There is a ripe side to the orange as well as to the peach. The stem half of the orange is usually not so sweet and juicy as the other half, not because it receives less sunshine, but possibly because the juice gravitates to the lower half, as the orange commonly hangs below its stem.

Canadian hay is becoming very popular in establishments where large numbers of horses are kept. They are said to thrive on it much better than on English hay, and it is believed to improve both the health and the appetite of the animals. The manager of one large firm is reported to have stated that, prices being equal, he would certainly prefer hay from the Dominion to that grown in the United Kingdom. - Colonies and India.

It is said that the Irish language—still lingers in the Bahamas among the descendants of the Hibernian slaves banished by Gromwell to the West Indies.—One can occasionally hear black sailors in the London Docks, who cannot speak a word of English, talking Irish to the old Irish applewomen whom they met, and thus making themselves intelligible without a knowledge of the Saxon tongue. This, at all events, is the story now going the rounds .-Colonics and India.

Mrs. C. J. Wooldridge, of Wortham, Texus, saved the life of her child by the use of Ayer's Cherry Pectoral.

"One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it stranging. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breathing grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."
