To supply a definite need —with definite finality

Where the family purse cannot afford a big expensive car—
 Where the family pride cannot afford an unsightly, little, un-
 comfortable car—

There the \$850 Overland supplies a definite need with definite finality.

The \$850 Overland proves conclusively—

That beauty is not necessarily a matter of size—

That size does not altogether control comfort—

That the small, comfortable, beautiful, economical car is not an impossible ideal—

That to succeed where all had failed simply required the broader experience, the unmatched facilities, the more highly developed skill of the Overland organization.

And here is the small, comfortable car—a beauty—complete to the last detail—inexpensive—economical—another and greater Overland success.

Its performance is on a par with its beauty, comfort and completeness.

And its price—\$850—is far below any former price for any com-

pletely equipped automobile—regardless of appearance or comfort considerations.

A glance at the car impresses you immediately with its beauty and finish.

As you look it over and read its specifications, you realize its absolute completeness.

But you must ride in it to appreciate its comfort.

You must drive it to get the thrill its performance will give you.

You can own one of these cars.

But act promptly—for naturally no car was ever in such demand.

In spite of record productions and advancing prices, there is a shortage of cars.

The demand naturally centers on top class at bottom price—this small light car.

And no other car at anywhere near its price can compare with this one for beauty, performance, comfort, completeness and economy.
