## SURE TO BE IN CABINET

But Otherwise Uncertainty Prevails and Genuine Surprises May Be in Store.

OTTAWA, Sept. 29.—Up till tonight two men and no more than two had been definitely slated for places in the Borden cabinet. The world is informed that the cabinet forecasts so far published are wide of the truth and that the authentic list of Borden's ministers will be announced in the near future.

Mr. Borden is making his own cabinet, and he is taking the advice of his own men, Sir James Whitney, it will not be, according to the best information available to-night, composed of the greatest of men who have been known in the political world, or who have done party service.

Mr. Borden is taking the advice of his own men, Sir James Whitney, it will not be, according to the best information available to-night, composed of the greatest of men who have been known in the political world, or who have done party service.

## TURKISH FLOTILLA SCATTERED BY ITALIANS

Continued From Page 1.

government to gain popularity may induce the government to show that it also can play the same game of aggression, and demand that Greece give up her claims on Crete.

Planned by Triple Entente.

British officials are more concerned over the possibilities of trouble in the Balkans and Greece than with the actual conflict over Tripoli. The theory gains ground that Italy's stroke is the last act of the program agreed upon by the powers of the triple entente, that it was arranged that Austria took Bosnia and Herzegovina, Italy Italy an awaited an opportune moment to carry it into execution.

Austria's action in the two provinces, Germany's forward movement in Morocco and Italy's compensating campaign nearly completed, are interpreted as friendly overtures as too logical to be considered mere independent acts.

England's Hands Tied.

England's hands are tied, really in the present strategic relations in Europe. The government cannot afford to incur the enmity of either belligerent by taking sides with the other. Yet, the neutrality means a loss of influence with Turkey, which she has been struggling to retain since the beginning of the Young Turk regime.

While most of the London papers bemoan the war as a calamity in which England could not interfere, the Daily Graphic attacks the foreign secretary, Sir Edward Grey, contending that he should have stood by the treaty obligations, which make the neutrality of the Ottoman Empire a European affair, in which no one power has the right to interfere.

Germany Will Protect Italians.

BERLIN, Sept. 29.—Germany, which is watching the Turco-Italian situation with the keenest interest, is directing her endeavors towards concerted action with the other powers to limit the area of hostilities. Germany may be the strongest effort to prevent an outbreak of war, and only gave up hope at the last moment. It is announced that she has consented to undertake the protection during the hostilities of the property and lives of the Italians in Turkey, who number 50,000.

Naval Movements.

PARIS, Sept. 29.—An unconfirmed rumor has reached Paris from the Mediterranean, that the British cruiser Medina has left to occupy Bombay, a natural harbor between Derna and Alexandria.

TOULON, Sept. 29.—The French armored cruiser Ernest Arden, sailed from here this afternoon for Tripoli.

Italian Enthusiasm.

CHIASSO, Switzerland, on the Italian Frontier, Sept. 29.—Despatches from the important Italian cities, of much enthusiasm over the expedition to Tripoli, the various regiments composing which are now centered at various ports. All the officers have volunteered services, and the Italian people are taking part in the expedition to be chosen by lot.

The police measures to check disorders have been very stringent.

The Italian fleet will occupy the whole coast from Tripoli thru Benghazi to Derna. The military expedition will be completed as rapidly as possible, and it is expected that the fleet will have completed the occupation by to-morrow.

Italian Press Approves.

Three of the opposition, approve the action of the government, but some of the Socialist papers oppose it, while the Milanese Secolo, the organ of the Radicals, strongly criticizes the moment and means chosen for occupation.

The Secolo says: "If the principle is established that it is enough to say to Turkey 'you Tripoli in disorder and abandonment; therefore we take it and bring civilization there,' any power might say to her, 'you left the south crushed under poverty, illiteracy and superstition; therefore we seize it.'"

WASHINGTON, Sept. 29.—The declaration of war by Italy upon Turkey, coming as it did with practically no notice, created a great sensation in official Washington. The state department has been very busy.

The Italian fleet will occupy the whole coast from Tripoli thru Benghazi to Derna. The military expedition will be completed as rapidly as possible, and it is expected that the fleet will have completed the occupation by to-morrow.
