Mrs. Aaron Phinney returned from her visit to Dartmouth on Saturday.

Mr. and Mrs. R. G. Chesley, of Clarence, were visiting friends here last week. Mrs. Chesley relates that one morning recently she went to the hen-house and found a dead hen in a nest with six little chicks newly hatched. There were also four eggs in the nest, which soon developed into chicks making ten without a mother. Mrs. Chesly was completely (puzzled to know what to do with the orphans. A hen nine years old, which had long before resigned the cares of maternity, was taken off her roost and shown the little chicks. No sooner had she seen them than the motherly heart of that hen went out to those little orphans, and so far she has made a most excellent parent.

A good many travelling men have been in this part of the province during the past week representing houses in Halifax, St. John, Toronto, Montreal and elsewhere. Some of course do a good business; others not so good, but in these days of keen competition this is to be expected. A man who always seems to do a good business when he comes this way is mo trouble to get orders because the people demand Morse's Teas. It must be a great satisfaction to travel for a house whose goods have the confidence of the trade and the Morse's Tea traveller should feel thankful that his firm have taken such pains to establish have taken such pains to establish their teas on a sound and substantial basis.

CANADIAN NEWS.

The town of Frank, demolished by the landslide in the Rockies and which was described for nine days, is being re-occupied and rebuilt. London, May 14.—The desperate eco say the recent massacre of the Jews, which it is feared will be repeated as the racial and labor conflict in that region remains at a complete dead-lock. The Jews have in the course of years acquired not only control of trade, but of employment in all the principal towns. After much street violence against the Jews and scenes of bloodshed, they retaliated, by withholding both employment and trade as well as credit. A letter received in a Jewish philanthropic centre in London to-day from the leading Jews of Kishineff states that shortly after the recent outrages the presidents of the workmen's guilds, which were organized on the old paternal lines complained to the governor of Kishineff that the Jews refused to reinstate the workmen. The governor thereupon called the workmen together and told them in a few words that in their own interests they had better reinstate the workmen, which they were adverse to doing. The Jewish authorities in London fear that further troubles are imminent.

The newspapers of London have contained practically nothing on the situation, which is considered more or less chronic. The only despatch concerning the massacre at Kishineff to be printed in the London newspapers to-day is from the St. Petersburg correspondent of the 'Telegraph.' The despatch states that the newspapers of St. Petersburg published horrible details of massacre. Fout thousand families are said to be in want. Accounts from Kishineff received at Jewish centres the redescribe the slaughter, which, it is stated, continued for nearly a week. On the first dgy ten persons were killed and eighty injured. The market was destroyed. On the second day the steet railway at Bridgeport, Conserving the first dgy ten persons were killed and eighty injured. The market was destroyed.
