TO SEARCH BOATS FOR LIQUOR AT N. Y. HARBOR

New York, Nov. 28.—Every vessel entering New York harbor from foreign ports hereafter will be met by a "reception committee" detailed from the customs headquarters, which will make a thorough search for contraband liquor before the passengers are permitted to land.

This line of action has been decided upon by government officials as a result of the recent uncovering of an alleged whiskey ring, in which employees of steamships and passengers, working with bootleggers on land, were smuggling large quantities of liquor into the country. Their activities were made possible by the lack of time between the vessels' arrivals and the search by customs officials.

TO CONTINUE SUNDAY CAR SERVICE THROUGH WINTER
ST. THOMAS, Nov. 27.—Because the people of St. Thomas have been patronizing the Sunday street car service so well during the past three weeks, it is quite likely that it will be continued throughout the year, according to an announcement made by Manager Jones of the street railway.

For some time during the early fall, Sunday traffic was exceedingly light and Manager Jones was almost discouraged.

A Race of Centenarians
The 1910 census of the world showed that in Great Britain, the United States, France and Germany, only one person in every 10,000 lived to be a hundred years old, but that in Roumania and Bulgaria one out of every 250 lived a century or over, and that a large proportion of the men of Balkan countries were over 65 feet tall. The diet of the latter races is almost entirely whole rye bread and sour milk.

ROMAN MEAL is a combination of entire grains, in proportions of a properly balanced ration. 35% of it is rye, rich in the salines which promote growth. If you would live to a grand old age, dispense with refined cereals and use Roman Meal. 18
