THE T. EATON CO LIMITED

VACCINATION NOT TO BE ENFORCED IN SCHOOLS

Management Committee Decides That Consent of Parents Must Be Had.

Vaccination will not be compulsory in Toronto schools. The report of the medical inspection sub-committee was brought in yesterday to the management committee, which endorsed the sub-committee's plan of asking the parent's permission before the child is vaccinated. The committee also recommends that new books be given to each scholar to be his or her property, except the geography, and the teachers will receive instructions not to allow the geography to be taken home.

The committee recommends that the assistant medical inspector and school nurses be allowed twenty days' leave of absence for illness, as is accorded the teachers.

Miss Ella J. Jamieson, nurse, was granted four months' leave of absence. A communication from Dr. Hastings, M.H.O., asking the board to do away with the common drinking cups in the schools, was read, and it was decided to ask Mr. Kerr, clerk of supplies, to find cost of sanitary cups, or sanitary fountains, and in the meantime the solicitor will be asked to report as to whether the board must obey Dr. Hastings' mandate.

The board of high school principals were asked to prepare a report on physical work in the colleges and high schools.

A special committee composed of Trustees Conboy, Dineen and Shaw was appointed to decide what collections

Let Me Guarantee You Satisfaction in BREAD

I buy the best "Five Roses" Flour. I have the best Bread Experts. I have the most sanitary bakery, and the most economical system. All these things merely explain how it is I can guarantee satisfaction, and how it is I can give
