Traders as well as the more substantial members of the financial community have evidently arrived at the conclusion that prevailing market conditions will experience no material change until the next Liberty loan has been successfully floated.

Apropos of that undertaking, the presence in this city of Secretary McAdoo was coincident with another advance in Liberty 3 1-2 to the high record of 102.06. This new maximum reached on a very large turnover, compares with the year's minimum of 97.20.

BREAK IN CORN FOLLOWS RISE

Kansas is Still in Need of Rain-Oats Weak at Close.

Chicago, Aug. 21.—The corn market started the day still under apprehension as to crop conditions and prices mounted rapidly. Kansas still needed rain and the state meteorologist said that "prospects for even a fair crop are diminishing." Commission houses and shorts bought freely. The government weekly weather review, however, found conditions improving in Illinois, Nebraska and lowa, and in certain localities southwest where there had been rains. A break in prices followed.

Oats shared the early strength of corn but turned weak. The selling developed that the market had little buying power. Gountry offerings increased on the advance. The close was weak, ¼c to ½c net lower, with October at 74%c.

The dull atmosphere of the provisions pit a little profit taking was sufficient to offset demand from scattered commission houses.
