Manager Arthur Hawkes of the publicity department of the Canadian Northern, is back from Bristol, England, whither he went recently with a party to visit the chamber of commerce there, as guest of the delegation of Bristolians who were touring Canada few weeks ago.

While in Bristol Mr. Hawkes witnessed a meeting at the council house, at which H. L. Riseley, the leader of the recent party, entrusted to the lord mayor of Bristol a loving cup and a banner; to be forwarded to the mayor of Winnipeg, who should present them to the newly-formed society of Bristolians in that city, and of which Mr. Riseley was elected first president during his visit to Canada. The idea of the presentation was to bring the two cities into closer relationship and to stimulate the loyalty in the minds of the citizens of Winnipeg. The banner, in particular, had imperial associations, having been placed over the seat of Queen Alexandra when, in 1908, King Edward opened the Royal Edward Dock. The loving cup had as part of Dock. The loving cup had as p

PRICE OF SILVER World Office; Bar silver in London, 25-15-16d oz. Bar silver in New York, 56%c oz. Mexican dollars, 45c.

Monday Evening, Oct. 24. The week opened with another brisk upturn in the higher priced Conalt stocks on the local mining markets, both La Rose and Nipissing displaying remarkable buoyancy under an excel-

zation. There has been a lack of

THE ADVANCE IN SILVER.

Those who watch silver quotations know well that for the past 20 months silver has been quoted between 50c and 53c an ounce, says The New York Mining Age. Two weeks ago an advance got under way, and it is now entrenched at 56 1-2c an ounce. This is a gain of 4c from the recent average is a gain of 4c from the recent average quotations, and is of itself of considerable importance to most silver mines.

Take it at Cohalt, for instance, it has been figured out by a well-known engineer that every cent advance in the price of silver means a net gain to the mines in that section of \$280,000 per quotations, and is of itself of considprice of silver means a net gain to the mines in that section of \$280,000 per year, so a 4-cent gain shows an ever-age of \$1,000,000 toward the net increased earnings which these proper-ties will be able to show if the present

s will be able to snow ale of higher silver prices continue. The explanation for this advance is at largely to the improvement of the liver situation in India, the increased emand for that metal in that section being principally responsible for the advance scored. In addition there have been no recent silver discoveries of any promising large output, and the market by this time has evidently accustomed itself to the Cobalt production.

GOULD CONSOLIDATED The buying of GOULD CONSOLIDATED shares has been, to our own know-edge, of the very best character. An important change will likely be made

This company has again been put on a strong financial footing. The company's property is, according to good engineers' advices, a network of strong veins that can be made rich ore producers in a short time.

From our information of the company and its property we regard this as the best purchase in the Cobalt market. If you want further information, write us, but in the meantime the stock is liable to witness a big rise,

A. J. Barr & Co., 43 Scott St., Toronto MEMBERS STANDARD STOCK EXCHANGE.

NEW YORK TAKES HOLD

The advance in NIPISSING and LA ROSE is due primarily to New York buying. We saw indications of this several days ago and so advised our clients. We place considerable dependence upon the fact that New York is again taking a keen interest in Cobalts. This means much for all the active stocks, and altho advances may be delayed, it is only a question of time before a much higher range of quotations will rule. For good profits we advise the immediate higher range of Little Nipissing, Right of Way, Peterson Lake Hargrave, Nova Scotia, Cobalt Lake. The following are good speculation: Bailey, Silver Leaf, Gould Consolidated. Write for information.
