Great Crowd in Trafalgar Square Listens to Speeches in Advocacy of Self-Government for Ireland

RESOLUTIONS FAVOR GENERAL HOME RULE

Members of House of Commons, Including Grandson of William E. Gladstone, Appear on Platform

LONDON, Feb. 17.—Home Rulers were in high spirits this afternoon in Trafalgar square, where from 15,000 to 20,000 persons assembled in support of the government's proposed measure of self-government for Ireland. Liberals and Nationalists combined in the demonstration, members of the House of Commons occupying seats on the platforms. Resolutions urging the necessity of giving as generous a measure of Home Rule to Ireland as is consistent with the maintenance of imperial supremacy, and suggesting that the bill be framed so as to be capable of early application to England, Scotland and Wales, were adopted with the greatest enthusiasm.

William G. Gladstone, Liberal member of parliament for Kilmarnock, a grandson of William E. Gladstone, the Liberal "Grand Old Man" who introduced the first Home Rule bill in 1886, was among those on the platform. He said the democracy of this country had made the cause of Home Rule its own.

FRUIT GROWERS GIVE OPINIONS

Series of Resolutions Passed by Convention at Ottawa—Standards for Apple Barrels Are Adopted

OTTAWA, Feb. 17.—With the passing of a number of important resolutions of interest to the fruit growing industry throughout the country, the third Dominion conference of growers came to a close this afternoon. The resolutions were as follows: That a board of three fruit growers in each province be formed as a committee to advise in the appointment of inspectors. That \$10,000 be voted by the government as a grant to the next national apple show, provided that the promoters of that show are willing to offer \$25,000. That the government be requested to raise the tariff on peaches. That an apple box with a capacity of 2,200 cubic inches be made the legal standard throughout Canada, to come into effect within the next two years. That the question of the most suitable shapes for fruit packages be left over to the next conference, with the understanding that in the meantime an investigation shall be made, preferably by the government.

That certificates be given by fruit inspectors on payment of reasonable fees. That the government be urged to inspect as much as possible at the point of shipment, and that the government have daily market prices cabled from agents in Europe during the shipping season, and published in the daily papers throughout Canada. Two standards for apple barrels were adopted by the conference. One was a ninety-six quart size, the common size in Nova Scotia, while the other was the 112 quart size, common in Ontario, and most other parts of the country. Another resolution asked that shippers stamp on boxes of apples the number of apples contained. Speaking in connection with the resolution asking a boost in the tariff on peaches, Hon. Martin Burrell, minister of agriculture, said that the government had appointed a tariff commission for the express purpose of investigating conditions pertaining to the tariff. He did not think that tariff revision would be taken up piece-meal until the report of the commission on the conditions as a whole had been presented.

DEVICE USED TO GET EVIDENCE

Phonographic Apparatus Concealed in Drawer Near Which Ironworkers' Officers Held Their Conferences

DAILY REPORTS OF CONVERSATIONS

District Attorney Says that Many Volumes of Notes Have Been Taken for Use at Dynamite Trials

INDIANAPOLIS, Feb. 17.—Whatever Frank M. Ryan and other indicted union officials have said in their office about the dynamite conspiracy since last October is alleged to have been learned by the government through a phonographic device discovered today in the headquarters of the International Association of Iron Workers. The apparatus was hidden under a drawer near which Ryan, the president, Herbert S. Hockin, the secretary-treasurer and J. T. Butler, first vice-president, and other officials conferred concerning their pleas, and is said to have enabled two government stenographers in a room below to take daily reports of the conversations.

The use of the apparatus was disclosed today, when the government decided it was no longer of value, because a woman clerk in Ryan's office was heard to say: "Well, I suppose they are leaving now whatever we say." That, with statements by Ryan, convinced assistant District Attorney Clarence Nichols that the apparatus no longer was useful.

The discovery of the apparatus was made soon after the government had repeated that defendants were ready to tell all they knew. About District Attorney Charles W. Miller's office it was said something had been expected, but Mr. Miller declined to say what it was.

Mr. Miller said the apparatus had worked satisfactorily for months, and many volumes of the phonographic notes had been taken and would be used at the trial.

Prospectors' Reunion

Old-Timers of the Mining World Hold Festive Gathering in Spokane—Stories of Olden Days

SPOKANE, Feb. 17.—Scores of old prospectors—some millionaires and some still seeking a grubstake—lived a portion of their youth again tonight at the prospectors' reunion which closed the sessions of the Northwest Mining convention.

The reception room of a local hotel, turned for the occasion into a "reproduction of an old-time mining camp bar," echoed for hours with stories of lost mines and phantom ledges as men in evening dress or mackinaw coats traded stories of the hills thumping down on the bar nuggets and bits of quartz as time-worn as the stories themselves. Gen. Charles A. Warren, of Butte, himself one of the old-timers, delivered a glowing eulogy on the prospectors.

BIGAMIST MAY BE CAPTURED

"Sir Harry Westwood Cooper" Supposed to Have Come to British Columbia by Way of Seattle

OAKLAND, Cal., Feb. 17.—The capture of "Sir Harry Westwood Cooper," the man of many aliases, many wives and numerous prison terms for forgery, who married Miss Anne Milbrath on February 8th, and left the same day for Victoria, B. C., ostensibly on a honeymoon trip, but in reality to escape incarceration in San Quentin for violation of his parole, is believed by the police to be a matter of hours. Cooper, or Chastwick, as he is known in San Francisco courts, is reported to have been seen in Seattle and traced thence to Canada.

Miss Milbrath's father and mother cash swore to a warrant today for the arrest of the facile forger and fictitious physician, who, as Dr. Milton Abraham, fled with their daughter on money which they had raised by mortgaging their home, leaving behind him a wife and children in this city.

Mrs. Milbrath charges Cooper with obtaining money under false pretences, and exhibited a promissory note for \$2,000 which "Dr. Abraham" gave her in return for \$1,000 cash which she alleged he needed to enable him to secure an immense estate left him by his father and mother who had been killed in a railroad accident. The father swore to a bigamy complaint.

The parents have received no direct word from their daughter since her hurried departure. They received today, however, a telegram from their son, Ben Milbrath, in Gary, Ind., saying his aunt, Mrs. Helene Diekmeyer, had received a postcard dated Portland, Ore., from the girl. The postcard read: "Married Friday. Well and happy. On honeymoon trip to Europe."

The parents fear that Cooper, finding himself closely pursued, will abandon their daughter and leave her penniless in Canada. Their forebodings are strengthened by their daughter's evident implicit confidence in Cooper. It developed today that the marriage license, which Cooper was believed to have forged, had been obtained in the customary manner at the county clerk's office. At the request of Cooper, who said that his bride's parents had just died and that for that reason they both wished a quiet wedding, the clerk kept the license secret until the story of Cooper's criminal career became known.

PROSPECTORS' REUNION

Old-Timers of the Mining World Hold Festive Gathering in Spokane—Stories of Olden Days

SPOKANE, Feb. 17.—Scores of old prospectors—some millionaires and some still seeking a grubstake—lived a portion of their youth again tonight at the prospectors' reunion which closed the sessions of the Northwest Mining convention.

NOTED AUSTRIAN MINISTER DEAD

Count Von Aehrenthal, for Some Years in Charge of Foreign Affairs, Passes Away—Long Career

STRONG SUPPORTER OF TRIPLE ALLIANCE

Change in Ministry Expected to Have Some Influence on Foreign Relations of Dual Monarchy

VIENNA, Feb. 17.—Count Alexis Lexa von Aehrenthal, Austro-Hungarian minister of foreign affairs, died this evening. Count von Aehrenthal had been suffering for the last month from leucocythaemia, a disease characterized by profuse changes in the blood and internal organs, and no hopes were entertained for his recovery. He was born in 1854. He was 28 years old when he was appointed provincial attaché in Paris. Later he was attached to the embassy in St. Petersburg. After serving in the foreign office in Vienna for five years from 1883 he was again sent to St. Petersburg and in 1892 received the title of minister. He served also as minister to Roumania, and then was appointed ambassador to Russia. He had been foreign minister for Austria-Hungary since October, 1906.

Change in Ministry

The new foreign minister, Count von Bartschke, has been 17 years in the diplomatic service. The change in the ministry is likely to have an important effect on the monarchy's position abroad. The new minister is highly esteemed at St. Petersburg, and his assumption of the portfolio of foreign affairs probably will result in improving the Austro-Russian relationship. It is also understood that he enjoys the confidence of Archduke Franz Ferdinand.

Friend of Italy

ROME, Feb. 17.—The death of Count von Aehrenthal, although expected, has caused great regret in official and other circles here. The influence of the Austro-Hungarian minister on foreign affairs, it was recognized, served at all times to better the relations between Austria and Italy and to strengthen the triple alliance.

AVIATOR'S FALL MAY PROVE FATAL

W. H. Hoff Meets with Accident on Opening Day of San Francisco Meet—Biplane is Caught by Wind

OTHERS BUFFETED BY HALF GALE

OAKLAND, Feb. 17.—The opening of an aviation meet at the old Emeryville race track near here today was beset with blood. Former aviator W. H. Hoff, of San Francisco, was probably dying at a hospital, and a half dozen of his fellow aviators, more fortunate than he in escaping from the wreckage of their machines, are nursing themselves to play again tomorrow the hide and seek game with death, which lurks in the ocean wind of San Francisco bay.

F. O. Farnelle, Glenn Martin, Horace F. Kearney and Miller Beachey were among those whose machines were driven to the ground. One after another the biplanes were caught by the wind, which was broken into combing currents by the islands of San Francisco bay and the hills and mountains that surround it. Before the aviators could pick their planes to meet one burst of the half gale, another, from a different direction, would upset their entire equilibrium. Farnham Fish, the youngest aviator at the meet, became lost in the fog, and it was feared he had fallen into the swift tides, which race past the federal military prison on Alcatraz island, but he finally landed.

Hoff was trying out a new machine when he met misfortune. As he flew at a height of 30 feet an air current, sweeping around Mount Tamalpais, struck the biplane. It buckled and dropped straight to the earth. Hoff was under it. His pelvic bone was fractured, his nose broken, his face was pulp and he sustained internal injuries. Young Fish, when he alighted, said he had lost the sense of direction in the fog, and "took a chance." Happened in San Francisco and San Pablo bays, he was fortunate enough to light on the neck of ground between them.

SULLIVAN ESTATE

Seattle Attorney Seeks to Set Aside Distribution, Which He Says Was Fraudulently Procured

SEATTLE, Feb. 17.—Suit was begun in the superior court today to set aside the distribution of the \$1,000,000 estate of John Sullivan, the Seattle pioneer. The plaintiff, Will F. Hayes, an attorney, charges that the estate was fraudulently procured for this distribution by the procuring of pretended relations in Ireland to claim relationship, and that Edward Corcoran and Hannah Callaghan were so procured to swear that they were first cousins of John Sullivan, well knowing that they were not. Mr. Hayes asks the court to award the estate to himself, and to award costs. Sullivan left his property to Miss Carran by a nuncupative will.

Winnipeg Old-Timer Dead

OIL SEEKERS SAFE ON SHORE

Members of Party Supposed to Have Been Lost Off Graham Island are Landed With Their Supplies

PRINCE RUPERT, B. C., Feb. 17.—The two men, William Jolliffe and another, returned from Malaita, where it was reported that a whole party of oil seekers supposed to have been lost on the west coast of Graham island, are safe. Captain Newcombe upon hearing that the party were in safety, at once sailed for Malaita, where Henry Edenshaw and an Indian party were already home, having landed supplies and the Slater party near Tiah point.

Lack of communication of all kinds with the west coast of Graham island accounts for the fears not being allayed sooner. Information was brought that Edenshaw and his launch and the schooner with supplies for the oil drilling plant near Tiah point, found it impossible to make a landing on the day they reached the coast, Jan. 26. They were forced to run before a stiff breeze to Port Louis, some distance farther down the coast, and await favorable weather. They stayed there about a week before it was possible to get back to Tiah point, where Slater and his two companions and supplies were landed. Edenshaw returned to Masset four days ago, and was there when the Jolliffe reached that point.

LEAD AND ZINC DUTY

Association Against Reduction Adopted by House—Convention at Spokane—Other Questions Considered

SPOKANE, Feb. 16.—A resolution protesting to Congress against any reduction in the duty on lead and zinc was adopted by the Northwest Miners' Convention at this afternoon's session. A protest was immediately agreed upon, to be telegraphed to the senate committee now considering the metal schedules. Former U. S. Senator, George Turner, member of the U. S. and Canadian boundary waterways commission, in an address to the convention, made a strong appeal against a reduction of the tariff.

They left Kern Creek today with dog sleds to make the trip overland to Sustina, where the others of their party await them.

YUAN IS TIRED OF PRESIDENCY

Requests that Sun Yat Sen be Elected to Chief Office in Republic—Pleads Impairment of Health

UNABLE TO CONTROL SITUATION IN CHINA

Admiral Murdock Reports that Peace is Likely Soon to be Restored—U.S. Recognition is Asked

SHANGHAI, Feb. 17.—Yuan Shi Kai telegraphed today to Nanking requesting Huang Sing, the war minister in the republican cabinet, to despatch troops to assist in quelling disturbances in Manchuria.

Yuan Shi Kai also telegraphed to Dr. Wu Ting Fang, the republican minister of justice, and to Tang Shao Yi, charging them to endeavor to secure the election of Dr. Sun Yat Sen as president of the republic in his place.

In his despatch he said: "I am unable to control the situation in China, as I am suffering from impaired health. Now that the aims of the republicans have been attained I have accomplished my duty. The post of president of the republic would only serve to lead to my ruin. I ask your kind offices and intercede with the people of the country to elect Dr. Sun Yat Sen, to whom credit should be given. I will wait here until I am relieved. Then I will return to my home and resume my work as a husbandman."

The new legislation of the provisional government will be approved by the assembly at Nanking on February 19, after which it will be notified by a delegation which will start for the north.

General Homer Lea, the American officer who has been acting as military organizer, and who has been seriously ill, has rallied and may recover.

Dr. Sun Yat Sen in an interview today urged that an appeal should be made to foreigners to contribute to the famine fund.

Dr. Wu Ting Fang and Tang Shao Yi, according to the dispatches, are both representing Yuan Shi Kai in the negotiations.

WASHINGTON, Feb. 17.—A delegation of the China society of America, composed of 1,000 Chinese-American residents of New York, appeared today before the president to present a foreign relations committee and the Chinese ambassador and urged the immediate recognition by the United States of the republic of China.

Major Lewis Livingstone Seaman, president of the society, of which Wellington Koo is secretary, and Marcus M. Marks, called at the White house, where they presented a resolution, which earnestly requests the president of the United States to be the first among the representatives of foreign nations to recognize the republican government of China.

The committee was well satisfied with its interview with President Taft and the members of congress. Major Seaman said he was convinced that the disposition of the American government towards the Chinese was kindly. The president, he said, was hopeful of an opportune time for manifesting it.

The explosion was carried out with perfect safety, the only damage being to the company's plant. The powder was placed in two tunnels of 185 and 187 feet.
