ABSOLUTELY RELIABLE

I used your sample of Resinol on myself for Pruritis Ani, which has been my curse for several years, defying all applications. The first application proved efficacious, and I am now using and prescribing Resinol for the above and several other itching troubles. In fact I think it is the best remedy I ever used for the diseases for which it is recommended.

H. B. LEIGHTON, M.D., Boston, Mass.

I have used your Resinol in Inflammatory Rheumatism with happy results. Hope others will try it. I know they will be pleased.

E. J. BURNSIDE, M.D., Phila., Pa.

It gives me pleasure to say that Resinol is the best application for local treatment of Eczema I have ever used. I can also bear testimony to its efficacy in Erysipelas, and its soothing and healing virtues in all inflamed surfaces.

A. J. FRENCH, M.D., Lawrence, Mass.

It is but just that I should attest my satisfaction with the use of Resinol. It is a marvel of efficacy in Pruritus Ani. In relief of soreness, due to scalding from acute Nasal Coryza, it acts like a charm.

J. H. THOMPSON, M.D., Goshen, N.Y.

Resinol is a harmless antiseptic and a true skin anæsthetic, absolutely non-irritant and non-toxic (free from lead, mercury or cocaine), can be applied to mucous, excoriated or denuded surfaces of any extent at any age without fear of untoward results, and is not contra-indicated by any internal medication that may not be deemed advisable.

Resinol is by far the best application I have ever used in a practice of 43 years, for the diseases recommended. A case of Eczema commencing on the scalp and extending over the entire face, and which had been under the treatment of various physicians with no apparent benefit, was completely cured by it less than two weeks.

J. J. WORTHY, M.D., Lavallo, Wis.

I am very much pleased with the effects resulting from the use of Ung't Resinol in cases of Itching Piles, Pruritis Ani, and Vulva, Eczema, Erysipelas, etc. In fact it is the remedy par excellence in all cases where there is a Congested or Hyperæmic condition of the capillary Blood Vessels.

C. D. SMITH, M.D., Atlanta, Ga.

I frequently prescribe Resinol, and am well pleased with its work. It has proved very useful in many forms of eruption of the skin, and especially so in Pruritus Vulvæ or Ani, and in Eczema of other parts of the body.

LUCY HALL BROWN, M.D., Brooklyn, N.Y.

I take pleasure in stating that I have found Unguentum Resinol almost a specific for Pruritus Ani, Itching Piles and Marginal Eczema.

HENRY HUG, M.D., Detroit, Mich.

Resinol is put up in One Ounce jars at 50cts. each, and can be obtained at any drug store.

Sample sent free on application, or one regular size jar for trial on receipt of 25cts.

RESINOL CHEMICAL CO., Baltimore Md.
