If you are losing your health and can see evidence, from day to day, that your physical system is going to decay, you should, in common justice to continue happiness, take steps to check this.

Nature is appealing to you every moment to save yourself. The slight pains that you feel, the momentary spells of weakness, the periodical loss of memory, dulness of brain, drowsiness—all point to the necessity of curing yourself now. I have a positive cure for you in my

### PLANS OF G. T. P. RATHER VAGUE

R. Section Causes Speculation at Ottawa.

OTTAWA, Jan. 13 .- (Special.)-Considerable uncertainty still prevails in official circles as to the intention o the Grand Trunk Pacific toward taking over and operating the Nationa

ing over and operating the Nationa Transcontinental.

Altho steel is laid from Moncton to Winnipeg, the Grand Trunk is no operating any part of the line except the portion between Superior Junction and Winnipeg. In this connection much interest attaches to the decision of the exchequer court, which will soon be delivered in the litigation between the National Transcontinental Railway Commission and the Canadian Northmers.

The National Transcontinental gets entrance into Winnipeg thru the yard of the Canadian Northern, grade sepa ration being effected by a huge embankment, which practically cuts it two the Canadian Northern yards. The company estimated their damages a \$3,000.000, but the National Transcontinuated Commission refused to may tinental Commission refused to pay more than about ten per cent, of that amount, hence the litigation above re-

ferred to.

It is said in this connection that the recent attack upon Chairman Leonard by The Winnipeg Telegram was an outgrowth of the disputes engendered by this litigation and had nothing to do with the personal relations existing between Mr. Cochrane, the minister of railways, and the minister of public works, Mr. Rogers, who is credited with owning The Telegram.

## HEART SONGS The Toronto World's

World-Famous Song Book

Welcomed by the Masses in Increasing Numbers in its Distribution Day by Day

### A \$2.50 Song Treasury Almost Free

"The Last Rose of Summer" is one of the world's song classics. Sung by the greatest singers of the last fifty years--sung in cottage and palace--sung in every nook in every land--it is still as popular as when Adelina Patti melted the hearts of her audiences to tears with its wondrous notes.

What makes a song a "classic"? It is its universal appeal to the human heart. If it has this quality, it is a classic--no matter by whom written--whether by a negro minstrel like Dan Emmet--an ignorant country lad like William Hutchinson--or a consummate musical genius like Schubert---the one touch of wedded melody and word is what makes the song immortal and fixes it in the starry firmament of the classics.

Judged by this standard, every song in Heart Songs is a classic. It is not for today, but for all time. And to have four hundred classic gems in one volume---where the music lover can gratify his every mood on the instant--that is, indeed, a boon for which one cannot be too grateful to the publisher whose inspiration first conceived the idea.
