

CHARLES CHANTEAUD'S  
**SULPHYDRAL**

A Preventative and Sure Cure for all Infections, Contagious and Skin Diseases, and in particular for

**Diphtheria and Croup**

Price : \$1.00 per Box

The marvellous effects resulting from the use of SULPHYDRAL were foreseen by Dr. Fontaine, of Bar-sur-Seine, who was the first to use it as an antiseptic and parasiticide in cases of infectious diseases.

Never previous to this learned practitioner's discovery has a medical man been able to speak comforting words of hope to the anxious mother or relatives of a child afflicted with these terrible diseases. Diphtheria and Croup.

Hereafter the child suffering from Diphtheria or Croup will not have to be left hopelessly to die

*Dr. Fontaine has fully demonstrated that Sulphydral is a specific against Diphtheria, destroying with certainty all forms of this microbes.*

In this remedy, medical men possess a powerful weapon with which to subdue this terrible Diphtheric Membrane even when has reached the larynx.

In all cases of Diphtheria and Croup, Charles Chanteauds' Sulphydral is an indispensable supplement Dr. ROUX'S Serum Treatment.

But the beneficial action of Sulphydral do not end here.

Wherever microbes or bacillas have to be destroyed, wherever their multiplication have to be arrested, it can be used with the greatest of success.

*In cases of whooping cough or eruptive fevers it gives the best of results. It overcomes the most violent erysipylis in a few days.*

In brief, it is a priceless remedy in itself, perfectly harmless, has been administered in many cases with success before the arrival of the physician.

*The dose is from six to twelve Granules per day as a preventive. It must be given until Saturation has produced the desired effect.*

---

**Antinauseous Granules of Chs. Chanteaud**

**A preventive and sure cure for "Sea Sickness"**

Among the many diseases afflicting man, there is perhaps none to which medical men have given so little attention as that fearful indisposition known as "Sea Sickness." Hundreds of remedies have been repeatedly tried to relieve this helpless disorder, which in itself appears sometimes worse than real sickness, to be abandoned as failures.

The *Dosimetric Medecine*, has formulated a genuine treatment for "Sea Sickness" and the efficacy of this treatment leaves no doubts as to its results, as is shown of numerous success. Experiments of many years have permitted to verify and still allows to verify this assertion every day.

Charles Chanteaud's Antinauseous Granules are composed of following formulæ :

Sulphate of Strychnine .....	1 milligram.
Hyociamine .....	1 do
Bromhydrate of Morphine .....	1 do

**Note.**—The Granules, like all dosimetric remedies being preparations of great activity can only be obtained at the druggist on the prescription of a physician.

Price of Box : \$1.25.
