POPULAR SCIENCE.**THE SCIENTIFIC AMERICAN
TO BE GREATLY ENLARGED.**

THIS widely circulated and Popular Journal of the
Industrial Arts and Sciences enters its twenty-
second year on the 1st of January next, and the
Publishers propose to signalize the occasion by en-
larging it to the size of the most costly Scientific
Journals of Great Britain, without, however, in-
creasing the subscription price.

It is almost superfluous to speak of the great value
of this Popular and Useful Journal to all classes,
and especially to Mechanics, Manufacturers, Inventors,
Engineers, Chemists, Agriculturists, and all who love
to read of the wondrous progress which now marks
every department of Mechanical Engineering and the
Industrial Arts and Sciences generally.

The Editorial department is very ably conducted,
and many of the best writers in this country and
Europe are contributors to its pages. Many of the
articles have the charm of romance about them, and
inspire the mind with noble ideas.

The Scientific American has the largest circulation
of any similar journal in existence, but it ought to
have a million of readers in this growing country.

The engravings of New Inventions, Tools, Imple-
ments for the Farm, Workshop and Household are
very numerous and are splendidly executed by the
best artists in the world. This feature of the paper is
very striking, and has won the praise of the united
press of this country and Europe.

Another feature peculiar to the Scientific American
is the official publication of every Patent granted by
the Government Patent Office. Each number con-
tains the weekly issue of Patent Claims, with copious
notices of new inventions, together with Reviews of
Foreign Inventions and Discoveries in every depart-
ment of Science.

Whoever reads the Scientific American is instructed
and entertained, without being bothered with hard
words and dry details.

The American and European Patent Offices, in con-
nection with the Scientific American, form an immense
Museum of Mechanical Novelties, which furnish con-
stant employment to a large corps of Scientific
Examiners who prepare drawings and specifications
for Patents.

This firm is no doubt the most extensive in the
world.

Now is the time to send in subscriptions to the
Scientific American, so as to begin with the new
volume.

The numbers for a year make up a splendidly
illustrated volume of 322 pages. Terms:—\$3 per
annum; \$1 50 for six months; \$1 for four months;
Clubs of ten and upward, \$2.50 each; Canadian sub-
scribers, \$3 25 per annum, always in advance. Spec-
imen numbers sent free; also, a pamphlet of advice to
inventors. Address

IMPORTER,GROCERIES AND LIQUORS WHOLESALE,
835 & 537 St. Paul Street. 27-ly

At a Council held in the City of Montreal, on Saturday,
the 8th day of December, 1866.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL
IN COUNCIL.

WHEREAS It has been represented to the Governor
General in Council that much inconvenience has
been, and is experienced by certain of the inhabitants
of this Province residing in the vicinity of the Cana-
dian Frontier line, by reason of their being deprived
of the privilege heretofore enjoyed by them of having
their grain produce ground at Mills situate on the
American side of the Frontier, and re-importing the
same into Canada free of Customs duty, in cases
where the closer proximity of such Mills to the resi-
dences of such inhabitants, or their greater capacity,
made it expedient to resort to them—

Whereupon, and on the recommendation of the
Honorable the Acting Minister of Finance, and under
the provisions of the seventeenth chapter of the Con-
solidated Statutes of Canada, His Excellency in
Council has been pleased to order, and it is hereby
ordered that any flour or meal or other produce of
any wheat or grain grown in and taken out of this
Province into the United States to be ground, and
brought back into this Province within one week
after such wheat or grain has been so taken out to be
ground, shall be, and the same is hereby exempted
from the payment of Customs duties; provided always
that such grain be first duly reported outwards at the
nearest Custom House before exportation for the
special purpose herein referred to, and that the
identity of the flour or meal, the produce thereof, be
sworn to on its importation into this Province.

W. A. HIMS WORTH,

Circular No. 202.

No. 35.

FINANCE DEPARTMENT, CUSTOMS,
Ottawa, 6th December, 1866.

Sir,

The time fixed, by Order in Council for the free
admission of fire arms, having expired on the 30th
ultimo, I beg to inform you that the prohibition,
created by the Imperial Act, against the importation
of fire arms, &c., from a foreign country, revives, and
you are therefore to govern yourself, from the above
mentioned date, by the instructions conveyed to you
in my Circular of the 12th January last. Arms and
munitions of war imported otherwise than from Great
Britain or the British possessions, are to be detained
and reported to this Department, to be dealt with as
you may be further instructed.

I am,

Sir,

Your obedient servant,

R. S. M. BOUCHETTE.

The Collector of Customs.
