

# Diphtheria

## Antitoxin.

**A Strictly Reliable Serum Prepared after the  
Method of Behring and Roux.**

Inasmuch as the Antitoxic Serum produced in our Bacteriological Department will not be available until April or May, we have perfected arrangements for a supply of **DIPH-  
TERIA ANTITOXIN** prepared under the supervision of **Ira  
Van Gieson, M.D., and Nelson L. Deming, M.D.**, the  
well known bacteriological experts of New York City, and  
issued under their certificate of quality and strength.

This Antitoxin conforms to the conditions of the ordinance  
of the Board of Health of New York City, is absolutely sterile,  
and will be supplied in vials of 10 Cc. each.

**Three grades of strength will be furnished.**

1. A weaker serum which will contain 600 antitoxin units  
for immunizing purposes and for the treatment of mild cases.  
Issued under **blue label**; price per vial \$1.90, strictly net  
cash.

2. A stronger serum of 1000 antitoxin units for curative  
purposes—of sufficient strength for the great majority of cases.  
Issued under **yellow label**; price per vial \$3.50, strictly net  
cash.

3. A still stronger serum of 1500 antitoxin units for ex-  
ceptionally severe cases. Of this strongest grade our supply  
for the present will be limited. Issued under **green label**;  
price per vial, \$5.25, strictly net cash.

**Orders may be sent to our Detroit address; our New  
York City office at 90 Maiden Lane; our branch at 1008  
Broadway, Kansas City, Mo.; or our laboratory at Walkerville,  
Ont.**

**PARKE, DAVIS & COMPANY.**
