Hundred Years' Peace Celebrated by Ad Men At Monster Gathering

Massey Hall Was the Scene of a Remarkable Demonstration When Mendelssohn Choir Sang and Speakers Told of North America's Great Achievement.

Massey Hall on Sunday afternoon was the scene of a remarkable demonstration significant of one hundred years of peace between the United States and Canada as exemplified by the Associated Advertising Clubs of America in an international gathering. More than one-half of the three thousand people who filled the auditorium were Americans, the delegations from various cities in the United States occupying blocks of seats, with President Wood head, official head of the organization, and the executive committee, sitting in the centre of the balcony. Preceding the speeches, the 48th Highlanders Band rendered a short program in which the "Star Spangled Banner" evoked tumultuous applause, while the entire audience stood. Toronto's far-famed Mendelssohn Choir was on the platform in its full strength of two hundred voices, with Dr. A. S. Vogt at the conductor's desk. They sang three selec tions, including Lotti's "Crucifixus," and a setting of Psalm CXXXVII. Lieut. Governor Sir John Gibson acted as chairman and introduced Sir Edmund Walker and Dr. J. A. Macdonald. The sentiments expressed by both speaker

TORONTO OWNED BY DELEGATES

The spirit of "boost" and good-fellowship is abroad in Toronto. With legates from all part of the continent, the lobbies of the downtown hotels have presented sights never before witnessed in Toronto.

One of the most vital questions for ecision by the Convention of the Asociated Advertising Clubs of America which opens today is the policy which the delegates are to adopt with re- train which arrived at Union Station gard to the use of the "Truth" seal as during the day bore delegates to the

vertisers who conform with the requirements of the seal to pay a fee. The matter was tentatively discussed at Saturday's executive meeting to which the Phelan bros., C. A. and J. E. of The Bridgeport Herald, Bridgeport, Conn., were invited. The Phelans and the Publicity Club of Bridgeport oppose the levying of a fee and favor making the truth seal an absolutely free proposition, open to all and without charge.

Advertisers Come In.

By their plan, the advertiser signs an agreement or pledge not to use or permit the use of any fraudulent or misleading statement in any advertisement, and guarantees the truth of all statements made. Working on this basis, they have in their own town lined up 70 per cent. of the advertisers since March, when the scheme was

The Minneapolic Advertising Forum, Mac Martin, president, which also takes an active interest in the reform of advertising methods, has adopted a different plan. They have established "Bureau of Fair Competition," in charge of a salaried secretary, to which any person is entitled to apply and have the bona fides of any desired advertisement investigated in the same manner as a credit rating agency would do it. This "vigilance work," as it is called, has been instrumental in lining up 65 per cent. of the Minneapolis advertisers, who co-operate in the movement.

The Fort Worth Club has also been carrying on the truth propaganda, and it is likely that they will have suggestions to submit when the matter comes up for discussion.

The work of the reception committee of local ad men was commented upon favorably by many of the visiting ad men last night. The fact that many delegates were accompanied by their wives and daughters caused some difficulty in the securing of accommodations. Most of the difficulties were overcome, however, as the reception and hotel committees had arranged with many private homes to care for families, while smaller hotels and the Y. M. C.
