"'Nancy Stair' must be counted among the genuine successes of fiction of the last twenty years or so."
—*New York Evening Mail.*

"Nancy is a most bewitching heroine as child and woman, and the author makes her live with a sense of palpitating reality that takes her out of the written page into the heart."—*Harper's Weekly.*

Every Woman Admires a Tall Man

If you are short, you will appreciate the unpleasant and humiliating position of the little man in the above illustration. But you are probably unaware that it is no longer necessary to be short and uncomfortable.

The Cartilage Company, of Rochester, N. Y., is the owner of a method whereby anyone can add from two to three inches to his stature. It is called the "Cartilage System" because it is based upon a scientific and physiological method of expanding the cartilage, all of which is clearly and fully explained in a booklet entitled "How to Grow Tall," which is yours for the asking.

The Cartilage System builds up the entire body harmoniously. It not only increases the height, but its use means better health, more nerve force, increased bodily development and longer life. Its use necessitates no drugs, no internal treating, no operation, no hard work, no big expense. Your height can be increased, no matter what your age or sex may be, and this can be done at home without the knowledge of others. This new and original method of increasing one's height has received the enthusiastic endorsement of physicians and instructors in physical culture. If you would like to add to your height, so as to be able to see in a crowd, walk without embarrassment with those who are tall, and enjoy the other advantages of proper height, you should write at once for a copy of our free booklet "How to Grow Tall." It tells you how to accomplish these results quickly, surely and permanently. Nothing left unexplained. After you read it, your only wonder will be, "Why did not some one think of it before?" Write to-day.

THE CARTILAGE COMPANY.
