WHAT IS CATARRH?

Catarrh is a mucopurulent discharge caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ of syphilis, mercury, toxemia, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease, but the use of inhalants and other ingenious devices, and some of these treatments can do a positive of the disease. The parasites are either destroyed or removed from the mucous tissue. Some time since a well-known physician, after forty years standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fail to absolutely and permanently eradicate this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the business managers, Toronto Mail, Messrs. A. H. DIXON & SON, 205 King St. West, Toronto, Canada. Enclose stamp for their treatise on Catarrh.

THE
Model Washer
and Bleacher

ONLY WEIGHS 6 LBS.
Can be carried in a small valise.

SATISFACTION GUARANTEED OR
MONEY REFUNDED.

\$1,000 REWARD FOR ITS SUPERIOR. Washing made light and easy. The clothes have that pure whiteness which no other mode of washing can produce. No rubbing required—no friction to injure the fabric. A ten-year-old girl can do the washing of a family of older person. To place it in every household, its price has been reduced to \$2.50, and if not found satisfactory, money refunded. See what *The Economist* says: "From personal examination of its construction and experience in its use we commend it as a simple, sensible, scientific and successful machine, which succeeds in doing its work admirably. The price, \$2.50, places it within the reach of all. It is a time and labour-saving machine, is substantial and enduring, and is cheap. From trial in the household we can testify to its excellence."

Delivered to any express office in Ontario or Quebec, charges paid, for \$3.
