

RUTTAN'S

Scientific Ventilation.

"Impure air engenders more disease than all other causes combined."—*M. Racore, Paris, France.*

"I aver my belief that defective ventilation especially among the wealthy, is a more fruitful cause of disease and death, particularly in women and children, than any other."—*McCann Gunn, M. D.*

CANADIAN GENIUS TRIUMPHANT.—By which the *absolute* is actually reached in the Ruttan Ventilation. Citizens are respectfully invited to call and see for themselves this triumph of science demonstrated; and witness the manner by which the pure, fresh air of heaven (untainted and free from the corroding influences of carbonic acid, and other destructive agencies,) can be readily introduced and removed every few minutes from every room in the building, from garret to cellar, thereby giving a guarantee of health never before assured to the denizens of large cities and others within range of modern civilization.

Winter and summer by this system of ventilation, pure air is assured.

No dust or insects can reach your bed chambers or parlors.

Although we challenge the world to produce a "Heating Apparatus" in connection with our Ventilation that is so cleanly, so effectual and economical, yet we make the ventilation a specialty, (without regard to warming,) thus opening the field to all the heating firms in the country to guarantee the warming of all classes of buildings in connection with our system of Ventilation. In all cases, if desired, we will contract for "warming and ventilation," with any kind of fuel.

Physicians, Lawyers, Architects, and professional men, why do you sit in your tightly closed offices, inhaling over and over again vitiated air? Think for a moment how indifferent you are to the laws
