"You are expected to promptly reliaquish to the Queen constitutional authority. I submit to you the question:

"Are you willing to abide by the decision of President Cleveland?"

President Dole replied: "The Provisional Government is responsible only to those who constituted and are now maintaining it in power. It is amenable to no foreign power en earth. It has always been faithful to its constituents and by no acts or intimation has it ever offered to submit its rights to the United States or any other power. By these facts this Government must refuse to consider the proposition of Minister Willis."

A Policy of Non-Action.

Interest in the Hawaiian news centered in the cabiuet meeting held to-day and the importance attaching to it gave rise to the hope that the anxiety of Congress and the people of the country would be-relieved by the issue of an authoritative statement to the conclusions reached. But this hope was not gratified, for members of the Cabinet, while admitting the gravity of the situation, were as reticent as usual as to that took place within the Cabinet room. An intimation of the nature of the discussion, if not of the decision reached, was given by a gentleman in authority, however, and this would indicate a policy of non-action in Hawaiian affairs on the part of the constitution and it is hard to say who is in the wrong. It will be remembered how outspoken and independent that report was. Gen. Herbert simply told the truth, but he told it in a manner which brought home to official places how great their responsibilities were and how seriously the interests of the Dominion might be jeopardized if they showed any disposition to ignore them, and the effect has left nothing to be desired.
