Angeles, with a plan to dynamite the M. C. R. terminal. The plan was to dynamite the M. C. R. terminal, which was being built on the site of the old M. C. R. terminal.

BIG DYNAMITE PLANT IN McNAMAL'S HOME

Burns Finds Explosives in the House of Father of Man Arrested.

Indianapolis, April 23. — A message received here tonight from Tiffin, Ohio, where Detective William J. Burns, who led the raid on the offices of the International Association of Bridge and Structural Iron Workers here last night, went today, asserted that a "plant" of between 300 and 400 pounds of dynamite was found there.

The detectives said the dynamite was contained in a rough wooden box and hidden in a shed in the rear of the home of James McNamagil, father of the man arrested at Detroit.

McNamagil, one of the men indicted in connection with the Los Angeles Times building explosion, was arrested at Detroit, and is now being taken to Los Angeles.

Detective Burns was accompanied to Tiffin from this city by J. A. G. Badoff, assistant to Walter Drew, counsel for the National Association of Bridge and Structural Iron Workers.

Entering the shed at McNamagil's home, where they arrived just after midnight, they assert they found a wooden partition with a locked door in which was the box. The box was prepared with a key which fitted the lock of the box. The dynamite was tightly packed and was estimated to be between 300 and 400 pounds.

Chief of Police Myers, of Tiffin, was with Burns and Badoff when the dynamite was found. He set a guard of two policemen over the shed for the night.

After having uncovered the dynamite at Tiffin, Burns and Badoff engaged an automobile and went to Bloomville, Ohio, where they said they expected to find another "plant" of explosives.

AMBASSADOR BRYCE IN ST. PAUL'S SUNDAY

British Representative at Washington Attended the Cathedral.

In the course of a special sermon on "St. George's Day" at St. Paul's Cathedral yesterday morning, Canon Tucker made a strong plea for the restoration of the cathedral.

He pointed out some of the many advantages we derive from our association with the motherland, having got our church, our government, our ideas and inspiration from her great men.

"It will," he said, "be a priceless advantage to our young men and women to be able to continue to look upon the literature of England as our own and to get ideas and inspiration from her great men."

Canon Tucker pointed out that with the excellence of the public school system there is something lacking in the education of the rising generation.
