Some Decorations For City Hall

It Emerges from Darkness of Night in Resplendent Colors.

London's city hall emerged today from the blackness of last night resplendent in nifty decorations for the Old Boys' reunion, Red, white and blue streamers fell from the roof to the sidewalk and deft fingers of experts, who worked all night on the job, turned out an artistic job of draping on the front of the building.

Today the employees of the hydro department will outline the building with electric lights, and when these are turned on at night the effect will be

stunning for London. There will be considerable doing around the city hall during the old boys' celebration and a made-in-London exhibit will be one of the features.
