

Order Paper Questions

estimated commitment in the full 48 cases, however, is \$5,741,594. The projects are expected to create an estimated 2,644 jobs.

3. Private industry put up or arranged for the financing of the balance of capital requirements. Based on the total incentive offers accepted (48) there could be at least \$33,832,883 calculated as follows:

Eligible capital costs (fixed assets)	\$17,332,107
Grants	5,741,594
Working and other capital	11,590,513
Balance of capital requirements	22,242,370
	\$33,832,883

STUDENT SUMMER EMPLOYMENT

Question No. 1,465—**Mr. Orlikow**:

1. What number of high school and university students were registered with Canada Manpower Officers for summer employment in the months of May, June, July and August, for the year 1972?
2. Of this number, how many were placed for employment and how many was the Department unable to place for employment in each of the above months?

Hon. Robert K. Andras (Minister of Manpower and Immigration): 1. This question cannot be answered from available statistical data.

2. Placements on a cumulative basis for the months in question were: 43,177, 90,216, 141,933, 174,709; the percentage increases from the corresponding months of 1971 being: 42.9 per cent, 20.5 per cent, 28.5 per cent, 23.7 per cent. As active registrations cannot be broken down month by month, the latter part of question 2 cannot be answered. However, in addition to providing special placement facilities for students during the summer, my department encourages the students to use their own initiatives to secure employment. The results of a survey carried out in the fall of 1972 indicate that of the students

who ostensibly remained on the active files during the summer, approximately two-thirds had found jobs on their own. In addition, some 25 per cent of those who found jobs on their own said that their contact with a Canada Manpower Centre had materially assisted them to do so. Although high school and university student registrations are not broken down separately, a post-secondary survey of summer employment experience, also carried out in the fall of 1972, indicates that 91 per cent of the post-secondary students who sought work in 1972 succeeded in finding a job for at least part of the summer. This figure of course includes those post-secondary students who were placed in employment by Canada Manpower Centres.

*FISHERIES AND MARINE SERVICE SHIP BUILDING PROGRAM

Question No. 1,492—**Mr. Howard**:

With respect to the ship building program planned for Fisheries and Marine Service as announced by the Minister of the Environment on February 22, 1973, are any of the ships under that program to be built in British Columbia and, if so, which ones?

Mr. William Rompkey (Parliamentary Secretary to Minister of the Environment): Mr. Speaker, the answer to this question is as follows: In awarding contracts for shipbuilding, efforts are always made to obtain them at the lowest possible cost. It has been the practice of the government nevertheless, if possible, to buy the vessels in the area where they are to be used.

GROSS NATIONAL PRODUCT—NATIONAL INCOME AND DISPOSABLE INCOME

Question No. 1,493—**Mr. Madill**:

What was the (a) Gross National Product (b) National Income (c) Disposable Income (d) Gross National Product per capita for Canada from March 31, 1967 and each fiscal year up to March 31, 1972?

Mr. Herb Breau (Parliamentary Secretary to Minister of Industry, Trade and Commerce): Statistics Canada reports that:

1.	1967	Fiscal years ended March 31				
		1968	1969	1970	1971	1972
(a) Gross National Product (\$ millions).....	62,981	67,531	74,470	81,285	86,606	95,409
(b) National Income (\$ millions).....	47,130	50,631	56,225	61,653	64,944	72,689
(c) Personal Disposable Income (\$ millions).....	40,660	43,667	47,954	51,883	54,743	61,256
(d) Gross National Product (per capita).....	\$ 3,147	3,314	3,597	3,871	4,067	4,423

Source of data: The estimates of Gross National Product, National Income and Personal Disposable Income have been derived by summing the calendar quarterly estimates, unadjusted for seasonality, to a fiscal year total. The population estimates used to derive per capita Gross National Product are the estimates as of June 1 of the calendar year ending in the fiscal year.

DEPARTMENT OF SOLICITOR GENERAL—PERSONNEL

Question No. 1,508—**Mr. Knight**:

1. How many full-time employees were there as of January 31, 1970 in the Department of the Solicitor General?

[Mr. Prud'homme.]

2. How many of those employees were earning more than \$15,000 annually, distributed according to \$1,000 intervals?
3. How many full-time employees were there as of January 31, 1973 in the Department of the Solicitor General?
4. How many of those employees were earning more than \$18,000 annually, distributed according to \$1,000 intervals?

Hon. Warren Allmand (Solicitor General): 1.

Departmental Administration.....	45
Royal Canadian Mounted Police.....	11,682
Canadian Penitentiary Service.....	4,611
National Parole Board and Service.....	282
Total.....	16,620
