"Syndex" Wonders How Stock Bears Can Even Cause a Temporary Slump in Ontario Stocks.

THAT VISIT OF THE LEGISLATORS

trict-News From the Different Mines.

stock market. Just at the present tin usual, because of the fact that never the history of mining in this Rainy Rive in progress, nor were ever the prospect spondent speaks advisedly, though not yet at liberty to give particulars, in stating that three at least of our well-known mining properties, within a radius of twenty miles of Hat Portage will pass under the management of English companies, which will instal large plants and conduct operations on an extensive scale. With the advance that is being made on every hand, it is really surprising that the stock bear should sacceed in causing even a temporary slump in the mining stocks of this district. An Invitation.

The Latest Reports.

The latest reports from the Bullion Mining Company's operations, adjoining the Mikado mine, are most encouraging. Their shaft is being pushed down rapidly and is in rich ore, much of it showing visible gold. They have on the ground an air compressor plant, which is being installed, and expected to be in operation shortly. The Toronto & Western Gold Mining Co. are testing a contact on the point on the west side of Clytle Bay Narrows. They have found a new vein, which has a very promising appearance. Their operations are being pushed under Mr. Breidenbach's vigorous management. In that immediate rigorous management. In that immediate vicinity, to the northeast of Rush Bay, some rich discoveries have recently been made, and that district continues to attract a great deal of attention, upwards of 5000 acres having recently been surveyed and applied for there. The Rainy River Co.

applied for there.

The Rainy River Co.

The Rainy River Gold Mining Co. are doing some work on their Leader property, two miles southwest of Keewatin, on the lake shore. The main yeln on mining location 86 P has been stripped to a width of 32 feet. It was heavily capped with decomposed material, showing a large amount of oxide of iron, and the vein in places is being crosscut, giving promise of good value. It is proposed to ship ore to the Keewatin Reduction Works. The vein ont-cropping being right on the lake shore, with good elevation and deep water, could be loaded right out of the ore bucket into barges, making it a very attractive proposition for cheap mining. This company are continuing their operations on their Wimor and Electro-Gold properties and have other development work operations in contemplation. They have some deals under negotiation which give promise of good things in the immediate future for every onc of their shareholders.

Mr. F. H. Oxman and his two associates, representing the Delamar Gold Mining Co. of Nevada, have returned west, but express themselves so well pleased with what they saw here that it is their intention to return in about five or six weeks.

Messrs. H. F. Holmes and Matt Brown are doing some work on locations which they own, near Margach, alout 12 miles east of Rat Portage, namely: Marion, Tip Top and Pride of Canada; these, including the Bad mine, have just been examined by Mr. W. D. Pettigrew, for a big Scotch Syndicate.

The Rat Portage Rowing Club have big things on for their regatta on Dominion

Option on Three Claims. The Silver Bell Company has secured an option on three claims in Camp McKinney, lying between the Fontenoy and the Ecuador, on ithe line of the Waterloo lode. The claims are Pathfinder, New York and Gold Cup, and work is being started at once.

Refused a Lot of Money. It was stated yesterday that the North Star Mining Co. of Fort Steele refused to give English capitalists a snort option on an offer of a million and a half dollars for the North Star property.

Saturday Board Discontinued. The Saturday Board of the Toronto Mining Exchange will be discontinued until further notice. The Toronto Stock Exchange also discontinues its Saturday board for the summer months. The Standard Mining Exchange will hold their regular Saturday morning meeting.

Golden Star Down Again.

There is continued activity on the Toronto Mining Exchange and the stocks are generally fairly strong. Golden Star is on the toboggan again, and sold down to 50% yesterday. Van Anda seems to be a favorite ind the small-priced stocks, and it closed yesterday at 9½ and 9. Superior Gold and Copper continued strong, and it closed at 18 bid and 19 asked. The big rise in the price of War Eagle was considered rather a surprise, and the brokers do not out forth any reason for it. Golden Star Down Again.

Smuggler, Deer Park and Monte Cristo.

Those who are "averaging up" on these stocks at present low prices should communicate with Wilson Barr & Sons, Hamlton or Toronto, as they are selling at very low prices.

("ALICE A." MINE

Send numbers of your Certificates and Shares to Company office, Keystone Block, West Superior, Wisconsin, U.S.A.

This Is Important.

Rainy River

Stock in this company means stock in 54 fine properties, specially selected, after examination by experts, including the WIMOR and ELECTRO-GOLD mines, on which work is being pushed vigorously. A special switch is being put in on the WI-MOR by the C. P. R., and the 500 foot vein on the ELEC-TRO-GOLD is likely to beat anything in the whole country.
