**Malignant
Tumor**

Removed from the Neck of Joseph Reesor, Esq., of Markham Village, by **DR. McCULLY**.

This tumor was located immediately over the carotid artery and beside the jugular vein in the deep tissues of the neck.

A cancer plaster man had this case; this man lives and thrives because of the want of courage and profound ignorance of the average medical man.

If medical men knew their business and had the courage to practice what they know, these itinerant quacks and plaster men would have no abiding place in this community. But, alas! the average medical man knows about as much about medicine and surgery as the beasts that perish. In this case with a plaster, a fool rushed in where legalized surgical skill as ground out in this country dare not tread, and a valuable life was nearly sacrificed. Frightened at the results of his empiricism and ignorance he abandoned his victim to his fate, dropping the case before death laid in his claim, and leaving Mr. Reesor with a half dead and rotten malignant growth to take his life. This man lives at Markham Village and is not, but ought to be, adopted as a medical star of the first magnitude by the Medical Council and the Toronto Experimental Farm, where not many months ago a poor dying emaciated consumptive had his arm cut off and "the results" were "awaited with intense interest" by the inhuman vivisectionists who perpetrated the outrage.

Remember, we treat and cure all blood, skin and bone diseases—Catarrh, Asthma, Bronchitis, Consumption—diseases of the nervous system—deformities in any limb or any part of the body—diseases caused by the follies of youth of every character, and all chronic female complaints—also Cancers and Tumors. Mention this paper.
Address,

S. EDWARD McCULLY, M.D.,

MEDICAL DIRECTOR,

*Medical and Surgical
Association,*

283 Jarvis Street,

TORONTO, - - ONTARIO.
