This is obtained by removing all impurities from the ordinary oil. It is no dearer than ordinary oil. As it will burn one-fourth longer and gives a clear brilliant flame, emitting no smoke or odor. Io those using COAL OIL STOVES it is highly recommended, as it will give greater heat and will do more cooking for the same money. For sale in barrels and cases, two cans in a case.

Catarrh-A New Treatment

Perhaps the most extraordinary success that has beon achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 2000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific. men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarn'h is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures stili. No one else has ever attempled to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the rem. edy is simple, and can be done at home, and the presentseason of the year is the most favorable for a speedy and permanent cure, the majority of cases being curedat ono treatment. Sufferers should correspond with Messrs. A. H. DIXON $\&$ SON, 305 King Street West, Toronto, Canada, and enclose stamp for their treatise on Catarrh. Montreal Star.
