AROUND THE WORLD.
The Irish judges are as disconcerted
as Cardinal MacCabe by the attention of
the detectives, and endeavor to do
them on every opportunity.
The London Times hopes that Mr.
Powell's death and Sir C. de Crespigny's
broken leg will put a finish to accretion
in civil litigation.
The increasing popularity of lager beer
in England has stimulated the British
brewers to undertake its make. But the
do not make it yet with glucose.
A St. Louis boy drank milk without
taking the chew of tobacco out of his
mouth. The milk washed the tobacco
down his throat, and he died of nicotine
poisoning.
In the deceased wife's sister bill in the
lords last month, Tories voted for and
Whigs (the duke of Argyll among them) against
it. The rejection by only four raises great
hopes for next year.
Rhodes Island's first case under the
fifteenth amendment is that of a negro
lady, who was refused admission to a
skating rink on account of her color.
During 1881 there were in Alexandria
8075 deaths, being 38 per 1000 of popu-
lation. Among the resident foreigners the
rate was 43.75 per 1000. Both rates are
very high. The last census showed the
whole population to be 212,034, of whom
164,718 were Egyptians and 47,316
foreigners.
In the collegiate schools of Germany
the study of Greek is to be retained for one
year, for the purpose of giving more room
to French and physical science. Great
stress is laid on the proper acquisition of
the French language. The understanding
of it when spoken is to be specially acquir-
ed by dictation.
A financial magnate of Berlin was
chastised with a new and most unusual
pattern for trousers, but while desiring it
for himself, did not wish any one else to
appear in it. He therefore bought the
whole piece, and has eighty-three pairs of
these trousers. He is now known in Berlin
as "the eighty-three pair trousers man."
In preparing baths for children, the
cold water should be put in first. A fatal-
ity is lately reported where the nurse, hav-
ing half filled the tub with boiling water,
went into the adjoining room for the cold.
While she was absent a small boy fell over
the edge of the tub into the water and was
so badly scalded that he died almost im-
mediately.
St. Paul's Episcopal cathedral, in
Indianapolis, being wrecked by a wind
storm, a Hebrew congregation professed their
sympathy for the sufferers. Other ar-
rangements had already been made, but
the exchange of letters on the subject was
exceedingly cordial, the reply from the
church being written by H. N. Thomas
Headrick, warden.
Lord Blandford wants to give each
Irish peasant his own legislature; but Jus-
tice McCarthy will have none of that, as
he wants "to bring Ulster and Munster
into companionship." The Glasgow Herald
doubts if the sympathy would follow the
companionship; blue Presbyterianism and
serpent of Rome do not usually com-
pany.
The senior soldier in the German
army is Emperor William, who is its head.
In March he entered in his 86th year. The
youngest soldier in the same army is the
son of Duke Paul Frederick of Mecklen-
burg-Schwerin, who is scarcely yet a
month old, and who has just been enrolled
by the veteran emperor in the Seventh
regiment of Mecklenburg dragoons.
Louis Coon, a conductor on a Louis-
ville street railroad, wished to whip the
two Grunlochs, father and son, who kept a
bakery on his route, but could not get away
from his work long enough to do it. He
sneakily armed himself with a revolver,
jumped off his car as it was passing the
store, hastily shot each Grunloch in the
leg and then calmly resumed his duties.
The idea of competitive examination is
borrowed from the Chinese, where it has
been in vogue for many hundreds of years.
"The system," says a late writer, "is un-
philosophic as regards the mind as un-
wholesome diet and overexertion are un-
philosophic in reference to the body. To
force it as a right and useful thing upon
the young is to ignore the very first prin-
ciples of mental hygiene."
On leaving her home in Licking county,
Ohio, last fall, Anna M. Scott left her
skirts behind, and went to Cincinnati in
male clothes. Although only 18 and of
course in form or features, she readily
passed for a boy. Perhaps the deception
was made easy by her careless manner of
smoking, drinking and swearing. She was
successively a porter, clerk in a notion
store, and conductor of a horse car, before
being found out.
There seems to be more or less trouble
with public works all over the world.
A report just made to the municipal
authorities of St. Petersburg recites that
"the water is obtained from near the banks
without any precaution being adopted for
preventing the entrance of filth into the
basin, and that at times the action of the
pumps is impeded by drowned animals."
Mortality returns in St. Petersburg show
large death rates.
Noah Orr, familiar in museums for
about thirty years as a giant, is prostrated
by paralysis at Marysville, Ohio, and is
not expected to recover. Last winter he
weighed 580 pounds, being very corpulent,
though his height of nearly seven feet and
a half served to keep him in tolerable pro-
portion. Since then he has lost 200 pounds.
Orr has three brothers, ranging from six
feet and five inches to seven feet, and a son,
who at 15 years of age measured nearly six
feet.
Gerrard Wallace, the young Scotch
soldier, murdered while acting as escort to
Mr. Burke in Galway, was 25. He was
detained for special service on account of
his high character. His funeral at Dublin
took place at the Military cemetery, with
full military honours, in presence of Gen.
Lord Clarendon and staff. A wreath sent
by the vicar was placed on his grave. A
gun carriage and six conveyed his remains,
and three full military bands were in at-
tendance. His aged, white-haired mother
was so much overcome that she had to be
supported by her remaining son to the car-
riage.
The Chinese have long been in the
habit of printing "sleeve editions" of the
classics to assist candidates at the competi-
tive examinations whose memories are not
sufficiently retentive. A similar benevolent
idea has lately induced a native merchant
at Shanghai to print a diamond edition of
the "P'i" wan yan fu, "one of the largest
lectures in the language, consisting of 106
books. That it might be small enough to
be easily hidden in the candidates' sleeves,
or printed into their gowns, it was neces-
sary to print it in small type. That the
editor announces in his advertisement that
he will employ a magnifying glass to each
purchaser to enable him to read it.
