

PHYSICIANS from Toronto and the western part of Ontario, who intend being present at the meeting of the Canadian Medical Association at Montreal at the end of this month, will be glad to know that they can travel from Hamilton or Toronto to Montreal by the magnificent steamers of the Richelieu and Ontario Navigation Company, thereby enjoying a magnificent sail down the St. Lawrence River. By leaving on Monday, the 24th inst., they will reach Montreal on Tuesday early in the evening and therefore be on the ground in plenty of time to register at the opening on Wednesday forenoon. Full particulars can be obtained from the Company's popular representative, Mr. Jos. F. Dolan, 2 King Street East, Toronto.

WE notice that Mr. S. H. Kennedy, of Johnstown, N. Y., manufacturer of the concentrated extract of oak bark (*Quercus Alba*), has taken the opinion of the well-known American lawyer, Judge R. P. Anibal, regarding the claims made by the Rio Chemical Co., of St. Louis, Mo., that Mr. Kennedy is manufacturing a counterfeit of their *Pinus Canadensis*. Judge Anibal gives it as his firm opinion that there is no infringement whatever, as fl. ext. *Quercus Alba* is made from oak bark and *Pinus Canadensis*, as made by the St. Louis firm, is manufactured from hemlock bark.

THE Woman's Medical College, of Baltimore, has lengthened its annual course to eight months, from October to May inclusive.

Exactitude Excellence and Economy

ENGLISH CLINICAL THERMOMETERS

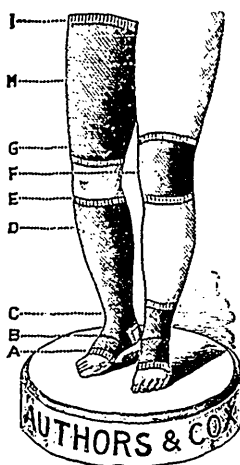

direct from the maker. Every Thermometer is timed and bears the maker's name and warranty. Beware of inferior imitations. Ask for Dean's Case (the original). Prices per box:
